- Inner carton (L x W x H): 32 x 12 x 11.5 cm
- Nett weight: .375 kg
- Gross weight: .85 kg
- Tare weight: .475 kg

Product highlights

Learning functionality

Learning functionality refers to the process through which a remote control captures and stores infrared signals from other remotes for later use. When device codes are not included in the on-board database, they can always be learned from the original remote, simply by pointing to it.

6in1 remote control

Replace a table full of remote controls with one robust unit that'll operate your TV, VCR, satellite receiver, digital or cable set-top box (STB), DVD, CD player and amplifier/receiver regardless of the brand or model.
