

TOSHIBA

20AF46

20" (measured diagonally) Color TV

KEY FEATURES

VIDEO

- 20" Diagonal FST PURE® Picture Tube
- 2-Line Digital Comb Filter

AUDIO

- Double Baffle Speaker System
- StableSound®
- Surround Sound
- BBE® Sound

CONVENIENCE

- Glow TV Remote
- On/Off Timer
- GameTimer™
- Front Panel A/V inputs
- Headphone Jack

ADVANTAGE TOSHIBA

FST PURE® Picture Tube minimizes room reflections and improves picture linearity, sharpness and brightness.

Colorstream® Component Video Input provides improved picture quality from interlaced component signals.

Surround Sound and Double Baffle Speaker System combine to give full realistic stereo sound from a compact cabinet.

Glow TV remote has keys that improve ease of operation at night.

Front A/V Input provides versatility and convenience for the consumer who wants to easily connect a video game or camcorder.

GameTimer™ allows the television to shut off after a specified period of time for easy parental control of playing time.

TECHNOLOGY & BENEFITS

VIDEO

FST PURE® Picture Tube - This is the ultimate in Toshiba Color Television Tube Technology. This "purely flat" tube delivers increased viewing angle along with the enhanced picture linearity necessary to produce accurate lifelike images. This feature eliminates unwanted reflections from room lighting, which is a common problem in conventional tube designs. It also improves sharpness and brightness.

Digital Comb Filter - Chrominance and Luminance signals are converted to a digital medium prior to separation and 2H delay. This process provides enhanced color purity and reduced dot crawl. Vertical and diagonal correction performed in a digital medium provides highly accurate Chrominance and Luminance signal separation. An advanced comb filter is able to eliminate detail noise in intricate scenes as well as reduce dot crawl and color bleed from broadcast sources.

AUDIO

Surround Sound - Allows the consumer to enjoy an enhanced home theater experience without connection of external speakers. This makes the viewer feel more like they are part of the on-screen action.

StableSound® - Reduces unwanted volume fluctuations (eg. during commercials) by keeping volume within set levels, for easier listening.

CONVENIENCE

ColorStream® Component Video Input - For connections with many of today's latest equipment.

Front Panel A/V Inputs - For added convenience, temporary front A/V connections (including S-VHS) allow easy hook up for video games, camcorders, etc.

Glow TV Remote - has keys that improve ease of operation at night.

SPECIFICATIONS

	CRT Type	FST PURE®
VIDEO	Digital Comb Filter	2-Line
	16:9 Mode with Vertical Compression	X
