

25-meter Infrared Internet Camera

PLANET announces the new 25-meter Infrared Internet Camera, ICA-312, for meeting the feedback from worldwide market. This infrared internet camera is capable for zero-lux imaging and water-resistant construction with weatherproof solid housing. The ICA-312 is the perfect outdoor surveillance application for day and night. It can combine the PLANET Pan / Tilt Internet cameras and Internet Video server / Digital Video Recorder products for various field demands in surveillance network.

The ICA-312 features zero-lux illumination. The 8 IR illuminator built around the lens brings the clearest vision at night. Via the new LED technology, the illuminator ensures high-quality monochrome images in complete darkness up to 25 meters. With the Aluminum rugged all-weather waterproof enclosure, the ICA-312 infrared internet camera maintains the reliable operation in any environment.

Multi-profile stands for video stream simultaneously. The ICA-312 can generate MPEG-4 and M-JPEG streaming to different users in the meantime. Moreover, the resolution can be different from one user to another. This state-of-art design is considerable to fit in various network environments.

KEY FEATURE

- High quality of 1/3 inch color SONY CCD sensor in 25 M IR distance
- Clear and High resolution of quality pictures for day and night
- 3GPP for 3G mobile remote applications
- Multi-profile encoder supports MPEG-4 and M-JPEG video compression simultaneously
- LED used on ICA-312 are 4 times brighter than ordinary IR LED
- Secure protection for current rejections
- Special mental base enhances lighting and dissipating heat
- Weatherproof protection housing guards against the various weather
- Plug-N-Watch is able to simplify system integration of existing network environment
- Because of supporting to TCP/IP networking, SMTP e-mail and HTTP public network standards, ICA-312 can be applied and utilized to a mixed IP network environment
- Easy configuration: Network administrators can configure and manage ICA-312 via Windows-based utility or web interface
