

RANGE COMPOSITION

A range of wall-mounted hoods with characteristic square shape that can be paired with technological hoods offering sturdiness. This shape makes it possible for the container to hold fumes before flowing to the filters. The range consists of hoods with 8 different lengths (1200, 1600, 2000, 2400, 2800, 3200, 3600 and 4000 mm) and 1100 mm deep.
