Highlights

24 carat gold-plated connector

24 carat gold-plated connectors ensure the best signal quality for your components.

100% aluminum shielding

This protective layer of aluminum guards against electromagnetic interference for improved signal quality.

Solid high purity OFC

This oxygen-free copper conductor provides the highest accuracy in signal transfer with minimal resistance.

Copper braided shielding

This protective layer of copper blocks radio frequency interference for improved signal quality.

Easy grip

This non-slip grip makes connecting your components easy and ergonomically comfortable.

Plug and play

Plug and play offers easy installation of components without time-consuming installations.

Heavy-duty brass shell

The heavy-duty brass shell protects the internal connection of the cable. It ensures durability and the reliability of your connection.

Super pliable jackets

Super pliable PVC jackets are abrasion-resistant for outstanding flexibility and protection against everyday wear and tear.
