Operating Instructions

WARNING

⚠ WARNING

This symbol means important instructions. Failure to heed them can result in serious injury or death.

DO NOT OPERATE ANY FUNCTION THAT TAKES YOUR ATTENTION AWAY FROM SAFELY DRIVING YOUR VEHICLE.

Any function that requires your prolonged attention should only be performed after coming to a complete stop. Always stop the vehicle in a safe location before performing these functions. Failure to do so may result in an accident.

KEEP THE VOLUME AT A LEVEL WHERE YOU CAN STILL HEAR OUTSIDE NOISES WHILE DRIVING.

Excessive volume levels that obscure sounds such as emergency vehicle sirens or road warning signals (train crossings, etc.) can be dangerous and may result in an accident. LISTENING AT LOUD VOLUME LEVELS IN A CAR MAY ALSO CAUSE HEARING DAMAGE.

DO NOT DISASSEMBLE OR ALTER.

Doing so may result in an accident, fire or electric shock.

USE ONLY IN CARS WITH A 12 VOLT NEGATIVE GROUND.

(Check with your dealer if you are not sure.) Failure to do so may result in fire, etc.

KEEP SMALL OBJECTS SUCH AS BATTERIES OUT OF THE REACH OF CHILDREN.

Swallowing them may result in serious injury. If swallowed, consult a physician immediately.

USE THE CORRECT AMPERE RATING WHEN REPLACING FUSES.

Failure to do so may result in fire or electric shock.

DO NOT BLOCK VENTS OR RADIATOR PANELS.

Doing so may cause heat to build up inside and may result in fire.

USE THIS PRODUCT FOR MOBILE 12V APPLICATIONS.

Use for other than its designed application may result in fire, electric shock or other injury.

DO NOT PLACE HANDS, FINGERS OR FOREIGN OBJECTS IN INSERTION SLOTS OR GAPS.

Doing so may result in personal injury or damage to the product.

⚠ CAUTION

This symbol means important instructions. Failure to heed them can result in injury or material property damage.

HALT USE IMMEDIATELY IF A PROBLEM APPEARS.

Failure to do so may cause personal injury or damage to the product. Return it to your authorized Alpine dealer or the nearest Alpine Service Centre for repairing.

⚠ PRECAUTIONS

Product Cleaning

Use a soft dry cloth for periodic cleaning of the product. For more severe stains, please dampen the cloth with water only. Anything else has the chance of dissolving the paint or damaging the plastic.

Temperature

Be sure the temperature inside the vehicle is between +60°C (+140°F) and –10°C (+14°F) before turning your unit on.

Moisture Condensation

You may notice the CD playback sound wavering due to condensation. If this happens, remove the disc from the player and wait about an hour for the moisture to evaporate.

Damaged Disc

Do not attempt to play cracked, warped, or damaged discs. Playing a bad disc could severely damage the playback mechanism.

Maintenance

If you have problems, do not attempt to repair the unit yourself. Return it to your Alpine dealer or the nearest Alpine Service Station for servicing.

Never Attempt the Following

Do not grip or pull out the disc while it is being pulled back into the player by the automatic reloading mechanism.
Do not attempt to insert a disc into the unit when the unit power is off.
Inserting Discs

Your player accepts only one disc at a time for playback. Do not attempt to load more than one disc.
Make sure the label side is facing up when you insert the disc.
"ERROR" will be displayed on your player if you insert a disc incorrectly. If "ERROR" continues to be displayed even though the disc has been inserted correctly, push the RESET switch with a pointed object such as a ballpoint pen.
Playing a disc while driving on a very bumpy road may result in skips, but this will not scratch the disc or damage the player.

New Discs

To prevent the CD from jamming, "ERROR" is displayed if discs with irregular surfaces are inserted or if discs are inserted incorrectly. When a new disc is ejected immediately after initial loading, use your finger to feel around the inside of the centre hole and outside edge of the disc. If you feel any small bumps or irregularities, this could inhibit proper loading of the disc. To remove the bumps, rub the inside edge of the hole and outside edge of the disc with a ballpoint pen or other such instrument, then insert the disc again.
Irregular Shaped Discs

Be sure to use round shape discs only for this unit and never use any special shape discs.
Use of special shape discs may cause damage to the mechanism.

Installation Location

Make sure this unit will not be installed in a location subjected to:

• Direct sun and heat
• High humidity and water
• Excessive dust
• Excessive vibrations

Correct Handling

Do not drop the disc while handling. Hold the disc so you will not leave fingerprints on the surface. Do not affix tape, paper, or gummed labels to the disc. Do not write on the disc.
Disc Cleaning

Fingerprints, dust, or soil on the surface of the disc could cause the CD player to skip. For routine cleaning, wipe the playing surface with a clean, soft cloth from the centre of the disc to the outer edge. If the surface is heavily soiled, dampen a clean, soft cloth in a solution of mild neutral detergent before cleaning the disc.

Disc Accessories

There are various accessories available on the market for protecting the disc surface and improving sound quality. However, most of them will influence the thickness and/or diameter of the disc. Using such accessories can cause the disc to be out of standard specifications and may create operational problems. We recommend not using these accessories on discs played in Alpine CD players.
On handling Compact Discs (CD/CD-R/CD-RW)

• Do not touch the surface.
• Do not expose the disc to direct sunlight.
• Do not affix stickers or labels.
• Clean the disc when it is dusty.
• Make sure that there are no bumps around the disc.
• Do not use commercially available disc accessories.

Do not leave the disc in the car or the unit for a long time. Never expose the disc to direct sunlight. Heat and humidity may damage the CD and you may not be able to play it again.

To customers using CD-R/CD-RW

• If a CD-R/CD-RW cannot be played back, make sure the last recording session was closed (finalised).
• Finalize the CD-R/CD-RW if necessary, and attempt playback again.

About media that can be played

Use only compact discs with the label side showing the CD logo marks below.

If you use unspecified compact discs, correct performance cannot be guaranteed.
You can play CD-Rs (CD-Recordables)/CD-RWs (CD-ReWritables) which have been recorded only on audio devices.
You can also play CD-Rs/CD-RWs containing MP3 formatted audio files.

• Some of the following CDs may not play on this unit:
Flawed CDs, CDs with fingerprints, CDs exposed to extreme temperatures or sunlight (e.g., left in the car or this unit), CDs recorded under unstable conditions, CDs on which a recording failed or a re-recording was attempted, copy-protected CDs which do not conform to the audio CD industry standard.
• Use discs with MP3 files written in a format compatible with this unit. For details, see pages 13-14.
• ROM data other than audio files contained in a disc will not produce sound when played back.

Protecting the USB connection terminal

• Only a USB flash memory devices can be connected to the USB connection terminal on this unit. Correct performance using other USB products cannot be guaranteed. A USB hub is not supported.
• Do not connect a USB memory over 20 mm wide.
Also, avoid connecting USB memory and Front Aux at the same time.
• If a USB device is inserted in the unit, it projects out and may be a danger while driving.
Use a commercially available USB extension cable, and connect it in a safe way.
• Depending on the connected USB memory device, the unit may not function or some functions may not be performed.
• The audio file format that can be played back on the unit is MP3/WMA/AAC.
• Artist/song name, etc., can be displayed, however characters may not be correctly displayed.

⚠ **CAUTION**

Alpine accepts no responsibility for lost data, etc., even if data, etc., is lost while using this product.

On Handling USB Memory

- To prevent malfunction or damage, note the following points.
  Read the USB memory Owner's Manual thoroughly.
  Do not touch the terminals by hand or metal.
  Do not subject USB memory to excessive shock.
  Do not bend, drop, disassemble, modify or soak in the water.
- Avoid usage or storage in the following locations:
  Anywhere in the car exposed to direct sunlight or high temperatures.
 Anywhere the possibility of high humidity or corrosive substances is present.
- Fix the USB memory in a location where driver operation will not be hindered.
- USB memory may not function correctly at high or low temperature.
- The USB flash memory supports only 512 or 2,048 bytes per sector.
- Use only certified USB memory. Note that even certified USB memory, may not function correctly depending on its type or state.
- USB memory function is not guaranteed. Use USB memory according to the terms of agreement.
- Depending on the settings of the USB memory type, memory state or encoding software, the unit may not play back or display properly.
- A file that is copy-protected (copyright protection) cannot be played back.
- USB memory may take time to start playback. If there is a particular file other than audio in the USB memory, it may take considerable time before the file is played back or searched.
- The unit can play back "mp3", "wma" or "m4a" file extensions.
- Do not add the above extensions to a file other than audio data. This non-audio data will not be recognised. The resulting playback may contain noise that can damage speakers and/or amplifiers.
- It is recommended to back up important data on a personal computer.
- Do not remove the USB device while playback is in progress. Change SOURCE to something other than USB, then remove the USB device to prevent possible damage to its memory.

Getting Started

MUTE   ⬆/ESC   🔍/ENT   6/DIMMER

SOURCE/⏻   Rotary encoder   FUNC./SETUP

Accessory List

- **Head unit** 1
- **Power cable** 1
- **FULL SPEED™ Connection Cable** 1
- **Mounting sleeve** 1
- **Bracket key** 2
- **Rubber Cap** 1
- **Hex Bolt** 1
- **Face plate** 1
- **Screw (M5 × 8)**..4
- **Owner's Manual** .... 1 set

Turning Power On and Off

Press SOURCE/⏻ to turn on the unit.

- *The unit can be turned on by pressing any other button except ⏏/CD.*

Press and hold SOURCE/⏻ for at least 2 seconds to turn off the unit.

- *The first time power is turned on, the volume will start from level 12.*

Initial System Start-Up

Be sure to press the RESET switch when using the unit for the first time, after changing the car battery, etc.

1. **Turn off the unit power.**

2. **Press RESET with a ballpoint pen or similar pointed object.**
RESET switch

Adjusting Volume

Turn the Rotary encoder until the desired sound is obtained.

Lowering Volume Quickly

Activating the Audio Mute function will instantly lower the volume level by 20 dB.

Press MUTE to activate the MUTE mode.
The audio level will decrease by about 20 dB.

Pressing MUTE again will bring the audio back to its previous level.

Setting the Time

1. **Press and hold FUNC./SETUP for at least 2 seconds to activate the SETUP selection mode.**

2. **Turn the Rotary encoder to select CLOCK ADJ, and then press 🔍/ENT.**

3. **Turn the Rotary encoder to set hour.**

4. **Press 🔍/ENT.**

5. **Repeat steps 3 and 4 above to set minute.**

6. **Press and hold FUNC./SETUP for at least 2 seconds to return to normal mode.**

- *Pressing ⬆/ESC returns to the previous SETUP mode.*
- *If no operation is performed for 60 seconds, SETUP is canceled.*
- *To synchronize the clock to another clock/watch or radio time announcement, press and hold 🔍/ENT for at least 2 seconds after setting the "hour". Minutes will reset to 00. If the display shows over "30" minutes when you do this, the time will advance one hour.*

Setting the Dimmer Control

1 Press **FUNC./SETUP** so that the ◀**F**▶ indicator lights up.

2 Press **6**/**DIMMER** repeatedly to select the DIMMER mode.

DIMMER-A (Auto mode) → DIMMER ON → DIMMER OFF → DIMMER-A

DIMMER-A mode:
Decrease the illumination brightness of the unit with the head lights of the vehicle ON. This mode is useful if you feel the unit's backlighting is too bright at night.

DIMMER ON mode:
Keep the illumination brightness of the unit dark.

DIMMER OFF mode:
Keep the illumination brightness of the unit bright.

3 Press **FUNC./SETUP** to activate the normal mode.
The ◀**F**▶ indicator goes out.

• *Operate the unit while the ◀F▶ indicator lights up. If no operation is performed for 10 seconds, the ◀F▶ indicator goes out.*

Controllable with Remote Control
This unit can be controlled with an optional Alpine remote control. For details, consult your Alpine dealer.
Point the optional remote control transmitter at the remote control sensor.

Remote control sensor
Connectable to Remote Control Interface Box
This unit may be controlled from the vehicle's audio controls. An optional Alpine Remote Control Interface Box must be used. For details, contact your Alpine dealer.

Radio

Preset buttons (1 through 3)   Preset buttons (4 through 6)

I◀◀   ▶▶I **BAND/TA**   **FUNC./SETUP**
SOURCE/⏻
TUNE/A.ME
Listening to Radio

1 Press **SOURCE/**⏻ to select TUNER mode.

2 Press **BAND/TA** repeatedly until the desired radio band is displayed.

F1 (FM1) → F2 (FM2) → F3 (FM3) → MW → LW → F1 (FM1)

3 Press **TUNE/A.ME** to select the tuning mode.

DX SEEK (Distance mode) → SEEK (Local mode) → OFF (Manual mode) → DX SEEK

• *The initial mode is Distance mode.*

Distance mode:
Both strong and weak stations will be automatically tuned in (Automatic Seek Tuning).

Local mode:
Only strong stations will be automatically tuned in (Automatic Seek Tuning).

Manual mode:
The frequency is manually tuned in steps (Manual tuning).

4 Press I◀◀ or ▶▶I to tune in the desired station.
Holding down I◀◀ or ▶▶I will change the frequency continuously.

Presetting Stations Manually

1 Select the radio band and tune in a desired radio station you wish to store in the preset memory.

2 Press and hold, for at least 2 seconds, any one of the **preset buttons (1 through 6)** into which you wish to store the station.
The selected station is stored.
The display shows the band, preset number and station frequency memorized.

- *A total of 30 stations can be stored in the preset memory (6 stations for each band; FM1, FM2, FM3, MW and LW).*
- *If you store a station in a preset memory which already has a station, the current station will be cleared and replaced with the new station.*
- *If the ◀F▶ indicator is illuminated, turn off the indicator by pressing FUNC./SETUP, and then you can perform the operation.*

Presetting Stations Automatically

1 Press **BAND/TA** repeatedly until the desired radio band is displayed.

2 Press and hold **TUNE/A.ME** for at least 2 seconds.
The frequency on the display continues to change while the automatic memory is in progress. The tuner will automatically seek and store 6 strong stations in the selected band. They will be stored into preset buttons 1 to 6 in order of signal strength.
When the automatic memory has been completed, the tuner goes to the station stored in preset location No.1.

- *If no stations are stored, the tuner will return to the original station you were listening to before the auto memory procedure began.*

Tuning to Preset Stations

1 Press **BAND/TA** repeatedly until the desired band is displayed.

2 Press any one of the station **preset buttons (1 through 6)** that has your desired radio station in memory.
The display shows the band, preset number and frequency of the station selected.

- *If the ◀F▶ indicator is illuminated, turn off the indicator by pressing FUNC./SETUP, and then you can perform the operation.*

RDS

1 ▲ /AF

◀◀ ▶▶| ⤺/ESC   🔍/ENT   VIEW
BAND/TA   Rotary encoder   FUNC./SETUP
Setting RDS Reception Mode and Receiving RDS Stations

The RDS (Radio Data System) is a radio information system using the 57 kHz subcarrier of regular FM broadcast. The RDS allows you to receive a variety of information such as traffic information, station names, and to automatically re-tune to a stronger transmitter that is broadcasting the same programme.

1 Press **FUNC./SETUP** so that the ◀F▶ indicator lights up.

2 Press **1 ▲ /AF** to activate the RDS mode.

3 Press ◀◀ or ▶▶| to tune in the desired RDS station.

4 Press **1 ▲ /AF** again to deactivate the RDS mode.

5 Press **FUNC./SETUP** to activate the normal mode.
The ◀F▶ indicator goes out.

- *Operate the unit while the ◀F▶ indicator lights up. If no operation is performed for 10 seconds, the ◀F▶ indicator goes out.*

The RDS digital data includes the following:
PI	Programme Identification
PS	Programme Service Name
AF	List of Alternative Frequencies
TP	Traffic Programme
TA	Traffic Announcement
EON	Enhanced Other Networks

Recalling Preset RDS Stations

1 Press **FUNC./SETUP** so that the ◂**F**▸ indicator lights up.

2 Press **1** ▲ **/AF** to activate the RDS mode.

3 Press **FUNC./SETUP** to activate the normal mode.
The ◂**F**▸ indicator goes out.

4 Make sure that the ◂**F**▸ indicator light goes out, then press the preset button in which your desired RDS station is preset.
If the preset station's signal is weak, the unit automatically searches and tunes to a stronger station in the AF (Alternative Frequencies) list.

5 If the preset station and the stations in the AF list cannot be received:
When the PI SEEK setting is on (refer to "PI SEEK Setting" on page 10), the unit searches again for a station in the PI (Programme Identification) list.
If there are still no stations receivable in the area, the unit displays the frequency of the preset station and the preset number disappears.
If the signal level of the Regional (Local) station being tuned becomes too weak to receive, press the same preset button to tune in a Regional station in other district.

- *For presetting the RDS stations, refer to the Radio Operation section. The RDS stations can be preset in the F1, F2 and F3 bands only.*
- *Operate the unit while the ◂**F**▸ indicator lights up. If no operation is performed for 10 seconds, the ◂**F**▸ indicator goes out.*

Receiving RDS Regional (Local) Stations

1 Press and hold **FUNC./SETUP** for at least 2 seconds to activate the SETUP mode.

2 Turn the **Rotary encoder** to select the REGIONAL mode, and then press ◯**/ENT**.

3 Turn the **Rotary encoder** to select ON or OFF.
In the OFF mode, the unit automatically keeps receiving the related local RDS station.

4 Press and hold **FUNC./SETUP** for at least 2 seconds to return to normal mode.

- *Press ⤺ /ESC to return to the previous mode.*
- *If no operation is performed for 60 seconds, the unit will return to normal mode automatically.*

PI SEEK Setting

1 Press and hold **FUNC./SETUP** for at least 2 seconds to activate the SETUP mode.

2 Turn the **Rotary encoder** to select the PI SEEK mode, and then press ◯**/ENT**.

3 Turn the **Rotary encoder** to select ON or OFF.

4 Press and hold **FUNC./SETUP** for at least 2 seconds to return to normal mode.

- *Press ⤺ /ESC to return to the previous mode.*
- *If no operation is performed for 60 seconds, the unit will return to normal mode automatically.*

Setting the Time to automatically Adjust

When you set to ON, the time is automatically adjusted by RDS data.

1 Press and hold **FUNC./SETUP** for at least 2 seconds to activate the SETUP mode.

2 Turn the **Rotary encoder** to select AUTO CLOCK, and then press ◯**/ENT**.

3 Turn the **Rotary encoder** to select ON or OFF.

4 Press and hold **FUNC./SETUP** for at least 2 seconds to return to normal mode.

- *Press ⤺ /ESC to return to the previous mode.*
- *If no operation is performed for 60 seconds in the SETUP mode, the setting mode is cancelled.*

Receiving Traffic Information

1 Press and hold **BAND/TA** for at least 2 seconds so that the "TA" indicator lights up.

2 Press ◂◂ or ▸▸ to select your desired traffic information station.

When a traffic information station is tuned in, the "TP" indicator lights up.
Traffic information is heard only when it is being broadcast. If traffic information is not being broadcast, the unit is set in the standby mode. When a traffic information broadcast begins, the unit automatically receives it and the display shows "TRF-INFO" for 5 seconds.
When the traffic information broadcast is over, the unit will automatically set in the standby mode.

- *If you do not want to listen to the traffic information being received, lightly press **BAND/TA** to skip that traffic information message. The TA mode will remain in the ON position to receive the next traffic information message.*
- *If the volume level is changed while receiving traffic information, the changed volume level will be memorized. When traffic information is received next time, the volume level will be automatically adjusted to the level memorized.*
- *In the TA mode, the SEEK tuning selects only the TP stations.*

Receiving Traffic Information While Playing CD or Radio

1 **Press and hold BAND/TA for at least 2 seconds so that the "TA" indicator lights up.**

2 **Press ◄◄ or ►►◄ to select a traffic information station if necessary.**

When a traffic information broadcast starts, the unit automatically mutes the CD player or the regular FM broadcast.
When the traffic information broadcast finishes, the unit automatically returns to the original source play before the traffic information broadcast began.

When traffic information stations cannot be received:
In the CD mode:
When the TP signal can no longer be received, the traffic information station of another frequency will be selected automatically.

- *The receiver is equipped with the EON (Enhanced Other Networks) function in order to keep track of additional alternate frequencies to the AF list. The "EON" indicator lights up while an RDS EON station is being received. If the station being received does not broadcast the traffic information, the receiver automatically tunes in the related station that broadcasts the traffic information when it occurs.*

3 **Press and hold BAND/TA for at least 2 seconds to deactivate the Traffic Information mode.**
The "TA" indicator goes out.

Displaying Radio Text

Text messages from a radio station can be displayed.

Press VIEW while receiving FM in the radio mode to select the Radio Text display.
The display will change every time the button is pressed.

If there is PS (Programme Service Name):
PS (Programme Service Name)* → CLOCK → RADIO TEXT → PS (Programme Service Name)

* *If VIEW is pressed and held for at least 2 seconds while displaying PS in the radio mode, frequency will be displayed for 5 seconds.*

If there is no PS (Programme Service Name):
FREQUENCY → CLOCK → RADIO TEXT → FREQUENCY

The display shows "WAITING" for a few seconds, then starts scrolling the text message.

- *If there is no receivable text message or the unit cannot receive a text message properly, the display shows "NO TEXT".*
- *" ⊙ " lights up when switching to the TIME display mode.*

CD/MP3/WMA/AAC
Playback

1 **Insert a disc with the label side facing up.**
The disc will be pulled into the unit automatically, and the " ⊘ " indicator lights up.
When a disc is already inserted, press **SOURCE/⏻** to switch to the DISC mode.

The mode will change every time the button is pressed.

TUNER → DISC → USB AUDIO → iPod*¹/AUX+*²
→ BT AUDIO*³ → AUX*⁴ → TUNER

*¹ *Only when the iPhone/iPod is connected and AUX+ SETUP is set to OFF, refer to "Setting the AUX+ SETUP Mode" (page 20).*
*² *Displayed only when AUX+ SETUP is set to ON, refer to "Setting the AUX+ SETUP Mode" (page 20).*
*³ *Only when BT IN is set to BT ADAPTER. Refer to "Bluetooth Setting" (page 18).*
*⁴ *Refer to "Using the Front AUX Input Terminal" (page 17).*

2 **While playing back MP3/WMA/AAC, press 1 ▲ /AF or 2 ▼ to select the desired folder.**
Pressing and holding 1 ▲ /AF or 2 ▼ will change folders continuously.

3 **Press |◀◀ or ▶▶| to select the desired track (file).**

Returning to the beginning of the current track (file):
Press |◀◀ .

Fast backward:
Press and hold |◀◀ .

Advancing to the beginning of the next track (file):
Press ▶▶| .

Fast forward:
Press and hold ▶▶| .

4 **To pause playback, press ▶/ⅠⅠ .**
Pressing ▶/ⅠⅠ again will resume playback.

5 **To eject the disc, press ▲/CD.**

- *Do not remove a CD during its eject cycle. Do not load more than one disc at a time. A malfunction may result from doing either.*
- *If the CD does not eject, press and hold ▲/CD for at least 2 seconds.*
- *The "⊘" indicator lights up when a disc is inserted.*
- *Three-inch (8 cm) CDs can not be used.*
- *Cannot play back transparent or semitransparent discs.*
- *The CD-player can play discs containing audio data, MP3 data, WMA data and AAC data.*
- *WMA format files that are protected by DRM (Digital Rights Management), AAC format files that have been purchased from the iTunes Store and files that are copy-protected (copyright protection) cannot be played back on this unit.*
- *The track display for MP3/WMA/AAC data playback is the file numbers recorded on the disc.*
- *The playback time may not be correctly displayed when a VBR (Variable Bit Rate) recorded file is played back.*
MP3/WMA/AAC Play Display
The folder number and file number will be displayed as described below.

F101 T103

Folder number display   **File number display**

- *Press **VIEW** to switch the display. See "Displaying the Text" (page 16) for information about display switching.*

Repeat Play

Press ⊃/REPEAT 4 to play back repeatedly the track being played.
The track (file) will be played repeatedly.

Press ⊃/REPEAT 4 again and select off to deactivate repeat play.

CD mode :

⊃ : Only a track is repeatedly played back.

(off)

MP3/WMA/AAC mode :

⊃ : Only a file is repeatedly played back.

⊃ ▭ : Only files in a folder are repeatedly played back.

(off)
M.I.X. (Random Play)

Press ⊘/SHUFFLE 5 in the play or pause mode.
The tracks (files) on the disc will be played back in random sequence.

To cancel M.I.X. play, press ⊘/SHUFFLE 5 again.

CD mode :

⊘ : The tracks are played back in random sequence.

(off)

MP3/WMA/AAC mode :

▭ ⊘ : Only files in a folder are played back in random sequence.

⊙ ⊘* : The files are played back in random sequence.

(off)
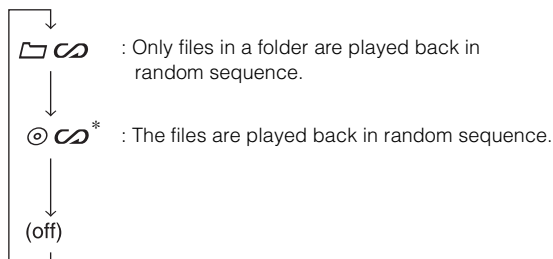

* *In the USB mode, all files stored in the USB memory are played back in random sequence, and the "⊘" indicator lights up.*

Searching for CD Text

On discs utilizing CD Text, songs can be searched and played by using their recorded titles. For discs without CD Text, searches are made using the track numbers associated with each song.

1 **Press ⊂/ENT during play.**
This will set the search mode.

2 **Turn the Rotary encoder to select the desired track, and then press ⊂/ENT.**
This will play the selected track.

- *Press ⊃/ESC in the search mode to cancel. Or, the search mode is cancelled if no operation is performed for 10 seconds.*
- *When CD Text Search is made during M.I.X. play, the M.I.X. play mode will be cancelled.*

File/Folder Name Search (concerning MP3/WMA/AAC)

Folder and file names may be searched and displayed during playback.

1 During MP3/WMA/AAC playback, press 🔍/**ENT** to activate the search mode.

2 Turn the **Rotary encoder** to select Folder Name Search mode or File Name Search mode, and then press 🔍/**ENT**.

- -

Folder Name Search mode

3 Turn the **Rotary encoder** to select the desired folder.

4 Press and hold 🔍/**ENT** for at least 2 seconds to play back the first file in the selected folder.

- *Press and hold ⏏/ESC for at least 2 seconds in the search mode to cancel. Or, the search mode is cancelled if no operation is performed for 10 seconds.*
- *To search for files in the Folder Name Search mode, press 🔍/ENT. Files in the folder may be searched.*
- *Press ⏏/ESC to exit Folder Name Search mode in step 3 in order to select File Name Search mode.*
- *The root folder is displayed as "ROOT".*
- *When Folder Name Search is made during M.I.X. play, the M.I.X. play mode will be cancelled.*

File Name Search mode

3 Press 1 ▲/**AF** or 2 ▼ to select another Folder.

4 Select the desired file by turning the **Rotary encoder**.

5 Press 🔍/**ENT** to play back the selected file.

- *Press and hold ⏏/ESC for at least 2 seconds in the search mode to cancel. Or, the search mode is cancelled if no operation is performed for 10 seconds.*
- *Press ⏏/ESC in the search mode to return to the previous mode.*
- *When File Name Search is made during M.I.X. play, the M.I.X. play mode will be cancelled.*

Quick Search

You can search for tracks (files).

1 Press and hold 🔍/**ENT** for at least 2 seconds in the CD/MP3/WMA/AAC mode to activate Quick Search mode.

2 Turn the **Rotary encoder** to select a desired track (file).
The selected track is played back immediately.

- *Press ⏏/ESC in the search mode to cancel. Or, the search mode is cancelled if no operation is performed for 10 seconds.*

About MP3/WMA/AAC

CAUTION

Except for private use, duplicating audio data (including MP3/WMA/AAC data) or distributing, transferring, or copying it, whether for free or for a fee, without permission of the copyright holder is strictly prohibited by the Copyright Act and by international treaty.

What is MP3?

MP3, whose official name is "MPEG-1 Audio Layer 3," is a compression standard prescribed by the ISO, the International Standardization Organization and MPEG which is a joint activity institution of the IEC.

MP3 files contain compressed audio data. MP3 encoding is capable of compressing audio data at extremely high ratios, reducing the size of music files to as much as one-tenth their original size. This is achieved while still maintaining near CD quality. The MP3 format realises such high compression ratios by eliminating the sounds that are either inaudible to the human ear or masked by other sounds.

What is WMA?

WMA, or "Windows Media™ Audio," is compressed audio data. WMA is similar to MP3 audio data and can achieve CD quality sound with small file sizes.

What is AAC?

AAC is the abbreviation for "Advanced Audio Coding," and is a basic format of audio compression used by MPEG2 or MPEG4.

Method for creating MP3/WMA/AAC files

Audio data is compressed using software with MP3/WMA/AAC codecs. For details on creating MP3/WMA/AAC files, refer to the user's manual for that software.
MP3/WMA/AAC files that are playable on this device have the file extensions "mp3" / "wma" / "m4a". Files with no extension cannot be played back (WMA ver. 7.1, 8 and 9 are supported). Protected files are not supported, neither are raw AAC files (using the ".aac" extension).

There are many different versions of the AAC format. Confirm that the software being used conforms to the acceptable formats listed above. It's possible that the format may be unplayable even though the extension is valid.
Playback of AAC files encoded by iTunes is supported.

Supported playback sampling rates and bit rates

MP3
Sampling rates: 48 kHz, 44.1 kHz, 32 kHz, 24 kHz, 22.05 kHz, 16 kHz, 12 kHz, 11.025 kHz, 8 kHz
Bit rates: 8 - 320 kbps

WMA
Sampling rates: 48 kHz, 44.1 kHz, 32 kHz
Bit rates: 48 - 192 kbps

AAC
Sampling rates: 48 kHz, 44.1 kHz, 32 kHz, 24 kHz, 22.05 kHz, 16 kHz, 12 kHz, 11.025 kHz, 8 kHz
Bit rates: 16 - 320 kbps

This device may not play back correctly depending on sampling rates.

ID3 tags/WMA tags

This device supports ID3 tag v1 and v2, and WMA tag.
If tag data is in an MP3/WMA/AAC file, this device can display the title (track title), artist name, and album name ID3 tag/WMA tag data.

This device can only display single-byte alphanumeric characters (up to 30 for ID3 tags and up to 15 for WMA tags) and the underscore. For non-supported characters, "NO SUPPORT" is displayed.
If information contains characters other than ID3 tag information, the audio file may not be played back.
The tag information may not be correctly displayed, depending on the contents.

Producing MP3/WMA/AAC discs

MP3/WMA/AAC files are prepared, then written to a CD-R or CD-RW using CD-R writing software. A disc can hold up to 510 files/folders (including Root Folders), and the maximum number of folders is 255.
Playback may not be performed if a disc exceeds the limitations described above.

Media supported

The media that this device can play back are CD-ROMs, CD-Rs, and CD-RWs.

Corresponding File Systems

This device supports discs formatted with ISO9660 Level 1 or Level 2.

Under the ISO9660 standard, there are some restrictions to remember.
The maximum nested folder depth is 8 (including the root directory). The number of characters for a folder/file name is limited.
Valid characters for folder/file names are letters A-Z (all caps), numbers 0-9, and '_' (underscore).

This device also can play back discs in Joliet, Romeo, etc., and other standards that conform to ISO9660. However, sometimes the file names, folder names, etc., are not displayed correctly.

Formats supported

This device supports CD-ROW XA, Mixed Mode CD, Enhanced CD (CD-Extra) and Multi-Session.
This device cannot correctly play back discs recorded with Track At Once or packet writing.

Order of files

Files are played back in the order that the writing software writes them to the disc. Therefore, the playback order may not be what is expected. Verify the writing order in the software's documentation. The playback order of the folders and files is as follows.
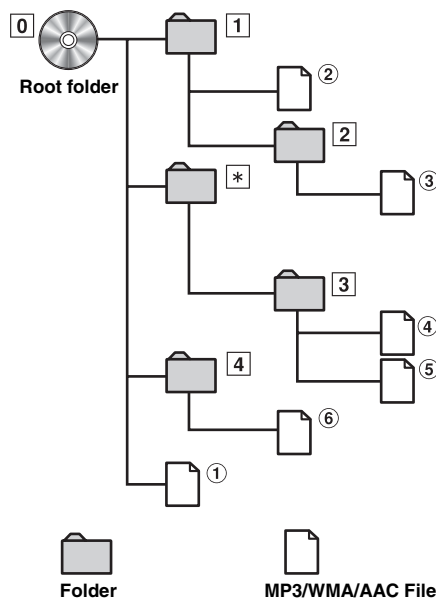

* The folder No./ folder Name will not be displayed if no file is contained in the folder.

Terminology

Bit rate
This is the "sound" compression rate specified for encoding. The higher the bit rate, the higher the sound quality, but also the larger the files.

Sampling rate
This value shows how many times per second the data is sampled (recorded). For example, music CDs use a sampling rate of 44.1 kHz, so the sound is sampled (recorded) 44,100 times per second. The higher the sampling rate, the higher the sound quality, but also the larger the volume of data.

Encoding
Converting music CDs, WAVE (AIFF) files, and other sound files into the specified audio compression format.

Tag
Song information such as track titles, artist names, album names, etc., written into MP3/WMA/AAC files.

Root folder
The root folder (or root directory) is found at the top of the file system. The root folder contains all folders and files. It is created automatically for all burned discs.

Sound Setting
SOURCE/⏻

BAND/TA

⏎/ESC

Rotary encoder (AUDIO/LOUD)

SOUND

Adjusting Subwoofer Level/Bass Level/ Treble Level/Balance (Between Left and Right)/Fader (Between Front and Rear)/ Defeat

1 **Press Rotary encoder (AUDIO) repeatedly to choose the desired mode.**

Each press changes the mode as follows:

SUBWOOFER* → BASS LEVEL → TRE LEVEL → BALANCE → FADER → DEFEAT → VOLUME → SUBWOOFER

Subwoofer: +0 ~ +15
Bass level: –7 ~ +7
Treble level: –7 ~ +7
Balance: L15 ~ R15
Fader: R15 ~ F15
Defeat: ON/OFF
Volume: 0 ~ 35

- *If no operation is performed for 5 seconds after selecting the SUBWOOFER, BASS LEVEL, TRE LEVEL, BALANCE, FADER or DEFEAT mode, the unit automatically returns to normal mode.*

* *When the subwoofer mode is set to OFF, its level cannot be adjusted.*

2 **Turn the Rotary encoder until the desired sound is obtained in each mode.**
By setting DEFEAT ON, previously adjusted settings of BASS LEVEL and TRE LEVEL will return to the factory defaults.

Setting the Bass Control

You can change the Bass Frequency emphasis to create your own tonal preference.

1 **Press SOUND repeatedly to select the BASS mode.**

BASS → TREBLE → HPF → BASS

Setting the Bass Centre Frequency

2-1 Press BAND/TA to select the desired bass centre frequency.

80 Hz → 100 Hz → 200 Hz → 60 Hz → 80 Hz

Emphasises the displayed bass frequency ranges.

Setting the Bass Bandwidth

2-2 Press SOURCE/⏻ to select the desired bass bandwidth.

$$\longrightarrow \quad 1 \quad \rightarrow \quad 2 \quad \rightarrow \quad 3 \quad \rightarrow \quad 4 \longrightarrow$$
(Narrow) ←·····················→ (Wide)

Changes the boosted bass bandwidth to wide or narrow. A wider setting will boost a wide range of frequencies above and below the centre frequency. A narrower setting will boost only frequencies near the centre frequency.

Setting the Bass Level

2-3 [1] **Turn the Rotary encoder to select the desired bass level (–7~+7).**
You can emphasise or weaken the bass level.

3 **Press and hold ⏎/ESC for at least 2 seconds to return to normal mode.**

- *If no operation is performed for 15 seconds, the unit will return to normal mode automatically.*
- *The bass level settings will be individually memorized for each source (FM, MW (LW), CD, etc.) until the setting is changed. The bass frequency and bass bandwidth settings adjusted for one source are effective for all other sources (FM, MW (LW), CD, etc.).*
- *The function is inoperable when DEFEAT is set to ON.*

[1] The adjustment can also be made by pressing Rotary encoder. Refer to "Adjusting Subwoofer Level/Bass Level/Treble Level/Balance (Between Left and Right)/Fader (Between Front and Rear)/Defeat" (page 15).

Setting the Treble Control

You can change the Treble Frequency emphasis to create your own tonal preference.

1 **Press SOUND repeatedly to select the TREBLE mode.**

BASS → TREBLE → HPF → BASS

Setting the Treble Centre Frequency

2-1 Press BAND/TA to select the desired treble centre frequency.

10.0 kHz → 12.5 kHz → 15.0 kHz → 17.5 kHz → 10.0 kHz

Emphasises the displayed treble frequency ranges.

Setting the Treble Level

2-2[2] **Turn the Rotary encoder to select the desired treble level (–7~+7).**
You can emphasise the treble level.

3   Press and hold ⏏/ESC for at least 2 seconds to return to normal mode.

- *If no operation is performed for 15 seconds, the unit will return to normal mode automatically.*
- *The treble level settings will be individually memorized for each source (FM, MW (LW), CD, etc.) until the setting is changed. The Treble frequency settings adjusted for one source are effective for all other sources (FM, MW (LW), CD, etc.).*
- *The function is inoperable when DEFEAT is set to ON.*

*[2] The adjustment can also be made by pressing **Rotary encoder**. Refer to "Adjusting Subwoofer Level/Bass Level/Treble Level/Balance (Between Left and Right)/Fader (Between Front and Rear)/Defeat" (page 15).*

Adjusting the High Pass Filter

The High Pass Filter on this unit can be adjusted to suit your personal taste.

1   Press SOUND repeatedly to select the HPF mode.

BASS → TREBLE → HPF → BASS

2   Turn the Rotary encoder to select the desired HPF frequency.

OFF ↔ 60 Hz ↔ 80 Hz ↔ 100 Hz

All frequencies above the selected cutoff are output.

3   Press and hold ⏏/ESC for at least 2 seconds to return to normal mode.

- *If no operation is performed for 15 seconds, the unit will return to normal mode automatically.*
- *The function is inoperable when DEFEAT is set to ON.*

Turning Loudness On/Off

Loudness introduces a special low-and high-frequency emphasis at low listening levels. This compensates for the ear's decreased sensitivity to bass and treble sound.

Press and hold Rotary encoder (LOUD) for at least 2 seconds to activate or deactivate the loudness mode.

- *The function is inoperable when DEFEAT is set to ON.*

Other Functions

SOURCE/⏻   VIEW
Displaying the Text

Text information, such as the disc name and the track name, will be displayed if playing a CD text compatible disc. It is also possible to display the folder name, the file name and the tag, etc., while playing MP3/WMA/AAC files.

Press VIEW.
The display will change every time the button is pressed.

- *When the TEXT SCR is set to SCR MANU, press and hold VIEW for at least 2 seconds, the current text will be scrolled one time (except Radio mode).*

The display in Radio mode:
If there is PS (Programme Service Name)

PS (Programme Service Name)*[1] → CLOCK →
RADIO TEXT → PS (Programme Service Name)

If there is no PS (Programme Service Name)

FREQUENCY → CLOCK → RADIO TEXT → FREQUENCY

The display in CD mode:
TRACK NO./ELAPSED TIME → CLOCK →
TEXT (DISC NAME)*[2] → TEXT (TRACK NAME)*[2] →
TRACK NO./ELAPSED TIME

The display in MP3/WMA/AAC mode:
FILE NO./ELAPSED TIME → FOLDER NO./FILE NO. →
FILE NO./CLOCK → FOLDER NAME → FILE NAME →
ARTIST NAME*[3] → ALBUM NAME*[3] → SONG NAME*[3] →
FILE NO./ELAPSED TIME

The display in AUX mode:
AUX NAME → AUX NAME/CLOCK → AUX NAME

The display in BT AUDIO mode:
The Following display will be shown only when a telephone or Bluetooth Streaming device with Metadata capabilities is correctly connected with a Bluetooth INTERFACE (Alpine KCE-400BT) (Sold Separately). (For details on Bluetooth INTERFACE, refer to the Owner's Manual of KCE-400BT).

BT A*[3]/ELAPSED TIME → BT A/CLOCK → ARTIST NAME*[4] →
ALBUM NAME*[4] → SONG NAME*[4] → BT A/ELAPSED TIME

*[1] If **VIEW** is pressed and held for at least 2 seconds in the PS display mode, frequency will be displayed for 5 seconds.
*[2] Displayed during playback of a disc with CD text.
*[3] If there is no time sample, "BT A" is displayed as "BT AUDIO".
*[4] ID3 tag/WMA tag
If an MP3/WMA/AAC file contains ID3 tag/WMA tag information, the ID3 tag/WMA tag information is displayed (e.g., song name, artist name, and album name). All other tag data is ignored.

• " 🕒 " lights up when switching to the TIME display mode.

About the indication display

When displaying Text, the following indicators are lit according to the mode.

Indicator/ Mode	CD Mode	MP3/WMA/AAC/ USB AUDIO Mode	iPhone/iPod/ BT AUDIO Mode
📁	—	Folder Name*[2] being displayed	—
🎤	—	Artist Name*[1] being displayed	Artist Name*[1] being displayed
💿	Text (Disc Name*[3]) being displayed	Album Name*[1] being displayed	Album Name*[1] being displayed
🎵	Text (Track Name*[3]) being displayed	Song Name*[1] / File Name being displayed	Song Name*[1] being displayed

*[1] Tag information
If there is no tag information, "ARTIST"/"ALBUM"/"SONG" is displayed.
*[2] The root folder of disc is displayed as "FOLDER". The root folder of USB memory is displayed as "ROOT".
*[3] If there is no Text (Disc Name or Track Name), "DISC TEXT"/ "TRACK TEXT" is displayed.

About "Text"

Text:
Text compatible CDs contain text information such as the disc name and track name. Such text information is referred to as "text".

• Some characters may not be displayed correctly with this device, depending on the character type.
• "NO SUPPORT" is displayed when the desired text information cannot be displayed on this unit.
• The text or tag information may not be correctly displayed, depending on the contents.

Displaying Time

Press **VIEW** repeatedly until the time is displayed.

Each press changes the display.
For details, see "Displaying the Text" (page 16).

• Selecting any tuner or CD function while in the clock priority mode will interrupt the time display momentarily. The function selected will be displayed for about 5 seconds before the time returns to the display.
• " 🕒 " lights up when switching to the TIME display mode.
• When the power is off but the ignition key is on, press **VIEW** to display or turn off the time.

Using the Front AUX Input Terminal

Connect a portable music player, etc. by simply connecting it to the input on the front panel. An optional adapter cable is required (standard RCA to 3.5ø mini-phono plug or 3.5ø to 3.5ø mini phono plug).

Press **SOURCE**/⏻ , and select the AUX mode to listen to the portable device.

TUNER → DISC → USB AUDIO → iPod*[1]/AUX+*[2]
→ BT AUDIO*[3] → AUX → TUNER

*[1] Only when the iPhone/iPod is connected and AUX+ SETUP is set to OFF, refer to "Setting the AUX+ SETUP Mode" (page 20).
*[2] Displayed only when AUX+ SETUP is set to ON, refer to "Setting the AUX+ SETUP Mode" (page 20).
*[3] Only when BT IN is set to BT ADAPTER. Refer to "Bluetooth Setting" (page 18).

Portable player, etc.   **Main unit**

or

Optional adapter cable (RCA pin plugs [red, white] 3.5ø miniplugs) or (3.5ø miniplugs).
• If a USB memory is directly connected to the USB terminal, the size or shape may interfere with driving operations, therefore, avoid connecting an AUX input terminal and a USB memory at the same time.

SETUP

You can flexibly customize the unit to suit your own preferences and usage. From the SETUP menu, Sound Customizing, Visual Customizing, etc., can be modified.

⮌/ESC   🔍/ENT   **FUNC./SETUP**
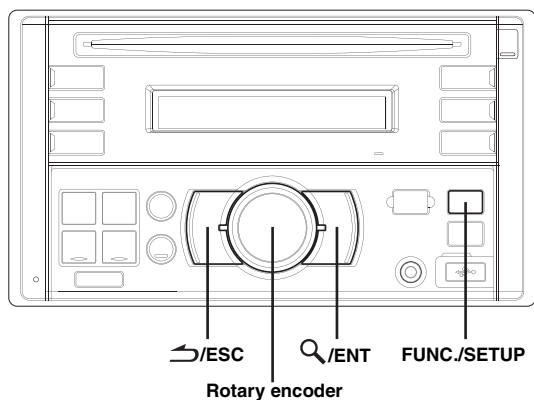

Rotary encoder

Use steps 1 to 4 to select one of the SETUP modes to modify. See the applicable section below for details about the selected SETUP item.

---

1 Press and hold **FUNC./SETUP** for at least 2 seconds to activate the SETUP mode.

2 Turn the **Rotary encoder** to select the desired SETUP menu, and then press 🔍/**ENT.**
(e.g. Select SUBWOOFER)

BT IN*¹ ↔ CLOCK ADJ*² ↔ PLAY MODE ↔ INT MUTE*³ ↔ AUX+ SETUP ↔ AUX+ NAME*⁴ ↔ AUX NAME ↔ POWER IC ↔ DEMO ↔ SUBWOOFER ↔ SUBW SYS*⁵ ↔ SCROLLTYPE ↔ TEXT SCR ↔ FM-LEVEL ↔ REGIONAL*⁶ ↔ PI SEEK*⁷ ↔ AUTO CLOCK*⁸ ↔ BT IN

*¹ Displayed only when INT MUTE is set to OFF, and the mode is set to other than BT AUDIO.
*² Refer to "Setting the Time" (page 7).
*³ Displayed only when BT IN is OFF.
*⁴ Displayed only when AUX+ SETUP is ON.
*⁵ Displayed only when SUBWOOFER is ON.
*⁶ Refer to "Receiving RDS Regional (Local) Stations" (page 10).
*⁷ Refer to "PI SEEK Setting" (page 10).
*⁸ Refer to "Setting the Time to automatically Adjust" (page 10).

3 Turn the **Rotary encoder** to change the setting.
(e.g. Select SUBW ON or SUBW OFF.)

4 Press and hold **FUNC./SETUP** for at least 2 seconds to return to normal mode.

- *Press ⮌/ESC to return to the previous mode.*
- *If no operation is performed for 60 seconds, the unit will return to normal mode automatically.*

Bluetooth Setting

Setting the Bluetooth Connection (BT IN)
BT ADAPTER (Initial setting) / BT OFF

With Bluetooth technology, you can place a hands-free call by a Bluetooth-equipped mobile phone.

> If an optional Bluetooth INTERFACE (KCE-400BT) is connected, make this setting when the Bluetooth function is used. For details, refer to the Owner's Manual of the optional Bluetooth INTERFACE (KCE-400BT). Set ADAPTER when the Bluetooth INTERFACE (KCE-400BT) is connected.

- *The 📞 button can be used only when the optional Bluetooth INTERFACE (KCE-400BT) is connected.*
- *If the mobile phone compatible with the Voice Dial function is connected, the Voice Dial function can be used.*

Sound Customizing

Adjusting Source Signal Levels
FM-LV HI (Initial setting) / FM-LV LOW

If the difference in volume level between the CD player and FM radio is too great, adjust the FM signal level.

Subwoofer On and Off
SUBW ON (Initial setting) / SUBW OFF

When the subwoofer is on, perform the steps below to adjust the subwoofer output level.

> 1 In the normal mode, press Rotary encoder (AUDIO) repeatedly to select the SUBWOOFER mode.
>
> SUBWOOFER → BASS LEVEL → TRE LEVEL → BALANCE → FADER → DEFEAT → VOLUME → SUBWOOFER
>
> 2 Adjust the level by turning the Rotary encoder.

Setting the Subwoofer System
SUBW SYS 1 (Initial setting) / SUBW SYS 2

Select either SYS 1 or SYS 2 for the desired subwoofer effect.

SUBW SYS 1 :	Subwoofer level changes according to the main volume setting.
SUBW SYS 2 :	Subwoofer level change is different from the main volume setting. For example, even at low volume settings, the subwoofer is still audible.

Visual Customizing

Scroll Type Setting
SCR TYPE1 / SCR TYPE2 (Initial setting)

Choose from two scrolling methods.
Select the type you prefer.

SCR TYPE1 :	The characters scroll from right to left, a single character at a time.
SCR TYPE2 :	Words are built up from left to right, a single character at a time. When the display is filled, it is cleared and the remaining words are displayed the same way until all words of the title have been shown.

Scroll Setting (TEXT SCR)
SCR AUTO / SCR MANU (Initial setting)

This CD player can scroll the disc and track names recorded on CD-TEXT discs, as well as the text information of MP3/WMA/AAC files, folder names and tags.

SCR AUTO :	The CD text information, the text information of folder and file names, and the tags are scrolled automatically.
SCR MANU :	The display is scrolled when a disc is loaded or when a track is changed, etc.

• *The unit scrolls CD text names, folder names, file names or tag display.*

Demonstration
DEMO ON / DEMO OFF (Initial setting)

This unit has a demonstration feature for the display.

• *To quit Demo mode, set to DEMO OFF.*

MP3/WMA/AAC

Playing MP3 Data (PLAY MODE)
CD-DA (Initial setting) / CDDA/MP3

This unit can play back CDs containing both CD and MP3/WMA/AAC data (created in Enhanced CD (CD Extra) format). However, in some situations, playback of an enhanced CD may be difficult. In this case, you can select playback of a single session only, containing the CD data. When a disc contains both CD and MP3/WMA/AAC data, playback starts from the CD data portion of the disc.

CD-DA :	Only the CD data in Session 1 can be played back.
CDDA/MP3 :	CD data, MP3/WMA/AAC files in mixed mode, and multi-session discs can be played back.

• *Perform this setting before inserting a disc. If a disc has already been inserted, remove it first.*

External Device

Turning Mute Mode On/Off (INT MUTE)
MUTE ON / MUTE OFF (Initial setting)

If a device having the interrupt feature is connected, audio will be automatically muted whenever the interrupt signal is received from the device.

Connecting to an External Amplifier (POWER IC)
POW ON (Initial setting) / POW OFF

When an external amplifier is connected, sound quality can be improved by stopping the power supply of the built-in amplifier.

POW OFF :	Use this mode when the line output of this unit is used to drive an external amplifier. In this setting, the head unit's internal amplifier is turned OFF and cannot drive speakers.
POW ON :   The speakers are driven by the built-in amplifier.

Speakers

| SPEAKER RIGHT FRONT | ⊕ ⊖ | ⊕ ⊖ | **Front right** |

| SPEAKER RIGHT REAR | ⊖ ⊕ | ⊖ ⊕ | **Rear right** |

| SPEAKER LEFT REAR | ⊕ ⊖ | ⊕ ⊖ | **Rear left** |

| SPEAKER LEFT FRONT | ⊖ ⊕ | ⊖ ⊕ | **Front left** |

• *No sound is produced by the system when the power output is set to OFF.*

Setting the AUX+ SETUP Mode
 AUX+ ON / AUX+ OFF (Initial setting)

An external device (such as a portable music player) can be connected to the Full Speed connector of this unit. A conversion cable (KCE-237B) for build up the AUX IN (optional) is required.

A portable music device and an iPhone/iPod cannot be connected to the Full Speed connector at the same time.

AUX+ ON :   Set to ON when a portable device is connected. If SOURCE/⏻ is pressed and AUX+ is selected, the sound of the portable device is input to the unit.
AUX+ OFF : Set to OFF when an iPhone/iPod is connected.

You can change the AUX+ name display when AUX+ is set to ON. Press 🔍/ENT when AUX+ is set to ON, and select AUX+ NAME by turning the **Rotary encoder**, then press 🔍/ENT. After that, turn the **Rotary encoder** to select the desired AUX+ name.
Setting the AUX NAME mode
 *AUXILIARY *¹(Initial setting) / TV / DVD / PORTABLE*² / GAME*

You can change the AUX NAME display in the SETUP mode.

*¹ *After the setting is completed, AUX is displayed on the unit.*
*² *After the setting is completed, PMD is displayed on the unit.*

USB memory (Optional)

SOURCE/⏻ ▶/❚❚

Controlling USB memory (Optional)

A USB memory device may be connected to this unit. With USB memory connected, playback of files on the device is controlled from this unit.

• *The controls on this unit for USB memory operation are operative only when a USB memory is connected.*

Playing MP3/WMA/AAC Files with the USB memory (Optional)

If you connect a USB memory containing MP3/WMA/AAC, you can play these files on this unit.

1 Press **SOURCE/⏻** to switch to the USB AUDIO mode.

The mode will change every time the button is pressed.

TUNER → DISC → USB AUDIO → iPod*¹/AUX+*²
→ BT AUDIO*³ → AUX*⁴ → TUNER

*¹ *Only when the iPhone/iPod is connected and AUX+ SETUP is set to OFF, refer to "Setting the AUX+ SETUP Mode" (page 20).*
*² *Displayed only when AUX+ SETUP is set to ON, refer to "Setting the AUX+ SETUP Mode" (page 20).*
*³ *Only when BT IN is set to BT ADAPTER. Refer to "Bluetooth Setting" (page 18).*
*⁴ *Refer to "Using the Front AUX Input Terminal" (page 17).*

2 To pause playback, press ▶/❚❚ .
Pressing ▶/❚❚ again will resume the playback.

• *The root folder is displayed as "ROOT" in the Folder Name Search mode.*
• *When a search is made in the USB mode, any song being played back will be stopped.*
• *This unit plays back files in the USB memory with the same controls and modes as playback of CDs containing MP3/WMA/AAC. For details, refer to "CD/MP3/WMA/AAC" on page 11 to 14.*
• *Before disconnecting USB memory, be sure to change to another source or set to pause.*
• *The playback time may not be correctly displayed when a VBR (Variable Bit Rate) recorded file is played back.*

USB memory Connection (Optional)

Connect USB memory

1 **Open the cover of the USB Connection Terminal.**

2 **Connection the USB memory directly to the USB Connection Terminal, or via the USB cable.**

This unit   USB Connection Terminal

USB memory
(sold separately)

or

USB memory
(sold separately)   Cable (sold separately)
Remove USB memory

1 **Carefully, pull out the USB memory from the USB cable or the USB Connection Terminal.**

2 **Close the cover of the USB Connection Terminal.**

* *Change to a source other than the USB memory mode, then remove the USB memory. If the USB memory is removed in the USB memory mode, data may be damaged.*
* *When removing USB memory, pull it out straight.*
* *If sound is not output or USB memory is not recognized even when USB memory is connected, remove USB memory once, and then connection it again.*
* *Route the USB cable away from another cables, etc.*
* *After removing the USB memory, close the cover of the USB Connection Terminal to prevent dust or foreign objects from entering and causing a malfunction.*

About MP3/WMA/AAC File of USB Memory

Playing back MP3/WMA/AAC

MP3/WMA/AAC files are prepared, then stored to a USB memory. This unit can recognise at least 100 folders and 100 files per folder stored in USB memory. Playback may not be performed if a USB memory exceeds the limitations described above.
Do not make a file's playback time more than 1 hour.

Media supported

This device can play back USB memory.

Corresponding File Systems

This device supports FAT 12/16/32 for USB memory device.

iPhone/iPod (Optional)

SOURCE/⏻

An iPhone/iPod can be connected to this unit by using the proprietary ALPINE FULL SPEED™ Connection Cable (supplied). When this unit is connected by using the cable, the controls on the iPod are not functional.

* *Set AUX+ SETUP to OFF when an iPhone/iPod is connected (refer to "Setting the AUX+ SETUP Mode" on page 20).*
* *If the Bluetooth INTERFACE (KCE-400BT) and an iPhone/iPod are connected at the same time, be sure to disconnect the iPhone/iPod from Bluetooth INTERFACE (KCE-400BT) while turning ACC to OFF.*
* *Internet and telephone functions of iPod touch or iPhone, etc., can also be used when connecting to the unit. However, using these functions will stop or pause the playing songs, at this time do not operate the unit to avoid a malfunction.*
* *If you connect an iPhone to this unit, it can be used as an iPod. If you use iPhone as a hands-free phone, you need the optional Bluetooth INTERFACE (KCE-400BT).*
* *Do not leave an iPhone/iPod in a car, as its mechanism is sensitive to high temperature and humidity conditions, and damage may result.*

iPhone/iPod models usable with this unit

* The unit can be used with the following iPhone/iPod models.
  iPhone 3G (version 2.0)
  iPhone (version 1.1.4)
  iPod touch (version 1.0.4)
  iPod classic (version 1.1.1)
  iPod nano (3rd generation) (version 1.1)
  iPod nano (2nd generation) (version 1.1.3)
  iPod with video (version 1.2.3)
  iPod nano (1st generation) (version 1.3.1)

- For clarity in identifying your model of iPod, please see Apple's own document "Identifying iPod models" at http://support.apple.com/kb/HT1353
- This unit does not support video playback from iPhone/iPod, even using a video-compatible cable.
- If the unit is used with versions of iTunes earlier than 7.6, correct function and performance are not guaranteed.

Playback

1 Press **SOURCE/⏻** to switch to the iPod mode.

The mode will change every time the button is pressed.

TUNER → DISC → USB AUDIO → iPod*¹/AUX+*²
→ BT AUDIO*³ → AUX*⁴ → TUNER

*¹ *Only when the iPhone/iPod is connected and AUX+ SETUP is set to OFF, refer to "Setting the AUX+ SETUP Mode" (page 20).*
*² *Displayed only when AUX+ SETUP is set to ON, refer to "Setting the AUX+ SETUP Mode" (page 20).*
*³ *Only when BT IN is set to BT ADAPTER. Refer to "Bluetooth Setting" (page 18).*
*⁴ *Refer to "Using the Front AUX Input Terminal" (page 17).*

2 Press ◀◀ or ▶▶ to select the desired song.

Return to the beginning of the current song:
Press ◀◀.

Fast backward through current song:
Press and hold ◀◀.

Advance to the beginning of the next song:
Press ▶▶.

Fast forward through current song:
Press and hold ▶▶.

3 To pause playback, press ▶/⏸.
Pressing ▶/⏸ again will resume playback.

- A song playing on the iPhone/iPod while it is connected to this unit will continue to play from where it was paused after disconnection.
- *If you listen to an episode from a selected Podcast or Audiobook, the episode can be changed by pressing 1 ▲ /AF or 2 ▼.*
- *An episode may have several chapters. The chapter can be changed by pressing ◀◀ or ▶▶.*

Searching for a desired Song

An iPhone/iPod can contain hundreds of songs. By using file tag information and keeping these songs organised in playlists, this unit's search functions will ease song searches.

Each music category has its own individual hierarchy. Use the Playlist/Artist/Album/Song/Podcast/Genre/Composer/Audiobook search mode to narrow searches based on the table below.

Hierarchy 1	Hierarchy 2	Hierarchy 3	Hierarchy 4
PLAYLIST	SONG	—	—
ARTIST*	ALBUM*	SONG	—
ALBUM*	SONG	—	—
SONG	—	—	—
PODCAST	EPISODE	—	—
GENRE*	ARTIST*	ALBUM*	SONG
COMPOSER*	ALBUM*	SONG	—
AUDIOBOOK	—	—	—

For example: Searching by Artist name
The following example explains how an ARTIST search is performed. Another search mode can be used for the same operation, although the hierarchy differs.

1 Press 🔍/**ENT** to activate the search selection mode.

2 Turn the **Rotary encoder** to select the ARTIST search mode, and then press 🔍/**ENT**.

PLAYLIST ↔ ARTIST ↔ ALBUM ↔ SONG ↔ PODCAST ↔ GENRE ↔ COMPOSER ↔ AUDIOBOOK ↔ PLAYLIST

3 Turn the **Rotary encoder** to select the desired Artist, and then press 🔍/**ENT**.

4 Turn the **Rotary encoder** to select the desired Album, and then press 🔍/**ENT**.

5 Turn the **Rotary encoder** to select the desired Song, and then press 🔍/**ENT**.

- *After pressing and holding 🔍/ENT for at least 2 seconds while in each hierarchy (except SONG and AUDIOBOOK hierarchy), all songs of the selected hierarchy are played back.*
- *After selecting [ALL] in the search mode with "*", press and hold 🔍/ENT for at least 2 seconds to play back all songs in the iPhone/iPod or selected search mode.*
- *While in the search mode, if you press and hold ⤺/ESC for 2 seconds, or no operation is performed for 10 seconds, the search mode is cancelled.*
- *In the search mode, pressing ⤺/ESC will return to the previous mode.*
- *When search is made during M.I.X. play, the M.I.X. play mode will be cancelled.*
- *"NO SONG" will be displayed if there are no songs in the selected playlist in the PLAYLIST search mode.*
- *"NO PODCAST" will be displayed if there is no podcast data in the iPhone/iPod in the PODCAST search mode.*
- *"NOAUDIOBOK" will be displayed if there is no audiobook data in the iPhone/iPod in AUDIOBOOK search mode.*
- *If "iPod name" stored in the iPhone/iPod is selected in the desired Playlist search mode, and 🔍/ENT is pressed, you can search for all songs in the iPhone/iPod. Also, if you press and hold 🔍/ENT for at least 2 seconds, all songs in the iPhone/iPod are played back.*
- *Depending on the iPhone/iPod, podcast search is not supported.*
- *If any one of the preset buttons (1 through 6) is pressed in the search mode, a search can be made quickly by skipping to the specified location. For details, refer to "Direct Search Function" on page 23.*

Quick Search

You can search a song from all songs in the iPhone/iPod without selecting an album, artist, etc.

1 **Press and hold ⚲/ENT for at least 2 seconds to activate the Quick Search mode.**

2 **Turn the Rotary encoder to select a desired song.**
The selected song is played back immediately.

- *Press ⏏/ESC for at least 2 seconds in the search mode to cancel. Or, the search mode is cancelled if no operation is performed for 10 seconds.*
- *If many songs are in the iPhone/iPod, it takes time to search for songs.*
- *If any one of the preset buttons (1 through 6) is pressed in the search mode, a search can be made quickly by skipping to the specified location. For details, refer to "Direct Search Function" on page 23.*
- *This function is inactive during repeat (⏐) playback.*

Direct Search Function

The unit's direct search function can be used to search for an album, song, etc., more efficiently. In PLAYLIST/ARTIST/ALBUM/SONG/ PODCAST/GENRE/COMPOSER/AUDIOBOOK mode, you can quickly target any song.

In the search mode, press any one of the preset buttons (1 through 6) to quickly skip over a designated percent of your song content.
Song search example:
If there are 100 songs in your iPhone/iPod, they are divided into 6 groups using percentages (shown below). These groups are assigned to the preset buttons (1 through 6).

> Example 1:
> Suppose the song you are searching for is located at around the middle (50%) of your library: press button 4 to jump to the 50th song and turn the Rotary encoder to find the desired song.

> Example 2:
> Suppose the song you are searching for is located near the end (83%) of your library: press button 6 to jump to the 83rd song and turn the Rotary encoder to find the desired song.

	All 100 songs (100%)					
	0%	17%	33%	50%	67%	83%
Preset buttons	1	2	3	4	5	6
Songs	First song	17th song	33rd song	50th song	67th song	83rd song

Select Playlist/Artist/Album/Genre/ Composer

Playlist/Artist/Album/Genre/Composer can be easily changed. For example, if you listen to a song from a selected album, the album can be changed.

Press 1 ▲/AF or 2 ▼ to select the desired Playlist/ Artist/Album/Genre/Composer.

- *If the song search mode was used to select a song, this function is inactive.*
- *If an album is selected during an artist search, other albums by that artist are searchable.*
- *This function is inactive during shuffle (⟲) playback.*

Random Play Shuffle (M.I.X.)

The Shuffle function of the iPhone/iPod is displayed as ⟲ on this unit.

Shuffle Albums:
The songs on each album are played back in proper order. Upon completion of all the songs on the album, the next album is selected randomly. This continues until all albums have been played.

Shuffle Songs:
Song shuffle randomly plays back songs within a selected category (playlist, album, etc.). The songs within the category are played just once until all songs have been played.

1 **Press ⟲/SHUFFLE 5.**
The songs are played back in random sequence.

  📁⟲ → ⟲ → (off) → 📁⟲
(Shuffle Albums) (Shuffle Songs)

2 **To cancel M.I.X. play, select (off) with the above procedure.**

- *If a song is selected in the album search mode before selecting M.I.X. play, the songs will not play back randomly even when Shuffle Albums is selected.*

Shuffle ALL:
Shuffle ALL plays all songs in the iPhone/iPod randomly. Any one song does not play back again until all songs have been played back.

1 **Press 6.**
The songs are played back in random sequence.

  ⟲ → (off) → ⟲
(Shuffle ALL)

2 **To cancel M.I.X. play, select (off) with the above procedure.**

- *If Shuffle ALL is selected, the selected songs being played back in the search mode are cancelled.*

Repeat Play

Only Repeat One is available for the iPhone/iPod.

Repeat One:
A single song is repeatedly played back.

1 Press ⏏/REPEAT 4.
The song is played back repeatedly.

⏏ → (off) → ⏏
(Repeat One)

2 To cancel repeat play, select (off) with the above procedure.

• *During repeat playback, no other songs are selectable by pressing*
  ⏮ or ⏭.

Displaying the Text

You can display the tag information of a song in the iPhone/iPod.

Press VIEW.
Each press changes the display.

• *When the TEXT SCR is set to SCR MANU, press and hold VIEW for*
  at least 2 seconds, the current text will be scrolled one time.

    TRACK NO./ELAPSED TIME → CLOCK → ARTIST NAME*
    → ALBUM NAME* → SONG TITLE* →
    TRACK NO./ELAPSED TIME

* *TAG information*
  "ARTIST"/"ALBUM"/"SONG" is displayed if there is no tag
  information.

• *Only alphanumeric characters (ASCII) can be displayed.*
• *If the artist, album or song name, created in iTunes, has too many*
  characters, songs may not be played back when connected to the
  adapter. Therefore, a maximum of 250 characters is recommended.
  The maximum number of characters for the head unit is 64
  (64 byte).
• *Some characters may not be correctly displayed.*
• *"NO SUPPORT" is displayed if text information is not supported by*
  the unit.
• *" ⊚ " lights up when switching to the TIME display mode.*

Information

In Case of Difficulty

If you encounter a problem, please turn the power off, then on again. If
the unit is still not functioning normally, please review the items in the
following checklist. This guide will help you isolate the problem if the
unit is at fault. Otherwise, make sure the rest of your system is properly
connected or consult your authorized Alpine dealer.

Basic

No function or display.
• Vehicle's ignition is off.
  - If connected following instructions, the unit will not operate
    with the vehicle's ignition off.
• Improper power lead (Red) and battery lead (Yellow) connections.
  - Check power lead and battery lead connections.
• Blown fuse.
  - Check the fuse of the unit; replace with the proper value if
    necessary.
• Internal micro-computer malfunctioned due to interference noise
  etc.
  - Press the RESET switch with a ballpoint pen or other pointed
    article.

Radio

Unable to receive stations.
• No antenna or open connection in cable.
  - Make sure the antenna is properly connected;
    replace the antenna or cable if necessary.

Unable to tune stations in the seek mode.
• You are in a weak signal area.
  - Make sure the tuner is in the DX mode.
• If the area you are in is a primary signal area, the antenna may
  not be grounded and connected properly.
  - Check your antenna connections; make sure the antenna is
    properly grounded at its mounting location.
• The antenna may not be the proper length.
  - Make sure the antenna is fully extended; if broken, replace the
    antenna with a new one.

Broadcast is noisy.
• The antenna is not the proper length.
  - Extend the antenna fully; replace it if it is broken.
• The antenna is poorly grounded.
  - Make sure the antenna is grounded properly at its mounting
    location.

CD

CD Player not functioning.
- Out of operating temperature range +50°C (+120°F) for CD.
  - Allow the vehicle's interior (or trunk) temperature to cool.

CD playback sound is wavering.
- Moisture condensation in the CD Module.
  - Allow enough time for the condensation to evaporate (about 1 hour).

CD insertion not possible.
- A CD is already in the CD player.
  - Eject the CD and remove it.
- The CD is being improperly inserted.
  - Make sure the CD is being inserted following instructions in the CD Player Operation section.

Unable to fast forward or backward the CD.
- The CD has been damaged.
  - Eject the CD and discard it; using a damaged CD in your unit can cause damage to the mechanism.

CD playback sound skips due to vibration.
- Improper mounting of the unit.
  - Securely re-mount the unit.
- The disc is very dirty.
  - Clean the disc.
- The disc has scratches.
  - Change the disc.
- The pick-up lens is dirty.
  - Do not use a commercially available lens cleaner disc. Consult your nearest Alpine dealer.

CD playback sound skips without vibration.
- The disc is dirty or scratched.
  - Clean the disc; damaged disc should be replaced.

Error displays (built-in CD player only).
- Mechanical error
  - Press ▲/CD. After the error indication disappears, insert the disc again. If the above-mentioned solution does not solve the problem, consult your nearest Alpine dealer.

CD-R/CD-RW playback not possible.
- Close session (finalisation) has not been performed.
  - Perform finalisation and attempt playback again.

MP3/WMA/AAC

MP3, WMA or AAC is not played back.
- Writing error occurred. The MP3/WMA/AAC format is not compatible.
  - Make sure the MP3/WMA/AAC has been written in a supported format. Refer to "About MP3/WMA/AAC" (pages 13-14), then rewrite in the format supported by this device.

Audio

The sound is not output from the speakers.
- Unit has no output signal of the internal amplifier.
  - POWER IC is switched to "POW ON" (page 19).

iPod

iPod does not play and no sound is output.
- The iPod has not been recognised.
  - Reset this unit and the iPod. Refer to "Initial System Start-Up" (page 7). To reset the iPod, refer to the Owner's Manual of the iPod.

Indication for CD Player

NO DISC

- No CD is inserted.
  - Insert a CD.
- Although a disc is inserted, "NO DISC" is displayed and the unit does not start to play or eject the disc.
  - Remove the disc by following these steps:
    Press the ▲/CD button again for at least 2 seconds.
    If the disc still does not eject, consult your Alpine dealer.

ERROR

- Mechanism error.
  1) Press the ▲/CD button and eject the CD.
     If not ejecting, consult your Alpine dealer.
  2) When the error indication remains after ejecting, press the ▲/CD button again.
     If the error indication still does not turn off after pressing the ▲/CD button for a few times, consult your Alpine dealer.

- *When "ERROR" is displayed:*
  If the disc cannot be ejected by pressing ▲/CD, press the RESET switch (refer to page 7) and press ▲/CD again.
  If the disc still cannot be ejected, consult your Alpine dealer.

PROTECT

- A copy-protected WMA file was played back.
  - You can only play back non-copy-protected files.

UNSUPORTED

- A sampling rate/bit rate not supported by the unit is used.
  - Use a sampling rate/bit rate that is supported by the unit.

Indication for USB memory

ERROR

• Abnormal current is run to the USB connector device (an error message may be displayed if the USB device that is not compatible with the unit is connected).
USB memory is a malfunction or it is shorted.
  - Connect another USB memory.

UNIT ERROR

• A USB device that is not supported by the unit is connected.
  - Connect a USB device that is supported by the unit.

NO DEVICE

• A USB memory is not connected.
  - Make sure the USB memory device is correctly connected and the cable is not excessively bent.

NO FILE

• No song (file) is stored in the USB memory.
  - Connect the USB memory device after storing songs (files).

UNSUPORTED

• A sampling rate/bit rate not supported by the unit is used.
  - Use a sampling rate/bit rate that is supported by the unit.

PROTECT

• A copy-protected WMA file was played back.
  - You can only play back non-copy-protected files.

NO SUPPORT

• Text information that is not recognizable by the unit has been input.
  - Use a USB memory device with input text information that is supported by the unit.

Indication for iPod Mode

NO IPOD

• The iPhone/iPod is not connected.
  - Make sure the iPhone/iPod is correctly connected (refer to "Connections").
    Make sure the cable is not bent excessively.

NO SONG

• There are no songs in the iPhone/iPod.
  - Download songs to the iPhone/iPod and connect to this unit.

ERROR-01

• Communication error.
  - Turn the ignition key off, and then set to ON again.
  - Check the display by reconnecting between the iPhone/iPod and this unit, using the iPhone/iPod cable.
  - Reset the iPod.

ERROR-02

• Caused by the iPhone/iPod Software Version not being compatible with this unit.
  - Update the iPhone/iPod Software Version to be compatible with this unit.

ERROR-03

• The iPhone/iPod is not verified.
  - Reset the iPod.
  - Try another iPhone/iPod, if available.

ERROR-04

• Power surge error.
  Excessive voltage/current is supplied to the iPhone/iPod.
  - Try another iPhone/iPod, if available.

Bluetooth mode

NO UNIT

• The Bluetooth device is not connected.
  - Connect the Bluetooth device.

Indication for all Modes

DC ERROR

• Malfunction occurred as a result of the speaker cable shorting on the car chassis.
  - Route the cable correctly, and set POWER IC to ON (page 19). If the above solution does not work, consult your nearest dealer.

Specifications

FM TUNER SECTION

Tuning Range	87.5-108.0 MHz
Mono Usable Sensitivity	0.7 μV
Alternate Channel Selectivity	80 dB
Signal-to-Noise Ratio	65 dB
Stereo Separation	35 dB
Capture Ratio	2.0 dB

MW TUNER SECTION

Tuning Range	531-1,602 kHz
Sensitivity (IEC Standard)	25.1 μV/28 dB

LW TUNER SECTION

Tuning Range	153-281 kHz
Sensitivity (IEC Standard)	31.6 μV/30 dB

CD PLAYER SECTION

Frequency Response	5-20,000 Hz (±1 dB)
Wow & Flutter (% WRMS)	Below measurable limits
Total Harmonic Distortion	0.008% (at 1 kHz)
Dynamic Range	95 dB (at 1 kHz)
Signal-to-Noise Ratio	105 dB
Channel Separation	85 dB (at 1 kHz)

USB SECTION

USB requirements	USB 1.1/2.0
Max. Power Consumption	500 mA
USB Class	Mass Storage
File System	FAT 12/16/32
MP3 Decoding	MPEG-1/2 AUDIO Layer-3
WMA Decoding	Windows Media™ Audio
AAC Decoding	AAC-LC format ".m4a" file
Number of Channels	2-Channel (Stereo)
Frequency Response*	5-20,000 Hz (±1 dB)
Total Harmonic Distortion	0.008% (at 1 kHz)
Dynamic Range	95 dB (at 1 kHz)
Signal-to-Noise Ratio	105 dB
Channel Separation	85 dB (at 1 kHz)

  * Frequency response may differ depending on the encoder software/bit rate.

GENERAL

Power Requirement	14.4 V DC (11-16 V allowable)
Maximum Power Output	50 W × 4
Maximum Pre-Output Voltage	2 V/10 k ohms
Bass	±14 dB at 60 Hz
Treble	±14 dB at 10 kHz
Weight	2.0 kg (4 lbs. 6 oz)

CHASSIS SIZE

Width	178 mm (7")
Height	100 mm (3-15/16")
Depth	160 mm (6-1/4")

• *Due to continuous product improvement, specifications and design are subject to change without notice.*

CAUTION

CLASS 1 LASER PRODUCT

(Bottom side of player)

Installation and Connections

Before installing or connecting the unit, please read the following and pages 3 to 6 of this manual thoroughly for proper use.

⚠ Warning

MAKE THE CORRECT CONNECTIONS.

Failure to make the proper connections may result in fire or product damage.

USE ONLY IN CARS WITH A 12 VOLT NEGATIVE GROUND.

(Check with your dealer if you are not sure.) Failure to do so may result in fire, etc.

BEFORE WIRING, DISCONNECT THE CABLE FROM THE NEGATIVE BATTERY TERMINAL.

Failure to do so may result in electric shock or injury due to electrical shorts.

DO NOT SPLICE INTO ELECTRICAL CABLES.

Never cut away cable insulation to supply power to other equipment. Doing so will exceed the current carrying capacity of the wire and result in fire or electric shock.

DO NOT DAMAGE PIPE OR WIRING WHEN DRILLING HOLES.

When drilling holes in the chassis for installation, take precautions so as not to contact, damage or obstruct pipes, fuel lines, tanks or electrical wiring. Failure to take such precautions may result in fire.

DO NOT USE BOLTS OR NUTS IN THE BRAKE OR STEERING SYSTEMS TO MAKE GROUND CONNECTIONS.

Bolts or nuts used for the brake or steering systems (or any other safety-related system), or tanks should NEVER be used for installations or ground connections. Using such parts could disable control of the vehicle and cause fire etc.

KEEP SMALL OBJECTS SUCH AS BATTERIES OUT OF THE REACH OF CHILDREN.

Swallowing them may result in serious injury. If swallowed, consult a physician immediately.

DO NOT INSTALL IN LOCATIONS WHICH MIGHT HINDER VEHICLE OPERATION, SUCH AS THE STEERING WHEEL OR SHIFT LEVER.

Doing so may obstruct forward vision or hamper movement etc. and results in serious accident.

⚠ Caution

HAVE THE WIRING AND INSTALLATION DONE BY EXPERTS.

The wiring and installation of this unit requires special technical skill and experience. To ensure safety, always contact the dealer where you purchased this product to have the work done.

USE SPECIFIED ACCESSORY PARTS AND INSTALL THEM SECURELY.

Be sure to use only the specified accessory parts. Use of other than designated parts may damage this unit internally or may not securely install the unit in place. This may cause parts to become loose resulting in hazards or product failure.

ARRANGE THE WIRING SO IT IS NOT CRIMPED OR PINCHED BY A SHARP METAL EDGE.

Route the cables and wiring away from moving parts (like the seat rails) or sharp or pointed edges. This will prevent crimping and damage to the wiring. If wiring passes through a hole in metal, use a rubber grommet to prevent the wire's insulation from being cut by the metal edge of the hole.

DO NOT INSTALL IN LOCATIONS WITH HIGH MOISTURE OR DUST.

Avoid installing the unit in locations with high incidence of moisture or dust. Moisture or dust that penetrates into this unit may result in product failure.

Precautions

- Be sure to disconnect the cable from the (–) battery post before installing your CDE-W203Ri. This will reduce any chance of damage to the unit in case of a short-circuit.
- Be sure to connect the colour coded leads according to the diagram. Incorrect connections may cause the unit to malfunction or damage to the vehicle's electrical system.
- When making connections to the vehicle's electrical system, be aware of the factory installed components (e.g. on-board computer). Do not tap into these leads to provide power for this unit. When connecting the CDE-W203Ri to the fuse box, make sure the fuse for the intended circuit of the CDE-W203Ri has the appropriate amperage. Failure to do so may result in damage to the unit and/or the vehicle. When in doubt, consult your Alpine dealer.
- The CDE-W203Ri uses female RCA-type jacks for connection to other units (e.g. amplifier) having RCA connectors. You may need an adaptor to connect other units. If so, please contact your authorized Alpine dealer for assistance.
- Be sure to connect the speaker (–) leads to the speaker (–) terminal. Never connect left and right channel speaker cables to each other or to the vehicle body.

| IMPORTANT	
Please record the serial number of your unit in the space provided below and keep it as a permanent record. The serial number or the engraved serial number is located on the bottom of the unit.	SERIAL NUMBER: _____ INSTALLATION DATE: _____ INSTALLATION TECHNICIAN: _____ PLACE OF PURCHASE: _____

Installation

Caution

Do not block the unit's heat sink, thus preventing air circulation. If blocked, heat will accumulate inside the unit and may cause a fire.

Heat sink
- *The main unit must be mounted within 30 degrees of the horizontal plane, back to front.*

Less than 30°
1 **Remove the mounting sleeve from the main unit (see "Removal" on page 29). Slide the mounting sleeve into the dashboard and fix it with the metal shackles.**

Mounting Sleeve (Included) **Dashboard**

Bracket key

Rubber Cap (Included)
This unit

Pressure Plates∗

Hex Bolt (Included)

Face Plate (Included)

∗ *If the installed mounting sleeve is loose in the dashboard, the pressure plates may be bent slightly to remedy the problem.*

2

Screw

Hex Nut (M5)

∗2

Bolt Stud

Metal Mounting Strap

∗1

**Ground Lead**

This unit

Chassis
When your vehicle has the Bracket, mount the long hex bolt onto the rear panel of the CDE-W203Ri and put the Rubber Cap on the hex bolt. If your vehicle does not have the Mounting Support, reinforce the head unit with the metal mounting strap (not supplied). Secure the ground lead of the unit to a clean metal spot using a screw (∗1) already attached to the vehicle's chassis. Connect all the leads of the CDE-W203Ri according to details described in the CONNECTIONS section.

- *For the screw marked "∗2", use an appropriate screw for the chosen mounting location.*

3 **Slide the CDE-W203Ri into the dashboard until it clicks. This ensures that the unit is properly locked and will not accidentally come out from the dashboard.**
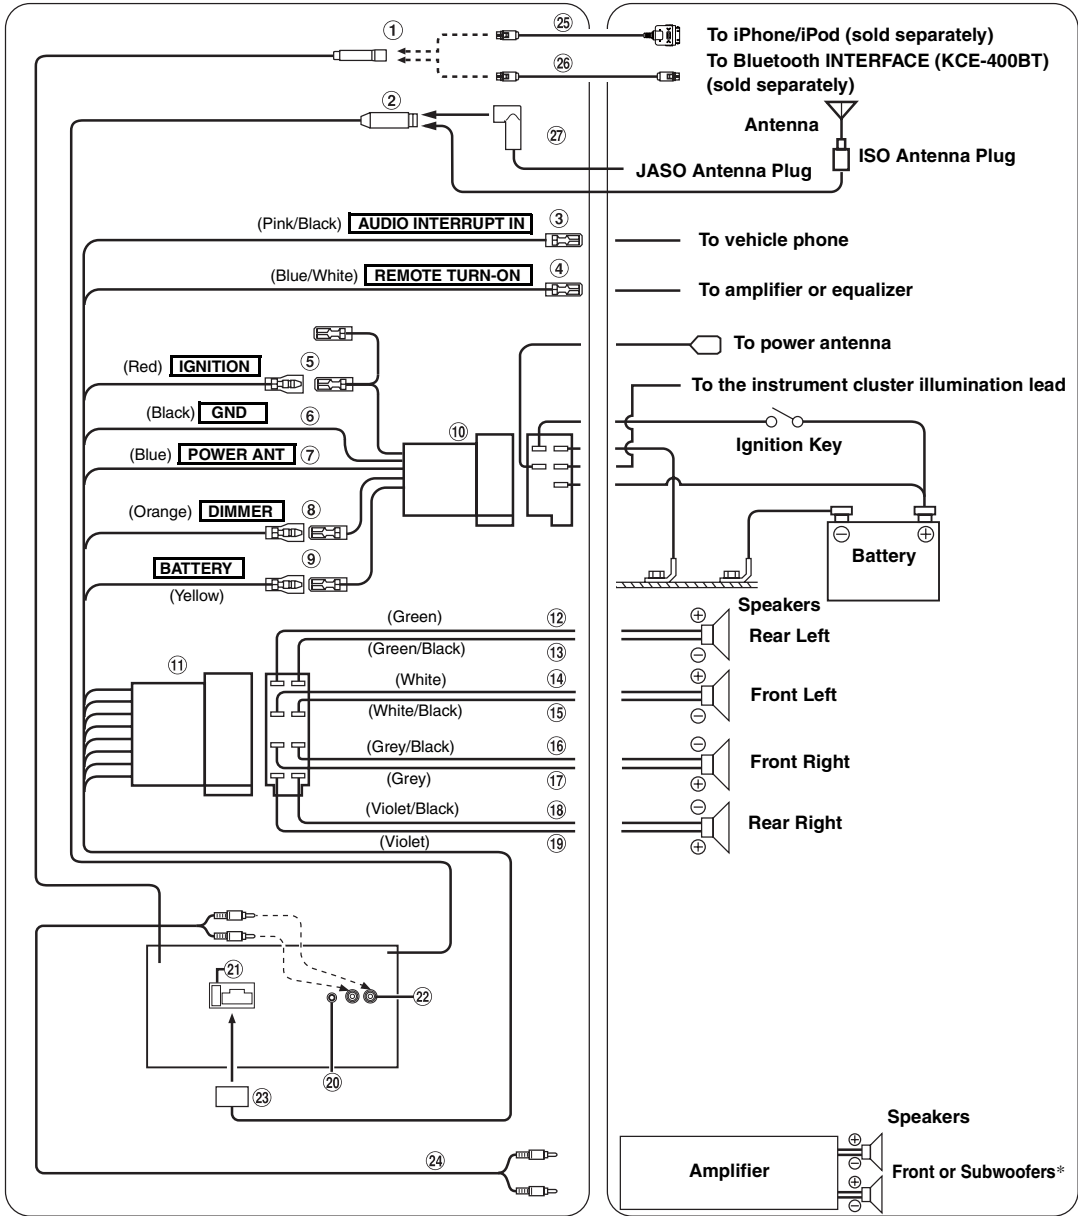

Removal

1. Insert the bracket keys into the unit, along the guides on either side. The unit can now be removed from the mounting sleeve.

This unit

Bracket keys (Included)

2. Pull the unit out, keeping it unlocked as you do so.

Connections

	㉕	To iPhone/iPod (sold separately)
	㉖	To Bluetooth INTERFACE (KCE-400BT) (sold separately)

Speakers

Amplifier **Front or Subwoofers***

* When Subwoofer is OFF: Output is for Front speakers. When Subwoofer is ON: Output is for Subwoofer.
   For details on how to set the Subwoofer to ON/OFF, see "Subwoofer On and Off" on page 18.

① **Full Speed Connector**
Control iPhone/iPod signals.
Connect this to an iPhone/iPod by using FULL SPEED™ Connection Cable (supplied) or to an external device (such as a portable player) by using conversion cable (KCE-237B) for building up the AUX IN (sold separately).

• *Refer to "Setting the AUX+ SETUP Mode" (page 20).*

AUX+ ON : When the external device is connected.
AUX+ OFF : When an iPhone/iPod is connected.

You can also connect this to an optional Bluetooth INTERFACE (KCE-400BT). To use a hands-free mobile phone, an optional Bluetooth INTERFACE (KCE-400BT) connection is required. For details on connection, refer to the Owner's Manual of the Bluetooth INTERFACE (KCE-400BT).

② **Antenna Receptacle**

③ **Audio Interrupt In Lead (Pink/Black)**
Connect this lead to the Audio Interface output of a cellular phone which provides ground shorting when a call is received.

④ **Remote Turn-On Lead (Blue/White)**
Connect this lead to the remote turn-on lead of your amplifier or signal processor.

⑤ **Switched Power Lead (Ignition) (Red)**
Connect this lead to an open terminal on the vehicle's fuse box or another unused power source which provides (+) 12V only when the ignition is turned on or in the accessory position.

⑥ **Ground Lead (Black)**
Connect this lead to a good chassis ground on the vehicle. Make sure the connection is made to bare metal and is securely fastened using the sheet metal screw provided.

⑦ **Power Antenna Lead (Blue)**
Connect this lead to the +B terminal of your power antenna, if applicable.

• *This lead should be used only for controlling the vehicle's power antenna. Do not use this lead to turn on an amplifier or a signal processor, etc.*

⑧ **Dimmer Lead (Orange)**
This lead may be connected to the vehicle's instrument cluster illumination lead. This will enable the vehicle's dimmer control to dim the backlighting of the unit.

⑨ **Battery Lead (Yellow)**
Connect this lead to the positive (+) post of the vehicle's battery.

⑩ **ISO Power Supply Connector**

⑪ **ISO Connector (Speaker Output)**

⑫ **Left Rear (+) Speaker Output Lead (Green)**

⑬ **Left Rear (–) Speaker Output Lead (Green/Black)**

⑭ **Left Front (+) Speaker Output Lead (White)**

⑮ **Left Front (–) Speaker Output Lead (White/Black)**

⑯ **Right Front (–) Speaker Output Lead (Grey/Black)**

⑰ **Right Front (+) Speaker Output Lead (Grey)**

⑱ **Right Rear (–) Speaker Output Lead (Violet/Black)**

⑲ **Right Rear (+) Speaker Output Lead (Violet)**

⑳ **Steering Remote Control Interface Connector**
To steering remote control interface box.

㉑ **Fuse Holder (10A)**

㉒ **Front/Subwoofer Output RCA Connectors**
RED is right and WHITE is left.

㉓ **Power Supply Connector**

㉔ **RCA Extension Cable (sold separately)**

㉕ **FULL SPEED™ Connection Cable (supplied)**

㉖ **KCE-400BT Connection Cable (Included with KCE-400BT)**

㉗ **ISO/JASO Antenna Adaptor (sold separately)**
An ISO/JASO antenna adapter may be required, depending on the vehicle.

㉘ **Front AUX Input Terminal**
This terminal allows for input of audio from an external device (such as a portable player), using a commercially-available converter cable.

㉙ **USB Terminal**
Connect this to a USB memory (sold separately).

To prevent external noise from entering the audio system.
• Locate the unit and route the leads at least 10 cm away from the car harness.
• Keep the battery power leads as far away from other leads as possible.
• Connect the ground lead securely to a bare metal spot (remove any paint, dirt or grease if necessary) of the car chassis.
• If you add an optional noise suppressor, connect it as far away from the unit as possible. Your Alpine dealer carries various noise suppressors, contact them for further information.
• Your Alpine dealer knows best about noise prevention measures so consult your dealer for further information.
