

PARAGON™

quality seating

THAT EVERYONE CAN AFFORD

# PARAGON™

**1970LM-3** High Back Multi-Tilter shown in Leather/Mock Leather

**1970-4** High Back Tilter shown in Crescent Flame (705, Grade 4)

**GI armcap** slides forward or backward to position for body size.

**GI armcap** moves up and down for effective arm support.

**GI armcap** angles inward 30° aiming toward the center of the keyboard.

**GI armcap** slides over top of the seat to narrow the space between the arms.

Cover: Shown is model 1970-3 upholstered in Momentum Echelon Sienna (EC22, Grade 9)

Paragon's contemporary design is accented with piping around the back and seat and with a decorative back panel, both of which are exclusively available in black fabric (JN02). Paragon's state of the art arm (GI) provides a full range of adjustments for computer use. The arm cap slides inward toward your body and the center of the chair. The arm cap can also rotate

inward on an angle aiming toward the center of the keyboard, and slide forward or backward to position for body size. The arm is also height adjustable. These multiple movements allow the chair arms to be positioned exactly where the keyboard operator needs them for comfort, proper support and productivity.

DESCRIPTION	DIMENSIONS			SEAT HEIGHT
	W	D	H	
	IN	IN	IN	
<b>1970-4</b>	25	24.5	41.5	16.5-20.5
