NEW WORLD. NEW THINKING.™

DOCKING SOLUTIONS FROM LENOVO.

HOW GREAT NOTEBOOKS BECOME
POWERFUL DESKTOP PERFORMERS.

ThinkPad®

For over a decade, ThinkPad notebooks have continually redefined the standards of portable computing, putting industry leading design and groundbreaking technology in the hands of smart, savvy and highly mobile business professionals.

A host of great features on our next generation docking solutions now makes these accessories even better. Improvements include: the cable-management convenience of the ThinkPad Port Replicator Series 3, the expanded digital connectivity and robust security of the ThinkPad Mini Dock Series 3. In addition, Lenovo provides ongoing support for legacy ThinkPad systems. The X200 UltraBase™ boasts ultraportability and a clever design.

All of which ensure that whatever your needs may be, there's a new age docking solution to make your ThinkPad as powerful as it is portable.

NEW THINKING. NEW THINKPAD.

Our mission is to bring more innovation to more people, so they can do more innovative things.

NEW WORLD. NEW THINKING.™

A SIZE TO FIT ALL.

With innovations that address a full range of user needs, ThinkPad notebook docking products are optimized for precision and ease—and tailored to perfectly fit a variety of business needs. To dock a supported system, simply line up the notebook in the designated corner and click it securely into place. Undocking is just as easy, thanks to a logical and well-lit ejection console.

PORT REPLICATOR

Everything you need. Nothing you don't. Snap in and get connected to your local area network/Internet and workplace peripherals such as your monitor, keyboard, mouse, printer and other USB devices.

Ideal for: Cost-conscious individuals and small and medium businesses who need the basics done right.

MINI DOCK

Expanding capability and outstanding value. Adds turn-key security and digital video capability to advanced cable management. Ships with an AC adapter.

Ideal for: Medium and large enterprises that need enhanced port replication and security at the best possible price.

MINI DOCK PLUS

Advanced capability in the same small form factor you know and love. Includes a wide range of video outputs, including one VGA port, two DVI ports and two DisplayPorts, as well as an e-SATA port for high-bandwidth modular storage.

Ideal for: Customers with more advanced video and storage requirements.

ULTRABASE™

Pass-through cable management that you can carry with you anywhere. Leave at your desk for quick and easy access to peripherals or carry with your system for convenient device expansion. The X200 UltraBase™ includes an integrated spare battery charger and an Ultrabay™ Slim for housing an optical drive or second hard disk drive.

Ideal for: Ultraportable and tablet users who require expansion both in the office and on the road.

Note: For specific information on ThinkPad notebooks supported by docking solution, see page 4-6.
