Vivitar One Year Warranty Card

This warranty covers the original consumer purchaser only and is not transferable. It covers products that fail to function properly UNDER NORMAL USAGE, due to defects in material or workmanship. Your product will be repaired at no charge for parts or labor for a period of one year from the original date of purchase.

What To Do When Service Is Required:

When returning your defective product (postage pre-paid) for service, your package should include a copy of the original bill of sale, a detailed written description of the problem, and your return address and telephone number.

Operating Your V1688 Universal Car Charger

Charging Devices In Your Car

Included with your device is a Universal Car Charger. Insert this charger into a standard DC charging outlet in your car. Next, insert one end of your device's USB power cable (not included) into the device which you would like to charge and insert the other end into the USB port on your Universal USB Car Charger. Once your car is started, your device will charge.

Note: Do not use devices like cell phones while driving. Doing so can distract the driver of your vehicle and lead to a potential automobile accident. In addition, it is against the law to drive while talking on a cell phone in many regions. Do not use this car charger to charge devices with an amperage rating higher than 1A. Your care charger should not be used by children or the infirm.
