Product Highlights**Contrast Plus**

A special circuitry has been incorporated into this receiver to enhance the darker portions of the picture for added realism and overall picture quality.

Smart Picture

A touch of the SMART PICTURE button on the remote control provides the option of selecting one of four preset positions (Soft, Natural, Rich, Personal) to enjoy excellent viewing under different lighting conditions. Select the desired option and all important picture elements are instantly adjusted to optimize viewing pleasure. 'Rich' for bright daylight conditions, 'Soft' for dark room settings, 'Natural' for normal ambient conditions and 'Personal' for individual preference.

Smart Sound

A touch of the SMART SOUND button on the remote control provides the option of selecting one of four preset positions (Movie, Music, Speech, Personal) to optimize each individual sound preference when viewing different programs or sources.

Smart Text (Favorite Pages)

A touch of any one of the four colored teletext buttons on the remote control recalls instantly the desired favorite teletext page. Simply program four favorite teletext page numbers into the four teletext colored buttons for quick access.

Easy Tune (ATS/ACI)

A no fuss and easy way to install and store channels in any favorite order

Sleeptimer

The Sleptimer automatically turns the TV off at a preset time of up to 240 minutes from the time the feature is activated. Sleptimer settings are programmed in 15, 30 and 60-minute increments.

Plug and Play

No problem anymore to install your new TV. You choose the language you are more familiar with, the country you are in and the TV will install automatically all available programs.

Delta Volume

It is a static feature that simple allows the user to put a delta in volume for each channel. Therefore it avoids undesirable changes in volume, due to different sound modulations of the programs, during channel browsing.
