

AluCompact

front loading

An elegant notebook case for notebook and accessories

The two exterior hulls are made of full aluminium and are each manufactured from one solid piece - making the case particularly robust despite its light weight - so mobile equipment is perfectly protected from shocks and jolts. Inside the case, High Density Foam (HDF) and a secure strap provide an effective cushioning to protect further whilst lockable latches protect against theft.

The AluCompact has plenty of space for not just your notebook, but also for a power supply unit, replacement battery, and so on. Additional accessories can be stored in the lid with a specific document compartment to keep your important papers neat and organised.

For portability, a removable shoulder strap can be used for more comfortable transport over distance.

Specification:

Colour:	Silver
Dimensions:	500mm x 370mm x 100mm OR 19.7" x 14.6" x 3.9"
Weight:	2.9kg
Material:	Aluminium
For Notebooks up to:	17"

Part Codes:

N7828AHY	AluCompact
