Acer® AX3910-U2032 Desktop

Multitasking Productivity Made Small

Selling Points

1 Petite Size, Robust Features

The streamlined and stylish Aspire X3910 is just **one-third the size of a traditional PC** taking up little desk space while providing flexibility and scalability to satisfy all home computing needs.

With the power of two cores, the **Intel® Pentium® processor** delivers multitasking power for everyday computing so you can push play and creativity further.

Work and play fast with **4GB DDR3 Memory** providing quick system response so you can multitasking effortlessly.

Always have a way to connect to the Internet reliably with **802.11b/g/n Wireless** and **10/100/1000 Gigabit Ethernet LAN**.

2 An Exciting Entertainment Experience

Integrated Intel® graphics make the most of your visual experience with stunning visuals, beautiful video playback, and excellent mainstream gaming performance.

Extend your HD movies and the highest-quality content to your big screen television or external LCD easily with a single cable through the **HDMI Port**.

Watch movies and burn DVDs and CDs of your favorite music, digital photos and movies with the **SuperMulti optical drive**.

High-Definition Audio support with 5.1 Channel Output provides intuitive surround sound and enhanced base from any pair of speakers.

3 Lots of Storage and Plenty of Extras

Acer Arcade Deluxe is your all-in-one media portal that offers an effortless approach to manage your digital media.

The large **640GB Hard Drive** has plenty of space to store your digital photo albums, music library and rich media files so you can save all your favorites in one spot.

The **Multi-in-1 Digital Media Card Reader** is located in the front for convenient access when transferring photos, music and video from popular digital devices.

eSATA port provides a high-speed connection to external hard drives to quickly off load files or expand your storage space.

Windows® 7 Home Premium makes it easy to create a home network and share all of your favorite photos, videos and music. If you like media, Home Premium is for you.

Nero® 9 Essentials
Acer Arcade Deluxe

(1) Overall system performance is based on several PC attributes. GHZ, processor clock speed, is one of the attributes.

(2) Shared system memory may be allocated to support integrated graphics depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by the amount of shared system memory utilized by the graphics solution and resources required by the operating environment.

(3) 1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Acer eRecovery Management utilizes up to 8 GB (10 GB with Microsoft® Works with Office Home and Student 2007 Trial) of the stated hard disk capacity as dedicated backup space.

(4) For a free copy of the standard limited warranty end-users should see a reseller where Acer products are sold or write to Acer America Corporation, Warranty Department, P.O. Box 6137, Temple, TX 76503. TFT displays commonly exhibit a small number of discolored dots, so-called "nonconforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect and, as such, is not covered by the limited warranty or by the upgrade programs. For international travelers warranty valid only in countries where Acer has an authorized repair facility. For a list of those countries go to <http://global.acer.com/support/iw.htm>. or call 800-816-2237. Services and response times may vary in countries outside the U.S. and Canada

(5) 60-days of complimentary subscription. Internet connection required to start trial.
