

RANGE COMPOSITION

A range of central hoods with characteristic square shape that goes well with technological hoods, as well as offering sturdiness. This shape allows the container to hold fumes before making them flow to the filters. The range consists of hoods with 8 different lengths (1200, 1600, 2000, 2400, 2800, 3200, 3600 and 4000 mm) and 1400 mm deep.
