

# ULTRA

## Fan Commander

### The Ultimate Fan Commander

You'll be able to exercise total temperature control over your system with this Fan Commander. And isn't that the way it should be? The Fan Commander features an auto control setting with alarm that activates fans to run at full speed in order to cool down to a safe level if your PC's temperature exceeds a certain default limit. Black or Aluminum Finish bezel is included. Monitor CPU, HDD, and System temperature from one location. LCD also features date, time, and a HDD status light indicator. This easy to install device puts you in control of your system.
