

Philips AVENT ISIS
Manual breast pump

Out and about set

SCF290/13

Express more. Quickly.

Enhanced efficiency from a manual breast pump

A manual breast pump offers you total control of the suction level and pumping rhythm. The unique Philips AVENT Manual Breast Pump assures you enhanced efficiency, being clinically proven to express more milk than a hospital electric pump.

Clinically proven effective*

- Patented Let-down Massage Cushion

Flexible and portable

- Easy to assemble and use

Stimulate and Express

- Gentle vacuum mimics baby's suckling for steady milk flow
- Soft massage cushions trigger natural let-down, like baby.

Product highlights

With insulated travel bag and cool packs

Everything you need to maintain your milk supply and to express and store your breast milk when away from your baby.

Gentle-draw vacuum

The gentle-draw vacuum mimics baby's suckling to create a steady milk flow that requires less pumping.

Patented Let-down Massage Cushion

Five, soft petal massagers gently flex in and out as you pump and work with the vacuum to imitate your baby's suckling.

Soft massage cushions

Patented massage cushions flex in and out, replicating baby's suckling action and stimulating a fast, natural let-down.
