Wizard Mid-Tower ATX Cases

Wizard ATX Mid-Tower Cases

In the red-hot gaming market, The Wizard will quickly become the best-selling case of all time! When it comes to performance – no case can match the Wizard’s versatility, expandability, durability and airflow technology. Available in your choice of outrageous colors, the magnificent Wizard is compatible with all the leading motherboards including AT, Baby AT, ATX and Micro ATX. With 7 expansion slots and 8 drive bays (4 external and 5 internal), the Wizard leaves you plenty of room to grow. Connecting all your peripherals is fast and convenient with high-speed USB and FireWire ports located on the front bezel of this extreme PC case. The Wizard’s large front-panel vent system allows maximum airflow, the front swing-out bezel cover can be locked for security, and the side panel features quick-release hardware. Includes two case fan mounts.
