

Dimensions in mm

T25L E14

Burning position

Gas-filled lamps with clear bulb specially designed for use in cooker hoods where they can replace the non-dedicated candle lamps used previously in this application. They can fit better in the area where the lamps are situated and feature an extra support to be more resistant to the vibrations created by the small motor extracting the air above the ovens. They offer reliability and long trouble-free life.

Applications
- Cooker hoods

| Commercial name | Type | Wattage | Voltage | Cap/ base | Finish | Lumen output | Lamp life 100% h | EOC |
|-----------------|------|---------|---------|-----------|--------|--------------|------------------|--------|
