

COMFORT & WELLNESS BENEFITS of CODi Carrying Cases

CODi[®]
The One You Trust.®

A mobile lifestyle makes corporate road warriors prone to stress and strain on their bodies. That's why we design our case line with special attention to features that aim to reduce stress and strain and promote comfort and wellness.

Our fabric is the foundation for durability and comfort.

True 1050D ballistic nylon wears exceptionally well without compromising the weight of the case—our's are some of the lightest in the industry, weighing in under 3 lbs. Because of our innovation for comfort considerations, our cases are often adopted as standards by many corporate ergonomics professionals.

Ballistic nylon is durable and very light in weight. **Our cases weigh under 3 lbs.**

Adjustable and removable padded shoulder straps contour the shoulder and distribute weight evenly.

Leather wrapped overlapping comfort grip handles designed to conform to the hand for comfort.

Our backpacks feature adjustable, **breathable, padded shoulder straps** and **adjustable sternum strap** for additional support and comfort.

Wheeled cases put the least amount of stress on the body. Our wheeled cases feature **twin tube telescoping handles** and **in-line wheels** to properly distribute weight.

Our traditional cases include a **luggage strap** for adding on to wheeled luggage to redistribute weight and eliminate stress on the shoulders and back.
