

BacPac Business backpack

A light-weight business backpack for notebooks up to 15/15.4"

The BacPac Business is the perfect companion for everyday business life, on short trips or at exhibitions. Thanks to its smart form, this 15" notebook backpack suits any business outfit.

The notebook is protected safely in the padded notebook compartment, with additional safety provided by the integrated notebook strap which prevents the notebook from moving or slipping.

Space for documents and mobile equipment can be found in the main compartment and its integrated workstation. The attached front pockets offer storage room for the power supply unit, pens, business cards and more. The BacPac Business features special side pockets for instant access to mobile phones, mp3 players, or other items which you need immediately to hand.

Due to its size and sectioning the BacPac Business offers all the functionality of a standard business case, but is also easy to carry on the back. The padded, adjustable shoulder straps and back padding make for a comfortable trip, and the water-repellent and durable material offer additional protection for the contents.
