BRH440M and BRH441M Broadcast Headsets

The BRH441M Broadcast Headset and the BRH440M Broadcast Stereo Headset are developed especially for use in broadcast and media production. Circumaural ear cups block out background noise, and the dynamic, cardioid microphone delivers natural, highly intelligible vocal reproduction. Wearable on the left or right side, the flexible boom features a flip-up mute function that deactivates the microphone when raised vertically. A detachable cable with unterminated ends enables connection to a variety of devices, and is easily replaceable for a lifetime of use. The BRH440M features stereo monitoring, while the BRH441M leaves one ear open to the surrounding environment.

- Closed-back, circumaural design provides excellent isolation from background noise
- Dynamic microphone delivers natural, highly intelligible vocal reproduction with cardioid polar pattern and frequency response optimized for communication in loud environments
- Ergonomic, lightweight design with adjustable, padded headband for long wearing comfort
- Flexible boom microphone pivots 250 degrees for left or right side wear
- Flip-up mute function deactivates the microphone when boom is raised vertically
- Single-side, detachable cable with unterminated ends (stripped and tinned) enables connection to a variety of devices
- User-replaceable cable, earpads, and windscreen for a long product life
- Legendary Shure durability to withstand the rigors of professional use

Care and Maintenance

Clean using a soft, damp cloth.

CAUTION: Do not use cleansers that contain solvents. Keep liquid and foreign objects out of the driver openings.

Detachable Cable

Attach the cable by aligning the arrows and pressing firmly into place until locked.

Pull on the knurled collar to disengage lock and remove cable.

Wearing the Headset

Adjust the headband for a comfortable fit.

Position the boom so the microphone is within 13 mm (1/2 inch) of the right corner of your mouth. To avoid "popping" or other breath noise, do not place directly in front of mouth.

The boom swivel allows the headset to be worn with the microphone on the left or the right side.

Flip-Up Mute Function

Swivel the boom vertically to the indented position at the headband to mute the microphone.

Las baterías recargables contenidas en este producto o empaçadas con el mismo se encuentran igualmente garantizadas por un período de un (1) año contado a partir de la fecha de compra original. Sin embargo, las baterías recargables son artículos consumibles y su capacidad se reducirá con el tiempo dependiendo de la temperatura, el tiempo de almacenamiento, los ciclos de carga y otros factores; por lo que la reducción en la capacidad de la batería no constituye un defecto de materiales ni de fabricación.

Esta garantía le otorga derechos legales específicos; se puede contar con otros derechos adicionales que varían entre un estado y otro.

Esta garantía no restringe los derechos del consumidor que se estipulen bajo leyes aplicables.
