-
-
- ◆ Plug the other side of the cable into serial port (RS232) on the back of the computer, the terminal, or other device. Then you might tighten the screws (optional)

1.6 Software Installation

Start your PC as usual, then plug in Web Runner Modem to any spare Serial port on your system. Windows will report that it has found a new hardware and will open the *Add New Hardware Wizard* reporting that it searches for the new drivers for an *Unknown Device*.

Click on the *Next* button.

Windows will propose to search for the best drivers for your device.

Click on the *Next* button. Insert Atlantis Web Runner Modem software CD-ROM.

Select *Specify a Location* the *Add New Hardware Wizard* window and click the *Browse* button. If installing from CD-ROM, specify the *drivers* directory when asked for (D:\driver\WebRunner\WinXP-2000 or WinME or Win98).

The *Ambient 56K External Modem* will be proposed.

Click on the *Next* button. Windows will build a database for this device.

Click again on the *Next* button to finish the installation of the driver.

Windows will then detect again a *New Hardware* and will install the Modem drivers.

At the end of this installation process, the *Device Manager* panel of the *System Properties* will show the addition of Ambient 56K external modem in the Modem section.

1.7 Fax Talk

The Web Runner is able, thanks to the software FaxTalk furnished in endowment and to her technical characteristics, to become a versatile tool that allows the same time the send / receive Fax and it allows to emulate the use of a sophisticated answering machine. Once launched the Setup you will have indeed to choose the language and then you will be proposed a list of installed modem on the PC (to choose Ambient 56K External Modem, if you have different of it). it will immediately begin the recognition of the characteristics of the modem. Such trial is automatic entirely, you won't have to do anything else other than to wait for some second. Finished the installation you will be asked to restart the SO. Launching the icon Fax Talk Communicator you will be sent in the main window of the program.

For greater details to consult the electronic guide in English furnished with the software or to the section FAQ on the site www.atlantisland.it.
