

IR made easy, with Model C-1201, 3 conductor input with 8 output locations, C-1201 can be used at entertainment areas to expand the IR emitters (flashers).

Description:

Model C-1201 Features:
 -Channel Vision's power supply (5020) powers the C-1201. To use a common flasher, Strip off the mini pin on the flasher. Insert the signal wire two conductor (white strip) into screw terminals marked (S). Then insert the ground wire into terminal marked (G) next to the power. Install up to 8 IR receivers model # (IR-2200/IR-2001)

-Model # IR-1001 can power C-1201 making a convenient expansion block for IR-repeaters or flashers. C-1201 does not need direct power when using a C-1001.

-Snaps into Channel Vision Central chassis model # C-0112/C-0119/C-0138/C-0150.

Wiring:

3 wire IR or CAT 5

Channel Vision Limited Warranty

Channel Vision Technology will repair or replace any defect in material or workmanship which occur during normal use of this product with new or rebuilt parts, free of charge in the USA, for two years from the date of original purchase. This is a no hassle warranty with no mail in warranty card needed. This warranty does not cover damages in shipment, failures caused by other products not supplied by Channel Vision Technology, or failures due to accident, misuse, abuse, or alteration of the equipment. This warranty is extended only to the original purchaser, and a purchase receipt, invoice, or other proof of original purchase date will be required before warranty repairs are provided.

Mail in service can be obtained during the warranty period by calling (800) 840-0288 toll free. A return Authorization number must be obtained in advance and can be marked on the outside of the shipping carton.

This warranty gives you specific legal rights, and you may have other rights (which vary from state to state). If a problem with this product develops during, or after, the warranty period, please contact Channel Vision, your dealer, or any
