

ELECTRIC DRYERS

DLEC733 24 inch Compact Electric Condensing Dryer

Performance

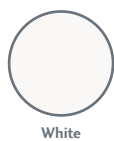

- 4.10 cu.ft. Capacity with NeveRust™ Stainless Steel Drum
- Sensor Dry System for Intelligent Fabric Care and Energy Efficiency
- 15 Drying Programs
- 7 Options
- Precise Temperature Control with Variable Heat Source
- Wrinkle Care Option
- Favorite Cycle

Style and Design

- Intelligent Electronic Controls with Jog Dial
- Stackable with Matching Washer (WM1333H)

Technology Benefits

- LoDecibel™ Quiet Operation

White

ELECTRIC DRYERS

LoDecibel™ Quiet System

LG dryers are some of the quietest in the same category. The inverter motor reduces unnecessary noises.

Electronic Control Panel

Intuitive controls allow you to “set it and go”. You can also save your favorite dry cycle by pressing Custom Program.

Sensor Dry System

Measures moisture during the cycle, and automatically adjusts the drying time and temperature for optimal fabric care.

Wrinkle Care

The drum is occasionally tumbled clockwise and counter-clockwise during each cycle to reduce tangling. When the Wrinkle Care option is selected, dry clothes are periodically tumbled without heat for 2 hours to reduce bunching and wrinkling.

Drain Hose

An optional drain hose is included so the water from the dryer can be drained directly into the sink.

Side by Side or Stacked Configurations

*Shown with matching washer.
