imaginext SYSTEM™

Fisher-Price®

www.fisher-price.com

Welcome to the Imaginext™ System

The Imaginext™ system lets your child's imagination come alive. With Quick-Snap panels™, kids can build different structures in lots of different ways. Use some of the parts or all of them!

Preschool children will enjoy using all parts of this toy to build structures of their own creation. At first they will need parental assistance to build the structure on the front cover. It may be easier to use our step-by-step instructions and give your preschooler only the parts that will be assembled in each step. The more your child plays with this toy, and development and skill increases, the less assistance your child will need!

◀ *For first time use, we recommend building the assembly shown inside these instructions.*

This assembly is recommended for active play.

Try these other assemblies!

Battery Installation

- Locate the battery compartment door on the power box.
- Loosen the screw in the battery compartment door with a Phillips screwdriver. Remove the battery compartment door.
- Insert three, "AA" (LR6) **alkaline** batteries, as indicated inside the battery compartment.

Hint: We recommend using **alkaline** batteries for longer battery life.

- Replace the battery compartment door and tighten the screw with a Phillips screwdriver. Do not over-tighten.
- When using the power box and movement slows or stops, it's time for an adult to change the batteries!

Battery Safety Information

Batteries may leak fluids that can cause a chemical burn injury or ruin your toy. To avoid battery leakage:

- Do not mix old and new batteries or batteries of different types: alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium).
- Insert batteries as indicated inside the battery compartment.
- Remove batteries during long periods of non-use. Always remove exhausted batteries from the toy. Dispose of batteries safely. Do not dispose of batteries in a fire. The batteries may explode or leak.
- Never short circuit the battery terminals.
- Use only batteries of the same or equivalent type, as recommended.
- Do not charge non-rechargeable batteries.
- Remove rechargeable batteries from the toy before charging.
- If removable, rechargeable batteries are used, they are only to be charged under adult supervision.

Let's Build It!

1.

Proper label application will help to keep the labels looking their best! When applying labels, keep the following guidelines in mind:

- Wash your hands before applying the labels.
- Before applying the labels, wipe the surfaces of this toy with a clean, dry cloth to remove any dust or oils.
- Place the labels exactly as shown in the illustrations.
- For best results, avoid repositioning a label once it has been applied.

Imagine... So Many Ways To Build

Each sold separately and subject to availability.

Building System Tips

Here are a few basic tips of the Imaginext System!

Posts Up

Posts on walls should always face up.

Locate Snaps

Note the locations of the snaps on platforms.

Platform

Walls Before Platforms

Assemble walls before attaching to a platform.

Build Up

Build the bottom layer first, then build additional layers. Use a platform between each layer of your design.

Spacer

Spacers Between Assemblies

Use a spacer to connect assemblies when needed.

 **WARNING**

Warning – Choking Hazard. Not recommended for children under 3 years because it contains small parts that can be swallowed.

**Please keep this instruction sheet for future reference, as it contains important information.
For children 4-10 years.**

Care

Wipe the toy with a clean cloth dampened with a mild soap and water solution.
Do not immerse the toy.
