

Water Resistant PDA Case

Water resistant box for installation of a PDA on a motorcycle or in the boat. Allows you to operate your PDA, regardless of the weather. When the PDA is in the box, it is well protected from rain and dust.

You can easily take the box with the PDA with you, and it is easy to put the PDA in the box as well as take it out of the box. The box can also be used for MP3-players, smartphones etc.

The installation of the water resistant box is quick and easy. The water resistant box has a protective hard shell with a soft transparent front.

You can have a charging- or GPS-cable as well as a headset connected to the PDA when it is in the box. The box is attached onto a tilt swivel, so you can adjust your PDA for easier viewing. (Not water proof).

Inner dimensions: 85x152x28,5 mm.
