

HF-66 MagniShine

2x Power "Hands-Free" LED Lighted Magnifier

Directions For Use:

Adjust neck strap to desired length and place strap around neck. Magnifier should be positioned to extend outward from your body with rubber feet resting on your chest. The light switch is located on the top of the magnifier neck. Slide switch forward to activate LED lights. Slide switch back to turn off lights when not in use.

Battery Installation:

Remove battery door located at the base of the magnifier. Insert three 1.5V AAA batteries (not included). Please make sure to install batteries according to the polarity indicator diagram located inside the battery compartment.

Battery Safety Information:

For indoor use only. Use only 1.5V AAA batteries. Insert batteries with correct polarity (as indicated inside battery compartment). Do not short circuit battery connections. Do not mix old and new batteries. Do not mix alkaline and standard (heavy-duty or carbon-zinc) batteries. Dispose of batteries safely and correctly. Do not attempt to burn batteries. Remove exhausted batteries. Remove batteries if the product will not be used for a long period of time.
