SAVE THIS MANUAL

Keep this manual for the safety warnings and precautions, assembly, operating, inspection, maintenance and cleaning procedures. Write the product's serial number in the back of the manual near the assembly diagram (or month and year of purchase if product has no number). Keep this manual and the receipt in a safe and dry place for future reference.

Safety Symbols

In this manual, on the labeling, and all other information provided with this product:

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

⚠ DANGER

DANGER indicates a hazardous situation which, if not avoided, will result in death or serious injury.

⚠ WARNING

WARNING indicates a hazardous situation which, if not avoided, could result in death or serious injury.

⚠ CAUTION

CAUTION, used with the safety alert symbol, indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.

NOTICE

NOTICE is used to address practices not related to personal injury.

CAUTION

CAUTION, without the safety alert symbol, is used to address practices not related to personal injury.

IMPORTANT SAFEGUARDS

⚠ CAUTION

READ THESE INSTRUCTIONS

⚠ WARNING

1. To reduce the risk of fire or electric shock, do not use this Dryer with any solid-state speed control device.
2. This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not change the plug in any way. Do not attempt to defeat this safety feature.
3. Do not leave Dryer running while unattended.
4. Always connect to a GFCI protected outlet.
5. Read all Instructions.

6. Use appliance only for its intended use, Household use only. Do not use outdoors.
7. To reduce the risk of electric shock, do not immerse the appliance in water or other liquids.
8. Never yank cord to disconnect from outlet; instead, grasp plug and pull to disconnect. Do not use cord as a handle or pull cord around sharp edges or corners. Keep cord away from heated surface. Loop cord loosely around appliance when storing.
9. Always disconnect from electrical outlet when not in use.
10. Do not operate with a damaged cord, or if the appliance has been dropped or damaged. To reduce the risk of electric shock, do not disassemble or attempt to repair the appliance, take it to a qualified service person for examination and repair. Incorrect re-assembly or repair could cause a risk of fire, electric shock, or injury to persons when the appliance is used. Use only manufacturer's recommended accessories.
11. Do not put any object into openings.
12. This appliance is not for space heating purposes.
13. DO NOT IMMERSE IN WATER. NE PAS IMMERGER.
14. Maintain labels and nameplates on the tool. If unreadable or missing, contact Harbor Freight Tools for a replacement.
15. Do not run Power Cord under carpeting. Do not cover cord with throw rugs, runners or similar coverings. Arrange cord away from traffic area and where it will not be tripped over.
16. Use only in dry environments. Do not use in bathrooms, laundry area, near sinks or other sources of water.
17. This product is not a toy. Keep it out of reach of children.
18. WARNING: Handling cord on this product will expose you to lead, a chemical known to the State of California to cause cancer, and birth defects or other reproductive harm. Wash hands after handling. (California Health & Safety Code § 25249.5, *et seq.*)
19. The warnings, precautions, and instructions discussed in this instruction manual cannot cover all conditions and situations that may occur. It must be understood by operator that common sense and caution are factors which cannot be built into this product, but must be supplied by operator.

**SAVE THESE
INSTRUCTIONS.**

SET UP & OPERATION

Read the **ENTIRE RULES FOR SAFE OPERATION** section at the beginning of this manual including all text under subheadings therein before set up or use of this product.

⚠ WARNING

TO PREVENT SERIOUS INJURY

FROM ACCIDENTAL OPERATION OR ELECTRIC SHOCK:

Before assembly, cleaning or adjustment, make sure the cord is unplugged, and the unit has cooled.

Note: For additional information regarding parts listed, refer to Assembly Diagram at back of manual.

This dryer is for drying socks, gloves and mittens as well as footwear and boots.

Set Up

For smaller items, place the item directly over the Wind Tube (17). Pull the wrist area of gloves up over the gloves to prevent them from restricting airflow.

For tall items, such as boots, set up the two Long Tubes (2) as follows:

- a. Slide the Short Tube (1) inside the large end of the Long Tube (2).
- b. Fit the Toe Support (3) onto the remaining end of the Long Tube, sliding the Tube edge into the slot on the Toe Support.
- c. To Safely balance the unit, slide the Tube assemblies over diagonally opposite Wind Tubes (17). The Short Tube holes are off center, so check to make sure that the thinner side of the tube is closest to the center of the unit so you will have plenty of room to slide the boot in place.
- d. Slide the boot over the Tube assemblies, making sure that the entire unit is balanced so it will not tip over during use.

Operation

1. Place the dryer on a flat, level surface. Set the control knob to the off position.
2. Plug the unit into a 120V outlet.
3. Select Heat or No Heat with the Heat Switch (14).
4. Set the Control Knob (13) to the desired drying time. To set the time to less than one hour, turn the Knob past the one hour mark, then return it to the desired time.

5. When the items are dry, remove them, unplug the unit and store in a dry location away from children.

Note: Drying time will vary depending on temperature and humidity.

Smaller items will dry faster than larger items.

Footwear should be dried after every use to prevent bacteria or fungus growth.

INSPECTION AND MAINTENANCE

⚠️ WARNING TO PREVENT
SERIOUS INJURY

FROM ACCIDENTAL
OPERATION OR ELECTRIC
SHOCK:

Before appliance inspection or
maintenance, make sure the
cord is unplugged, and the unit
has cooled completely.

TO PREVENT SERIOUS INJURY
FROM APPLIANCE FAILURE:

Do not use damaged
appliances. If abnormal noise
or vibration occurs, have the
problem corrected before
further use.

1. **BEFORE EACH USE**, inspect
condition of the dryer. Check for loose
screws, cracked or broken parts, and
any other condition that may affect its
safe operation.
2. Clean regularly to prevent dust from
accumulating on surfaces. Use a
damp cloth to clean, then dry before
use.
3. **⚠️ WARNING!** If the supply cord
of this tool is damaged, it must
be replaced only by a qualified
service technician.
