You can listen to the CD through other stereo equipment or record a CD on a cassette tape. Refer to the instruction manual of the other equipment for details. Before making nections, turn off each piece of equipmen

- \bullet When you use a connecting cord, the SOUND
- function will be disabled.
- Before you play the CD, turn down the volume of the connected equipment so as not to damage the connected speakers.
- The beep sound is not output from the LINE OUT jack.
- When you connect other equipment to the LINE OUT jack of this player, adjust the

Playing a CD in a car

You can use your player in a car as illustrated

To connect your player to a car cassette deck, vou need the following accessories: · Car connecting pack

- Car battery cord
- Mount kit CPM-300PC (Mount plate + Car connecting pack + Car battery cord) Car battery cord with car connecting pack DCC-E26ČP
- Refer to the instruction manual of each accessory for details.

When you use the CPM-300PC mount kit/CPM-300P mount plate Attach the car mount adaptor supplied to the CPM-300PC/300P before installing the plaver

Notes

- Do not put the player on the dashboard. • Do not leave the player in a car parked under sunlight.
- Use a Sony car connecting pack for reducing
- Use only the car battery cord listed in the recommended accessories. If you use any other car battery cord, smoke, fire or malfunction

Switched ignition function (when using the car battery cord) With this feature, your player stops automatically when you turn off the engine of the car. (This function is not possible with some cars depending on the model.)

Using the earphones with volume control (D-181V only)

Using rechargeable battery

▶Power Sources

Charge the rechargeable battery before using it for the first time.

Use only BP-DM10 or BP-DM20 rechargeable battery for this player. Do not use any other rechargeable batteries.

You can use BP-DM10 and BP-DM20 in the same way, but their charging time and battery life are different. Check the model number of your rechargeable battery before using it.

1 Open the lid of the battery compartment.

2 Insert the rechargeable battery so that the word "SONY" is facing the same direction as illustrated inside the lid, and close the lid.

3 Connect the AC power adaptor. The indication "CHG" lights up. Charge for about 2 hours (for BP-DM10) or 3.5 hours (for BP-DM20). (If the battery has been fully charged,

4 When fully charged, "CHG" disappears. Disconnect the AC power adaptor.

When to charge the battery

When the battery becomes weak. indication appears in the display. If the "Lo $b\partial tt$ " appears in the display, charge the rechargeable battery, because the battery is used up.

To keep the original battery capacity for a long time, recharge the battery when the battery is used up (discharged)

- Charging time varies depending on how the rechargeable battery is used.
- If the battery is new or has not been used for a long time, it may not be charged completely
- until you charge and discharge it several times.

 If the battery life becomes shorter by about half, replace it with Sony BP-DM10 or BP-DM20 rechargeable battery. Do not use any other rechargeable battery (R6 type rechargeable battery, etc.).

Using dry batteries

1 Open the lid of the battery compartment.

2 Insert two LR6 (size AA) alkaline batteries by matching the \oplus and \ominus to the diagram inside the battery compartment and close the lid.

• Do not use manganese batteries for this player

To take out the dry batteries Pull the + side of the battery as shown.

When to replace the dry batteries When the battery becomes weak. indication appears in the display. If the "Lo b∂tt" appears in the display, replace all the batteries with new ones, because the batteries

are used up.

- Do not charge the dry batteries.
- Do not mix new batteries with old ones. • Do not use different types of batteries together
- When the batteries are not to be used for a long time, remove them.
- If the battery leakage occurs, wipe off any deposit in the battery compartment, and install

Rattery life (approx hours)(FIA I*)

14
3.5

*Measured value by the standard of EIAJ (Electronic Industries Association of Japan) (When the unit is used on a flat and stable place) **Charging time varies depending on how the rechargeable battery is used.

How to attach the battery compartment lid

If the battery compartment lid is detached by an accidental drop, excessive force, etc., attach it as illustrated in the numbered order

► Additional Information

Precautions

On safety

Should any solid objects or liquid fall into the unit, unplug it and have it checked by qualified

- On power sources When you are not using the player for a long time, disconnect all power sources from the
- The nameplate indicating operating voltage, umption, etc. is located at the bottom of the AC power adaptor (for EA3 only.)

On the AC power adaptor

 Use only the supplied AC power adaptor. If your player is not supplied with it, use AC-E45HG AC power adaptor. Do not use any other AC power adaptor.

• To unplug the AC power adaptor from the wall outlet, grasp the adaptor itself, do not pull its

On dry and rechargeable batteries · Do not throw the batteries into fire.

 Do not carry the rechargeable battery with coin or other metallic objects. It can generate heat if the positive and negative terminals of the battery are accidentally contacted by a metallic

On the player

- Keep the lens of the player clean and do not touch it. If you do so, the lens may be damaged and the player will not operate properly.

 • Do not put any heavy object on top of the
- player. The unit and the CD may be damaged Do not leave the player in a location near heat sources, or in a place subject to direct sunlight excessive dust or sand, moisture, rain, mechanical shock, unleveled surface, or in a car
- with its windows closed. If the player causes interference to radio or television reception, turn off the player or move it away from the radio or television.
- Do not wrap the player in a cloth or blanket during use as it may cause malfunction or serious accidents.

On headphones/earphones

Road safety
Do not use headphones/earphones while driving, cycling, or operating any motorized vehicle. It may create a traffic hazard and is illegal in some areas. It can also be potentially dangerous to play your headsets at high volume while walking, especially at pedestrian crossings You should exercise extreme caution or discontinue use in potentially hazardous

Preventing hearing damage

Avoid using headphones/earphones at high volume. Hearing experts advise against continuous, loud and extended play. If you experience a ringing in your ears, reduce volume

Keep $\bar{\text{the}}$ volume at a moderate level. This will allow you to hear outside sounds and to be considerate to the people around you.

Maintenance

To clean the lens

Clean the lens with a lens cleaning kit KK-DM1.

To clean the casing

Use a soft cloth slightly moistened in water or a mild detergent solution. Do not use alcohol, benzine or thinner.

Troubleshooting

Should any problem persist after you have made these checks, consult your nearest Sony dealer.

The CD does not play or "no dl 50" appears in the display though a CD is placed in the unit.

- → The CD is dirty or defective
- → Insert the CD with the label side up Moisture condensation has occurred.
 Leave the unit aside for several hours until
- → The lens is dirty.
- → Close the lid of the unit and the battery compartment firmly.

 → Make sure the batteries are inserted
- correctly.
- → Connect the AC power adaptor to a wall outlet securely.

When you press ►II, "00" appears in the display for a moment, and disappears. The CD does not play.

→ Rechargeable battery or dry batteries are used up. Charge the rechargeable battery or replace dry batteries with new ones

No sound, or noise is heard.

- → Connect the plugs firmly.
 → Plugs are dirty. Clean the plugs with a dry soft cloth periodically

"HI dc In" appears in the display. → Use only the supplied AC power adaptor or recommended AC power adaptor AC-

E45HG (not supplied) "Ho! d" appears in the display when

you press a button. → The buttons are locked. Slide HOLD back.

"Lo batt" appears in the display

when you press a button.

→ The rechargeable battery is used up completely. Connect the AC power adaptor and charge the battery. → The dry batteries are used up. Replace

them with new ones.

- The battery life is short. → Manganese batteries are used. Use alkaline
- → Replace the batteries with new ones.

The volume is limited to a certain level even if you attempt to turn it

→ AVLS selector is set to LIMIT. Set it to NORM.
