### In-Ground Basketball System Owners Manual

## f A SAFETY INSTRUCTIONS f A

FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS MAY RESULT IN SERIOUS INJURY, PROPERTY DAMAGE AND WILL VOID WARRANTY.

Owner must ensure that all players know and follow these rules for safe operation of the system.

To ensure safety, do not attempt to assemble this system without following the instructions carefully. Proper and complete assembly, use and supervision is essential for proper operation and to reduce the risk of accident or injury. A high probability of serious injury exists if this system is not installed, maintained, and operated properly. Check entire box and inside all packing material for parts and/or additional instructional material. Before beginning assembly, read the instructions and identify parts using the hardware identifier and parts list in this document.

- If using a ladder during assembly, use extreme caution.
- Two (2) people are reccomended for this operation.
- Seat the pole sections properly. Failure to do so could allow the pole sections to separate during play.
- Before digging, contact utility company to locate underground power cables, gas, and water lines. Ensure there are no overhead power lines within 20 ft. (7 m) radius of pole location.
- Climate, corrosion, excessive use, or misuse could result in system failure.
- If technical assistance is required, contact Huffy Sports.
- Minimum operational height is 6'6" (1.98 m) to the bottom of backboard.
- This equipment is intended for home recreational use only and NOT excessive competitive play.
- Read and understand the warning label affixed to pole. Label is shown on page 2.
- The life of your basketball pole depends on many conditions. The climate, placement of the pole, the location of the pole, exposure to corrosives such as pesticides, herbicides or salts are all important.
- Adult supervision is recommended when adjusting height.
- Serious injury could occur if teeth/face come in contact with backboard, net, or rim.

Most injuries are caused by misuse and/or not following instructions. Use caution when using this system.

For more information on assembly, placement, proper use and maintenance, visit The American Basketball Council website at http://www.smarthoops.com.

#### **IMPORTANT!** Have any questions?...Don't go back to the store!

We appreciate your purchasing one of our many fine products. We are sure that you will be very satisfied with your selection. Although great care and effort have been taken, occasionally problems may occur. To ensure prompt and correct handling of any problems, or to answer any questions, please contact our Toll-Free Customer Service Number listed below. Service will be quicker if you have your Model Number (found on carton) and assembly instructions ready when calling. PLEASE WRITE YOUR MODEL NUMBER IN THE SPACE PROVIDED ABOVE.

#### Toll-Free Customer Service Number for U.S: **1-800-558-5234** Internet Address: http://www.hydra-rib.com

- Wrenches: (Two) 1/2, 9/16, 3/4 (One) 3/8
- Marker
- Vice

#### IMPORTANT! WRITE MODEL NUMBER FROM BOX ONTO PAGE 1 OF THIS OWNERS MANUAL

Fill hole with concrete. Tamp down concrete to release air pockets and build drainage hill.

Insert J-bolts (1) from mounting plate (3) into cement as shown. Move assembly around to release any air pockets in cement, then rest mounting plate on cement drainage hill. Apply some pressure to level mounting plate on top of drainage hill. Level mounting plate and square with playing surface. Clean off any excess cement on mounting plate at this time.

**NOTE:** Check leveling of mounting plate (3) several times while concrete is curing.

#### **IMPORTANT!**

Front of mounting plate (3) must be parallel with playing surface.

## 

DO NOT PROCEED TO STEP 6 UNTIL CONCRETE HAS CURED FOR A MINIMUM OF 72 HOURS. ALLOW ADDITIONAL TIME FOR COLD, WET OR HUMID WEATHER.

5.

While H-frame (13) is in the lowest position, hang backboard onto H-frame (13). **NOTE: Backboard frame will rest on top of H-frame.** Secure backboard with hardware as shown. **\*ONLY** Fingertighten bolts (22) with nuts (23). Repeat procedure for opposite side.

16.
