## SAFETY INSTRUCTIONS

DO NOT USE THE GOGO KIDZ UNTIL YOU READ AND UNDERSTAND THESE INSTRUCTIONS. Your child's safety depends on you reading and following these instructions.

**NEVER LEAVE CHILD UNATTENDED.**

**AVOID SERIOUS INJURY FROM FALLING OR SLIDING OUT. ALWAYS USE CAR SEAT RESTRAINT SYSTEM.**

By far, the most common injury reported for carriages and strollers resulted when a child fell or climbed out of a stroller because the restraint system was not being used. Please observe this safety warning at all times and be sure to follow the manufacturer's instructions on how to properly secure your child in their car seat.

**DO NOT EXCEED WEIGHT AND SIZE LIMITATIONS OF MANUFACTURER.**

This product is to be used as an add-on to your toddler car seat. The warnings and instructions are in addition to the safety manual provided by your car seat manufacturer.

**TO AVOID INJURY, KEEP CHILD AWAY FROM TELESCOPING HANDLE AND KNOBS.**

The telescoping handle is controlled by pushing the button on the top of the handle and manually pulling up on the handle or retracting the handle. The motion could injure a child by pinching or lacerating their fingers if they got caught near the handle extensions. The knobs are designed to be easily removed. Do not allow a child to turn or twist the knobs. A child removing the knobs may cause injury if the unit is accidentally removed and falls on child or the child attempts to swallow the knobs. IT IS NOT A TOY! Please keep child away from the handle and knobs.

**THIS IS NOT AN EXERCISE STROLLER!**

Do not use this product while running, jogging, in-line skating or participating in other athletic activities.

## SPECIAL INSTRUCTIONS FOR TRANSPORTING YOUR CHILD IN THE GOGO KIDZ™ TRAVELMATE

The gogo Kidz needs no special instructions when transporting the Britax® seat from place to place. However, when transporting a child over 35 lbs., strapped in the seat, follow these instructions:

**Step 1.** Attach the gogo Kidz to the Britax car seat by following the assembly instructions. After the gogo Kidz is attached to the Britax seat, and the handle is in the collapsed position, pull 10 inches of the “versa-tether” strap from the pouch that is located on the rear of the seat near the top.

### TETHER POUCH

**Step 2.** Pull the strap over the handle and tighten the “versa-tether” by pulling on the end of the tether strap. Place excess strap back into the pouch. Tuck in all remaining latch and tether straps in order not to get tangled when in use.

**Step 3.** Always secure your child with the safety harness provided by the car seat manufacturer.
