

MODEL H8027 Heavy-Duty Bar Clamp Heads INSTRUCTION SHEET

To assemble:

1. Select a dry, straight wooden board of the dimensions shown in **Figure 1**.
2. Drill as many $\frac{7}{16}$ in. holes as desired along the length of the board, at least 3 in. apart and $\frac{3}{4}$ in. on center from the top of the board (see **Figure 2**).

Note: Make sure holes are at least 3 in. from the ends of the board so that the board will not split when stressed.

3. Using the hex bolts and nuts provided, mount the two bar clamp heads (see **Figure 3**).

If you need help with your new bar clamp heads, call our Tech Support at: (570) 546-9663.
