

BacPac Xtreme backpack

A robust 15.4" notebook backpack with wind and weather protection

The robust BacPac Xtreme has numerous compartments and pockets to not only keep the notebook safe, but also carry substantial amounts of accessories and other utilities.

Special features include a detachable cape and water-repellent outer material to protect from bad weather. The lockable and padded notebook compartment on the back side ensures protection from theft and gives equal weight distribution.

The large two-part main compartment can hold mobile equipment such as mice or power supply units as well as documents and folders. The integrated workstation takes care of mobile phones, pens, keys, and more. There is a multimedia pouch on the top side for mp3 or CD players with special cable opening for headphones, allowing you to listen to music on the go. One of the two side pockets is designed as a Hot/Cold drinks holder - insulated so your drinks stay cool or your coffee stays hot! Mesh pockets provide instant access to small items.

The BacPac Xtreme features especially soft, ergonomically formed shoulder straps and breathable back padding. The adjustable chest strap and hip strap ensure a safe hold and wearing comfort.
