

Portable Basketball System Owners Manual

⚠ SAFETY INSTRUCTIONS ⚠

**FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS MAY
RESULT IN SERIOUS INJURY,
PROPERTY DAMAGE AND WILL VOID WARRANTY.**

***Owner must ensure that all players know and follow these
rules for safe operation of the system.***

To ensure safety, do not attempt to assemble this system without following the instructions carefully. Check entire box and inside all packing material for parts and/or additional instruction material. Before beginning assembly, read the instructions and identify parts using the hardware identifier and parts list in this document. Proper and complete assembly, use and supervision are essential for proper operation and to reduce the risk of accident or injury. A high probability of serious injury exists if this system is not installed, maintained, and operated properly.

- This equipment is intended for home recreational use only and NOT excessive competitive play.
- DO NOT position system near trampolines, diving boards, slides, or any play area equipment. System misuse could cause serious bodily injury.
- Two pole assembly is for in-ground pool side use only.
- Read and understand the warning label affixed to pole.
- The life of your basketball pole depends on many conditions. The climate, placement of the pole, the location of the pole, exposure to corrosives such as chlorine, pesticides, herbicides or salts are all important.
- During assembly, if using a ladder use extreme caution. Two people are recommended for this operation.
- Seat the pole sections properly. Failure to do so could allow the pole sections to separate during play and/or transport of the system.
- Climate, corrosion and excessive use or misuse could result in pole failure.
- Check tank regularly for leakage. Slow leaks could cause system to tip over unexpectedly.
- If technical assistance is required, contact Huff Company Customer Service Center.
- Adult supervision is recommended when adjusting system.

*Most injuries are caused by misuse and/or not following instructions.
Use caution when using this system.*
