

MNS600 Mattress

Yes, you can.®

- *Portable, lightweight mattress replacement system*
- *Available in standard, narrow and bariatric sizes*

Yes, you can.®

The Invacare® MNS600 is a full-depth (8-inches) lateral turning mattress replacement system which reduces interface pressure for the treatment of Stage I through Stage IV pressure ulcers. The MNS600 has a robust, lightweight, and easy-to-transport power unit that inflates the mattress in less than 5 minutes. Caregiver-friendly controls and several valuable user functions — including Auto-Firm, CPR deflate and simplified patient weight settings — further enhance the advanced therapeutic performance of the MNS600.

Rev. 10/05

Features

- Adjustable modes for pressure relief and rotation therapy at 15, 25, 30 and 45 degrees
- Variable rotation times of 20, 30 and 60 minutes
- Static mode, left turn, right turn, combination turns
- Portable, lightweight mattress replacement system fits most standard medical beds
- Waterproof, anti-microbial Ventex Recovery 5 therapy cover reduces friction and shear
- Durable ballistic nylon bottom protects the mattress cell from any abrasive surface
- Built-in transport mat for patient transport or power outages
- Auto-Firm control fully inflates mattress for easy patient transfer

User-Friendly Controls

- Quad connector rapid attach and CPR deflate at the power unit
- Low pressure and power failure alarm
- Alarm Silence key
- Soft-touch, easy-wipe, sealed key pad
