

Sunpak FlexPod Plus the Flexible Tripod

Highlights

The FlexPod Plus' unique aluminum core legs are designed† to securely wrap around just about any suitable support to give your photos a fresh perspective. Its specially designed non-slip thermoplastic elastomer legs grip tightly and will not slip when properly wrapped around most smooth, dry surfaces. To get the perfect shot, the FlexPod Plus incorporates a true ballhead to get the best shot anytime and anywhere. Or use the FlexPod Plus as a tabletop tripod too! At under 4 ounces, it's the perfect compact digital camera companion.

†Patent pending
