تأكد من تفهم احتياطات السلامة المذكورة اعلاه

請務必理解上述的安全預防措施。

Assurez-vous que les précautions ci-dessus relatives à la sécurité sont bien comprises

Versichern Sie sich, dass die obenstehenden Sicherheitsmaßnahmen verstanden werden

Βεβαιώνετε πως οι παραπάνω προφυλάξεις ασφαλείας γίνονται κατανοητές

Pastikan bahwa tindakan-tindakan keselamatan seperti di atas dimengerti anda

Accertatevi che le suddette norme di sicurezza siano comprese a dovere

上記の注意事項をよくお読みになり、安全を御確認ください

Уверете се дека погоре споменатите мерки на претпазливост се добро разбрани

Asegúrese de que las precauciones de seguridad precedentes sean bien comprendidas

کاری بکنید کہ احتیاط‌های بالا حتماً درک بشوند

ต้องแน่ใจว่า ข้อควรระวังเรื่องความปลอดภัยข้างต้น เป็นที่เข้าใจกันดี

Yukarda belirtilen güvenlik önlemlerinin anlaşılığundan emin olunuz

Xin kiểm chắc rằng những biện pháp làm an toàn kể trên được hiểu rõ

Sunbeam's Safety Precautions

Sunbeam is very safety conscious when designing and manufacturing consumer products, but it is essential that the product user also exercise care when using an electrical appliance. Listed below are precautions which are essential for the safe use of an electrical appliance:

- Read carefully and save all the instructions provided with an appliance.
- Always turn the power off at the power outlet before you insert or remove a plug. Remove by grasping the plug - do not pull on the cord.
- Turn the power off and remove the plug when the appliance is not in use and before cleaning.
- Do not use your appliance with an extension cord unless this cord has been checked and tested by a qualified technician or service person.
- Always use your appliance from a power outlet of the voltage (A.C. only) marked on the appliance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- The temperature of accessible surfaces may be high when the appliance is operating.
- Do not use an appliance for any purpose other than its intended use.
- Do not place an appliance on or near a hot gas flame, electric element or on a heated oven.
- Do not place on top of any other appliance.
- Do not let the power cord of an appliance hang over the edge of a table or bench top or touch any hot surface.
- Do not operate any electrical appliance with a damaged cord or after the appliance has been damaged in any manner. If damage is suspected, return the appliance to the nearest Sunbeam Appointed Service Centre for examination, repair or adjustment.
- For additional protection, Sunbeam recommend the use of a residual current device (RCD) with a tripping current not exceeding 30mA in the electrical circuit supplying power to your appliances.
- Do not immerse the appliance in water or any other liquid unless recommended.
- Appliances are not intended to be operated by means of an external timer or separate remote control system.
- This appliance is intended to be used in household and similar applications such as: staff kitchen areas in shops, offices and other working environments; farm houses; by clients in hotels, motels and other residential type environments; bed and breakfast type environments.

If you have any concerns regarding the performance and use of your appliance, please visit www.sunbeam.com.au or contact the Sunbeam Consumer Service Line. Ensure the above safety precautions are understood.

Safety Precautions For Your Heater

SAFETY PRECAUTIONS FOR YOUR SUNBEAM CONVECTION PANEL HEATER.

- This heater becomes hot during use. To avoid burns, do not let bare skin touch hot surfaces. If provided, use handles when moving this heater. Keep combustible materials such as furniture, pillows, bedding, papers, clothes and curtains at least 1metre away from the front of the heater and keep them away from the sides and rear.
- Extreme caution is necessary when any heater is used by or near children or invalids and whenever the heater is left unattended.
- To prevent overheating, do not cover the heater.
- Always unplug the heater when not in use.
- Do not use outdoors.
- Do not run the cord of the heater under carpeting. Do not cover the cord with throw rugs, runners or other floor coverings. Arrange the cord away from traffic areas to avoid a tripping hazard.
- Do not locate the heater immediately below a socket outlet.
- Do not use this heater in the immediate surroundings of a bath, shower, laundry area or swimming pool.
- Do not insert or allow foreign objects to enter any ventilation or exhaust openings as this may cause electric shock or fire and damage to the heater.
- To prevent possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, such as beds, where opening may become blocked.
- A heater has hot and arcing or sparking parts inside. Do not use it in areas where petrol, paint or flammable liquids are used or stored.
- If the appliance overheats, for example due to the air inlet or outlet grilles being accidentally blocked. The element automatically de-energizes until the heater cools down. As an added precaution we recommend unplugging the heater.

Features of your Sunbeam Convection Panel Heater

Slimline Design

Pressed metal exterior

Solid stable feet

Wheels for easy maneuverability

Using your Sunbeam Convection Panel Heater

1. Place the heater on a flat level surface.
Ensure that the heater is at least 1 metre away from furniture and curtains.
2. Insert the plug into a 230-240 power outlet.
Turn the power on.
3. Press the switch to either LOW or HIGH setting.
4. To achieve your desired room temperature use the Thermostat Control dial which adjusts the temperature.
5. To turn off your heater, switch your heat setting button to the 0 position.
6. Before storing your heater we recommend allowing the heater to cool down.

NOTE: Before first use we recommend switching your heater on in a well ventilated area to disperse any vapours that have resulted during the production of this heater. Once cleared, this will not reoccur.

To attach the feet with wheels

The HE4200 has the feet with wheels and screws stored within the box, separate to the body.

Positioning is only possible in the one orientation, either foot can be used at either end.

Attaching the feet with wheels

1. Carefully position the heater upside down on a carpeted area.
2. Use the screws provided to fix the feet with wheels to the body at either end of the heater using a screwdriver.

Troubleshooting Guide

1. If your heater fails to operate, check the following:
 - Make sure the electrical outlet or circuit breaker is working..
 - Check for obstructions, if obstructions are present, the heater may have gone over temperature. If this is the case turn off the heater at the power outlet, remove the obstructions and wait for the heater to cool before turning the heater back on.
 - Check that the thermostat is not set too low. Turn the dial clockwise to adjust the electric thermostat. Until the heater restarts.

Care and Cleaning

Ensure that the heater is switched off and disconnected from the power outlet before cleaning.

Carefully wipe the exterior of the heater with a soft damp cloth and dry thoroughly with a dry cloth.

Over time, dust may accumulate on the front grille. This can be removed by wiping with a damp cloth, or by carefully going across the grille with a vacuum cleaner or hand held vacuum.

Do not use harsh or abrasive cleaners to clean your heater, as these will damage the surface.

When not in use store the heater in a cool dry place.

2 Year Replacement Guarantee

In the unlikely event that this appliance develops any malfunction within 2 years of purchase (3 months commercial use) due to faulty materials or manufacture, we will replace it for you free of charge.

Should you experience any difficulties with your appliance, please phone our customer service line for advice on 1300 881 861 in Australia, or 0800 786 232 in New Zealand. Alternatively, you can send a written claim to Sunbeam at the address listed below. On receipt of your claim, Sunbeam will seek to resolve your difficulties or, if the appliance is defective, advise you on how to obtain a replacement or refund.

Your Sunbeam 2 Year Replacement Guarantee naturally does not cover misuse or negligent handling and normal wear and tear.

Similarly your 2 Year Replacement Guarantee does not cover freight or any other costs incurred in making a claim. Please retain your receipt as proof of purchase.

The benefits given to you by this guarantee are in addition to your other rights and remedies under any laws which relate to the appliance.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law and under the New Zealand Consumer Guarantees Act.

In Australia you are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Should your appliance require repair or service after the guarantee period, contact your nearest Sunbeam service centre.
