Motorola Dependability...

Motorola Original[®] Accessories let you make the most of your Motorola radio's capabilities.

You likely chose your Motorola portable or mobile radio for its ease of use and exceptional reliability — certainly a sound business decision. Choosing Motorola Original[®] accessories for your radio is also the right call to make.

For starters, every Motorola Original[®] accessory is performance-matched for Motorola radios — designed, built and rigorously tested to the same quality standards. So you can be sure that every product in this catalog will perfectly complement your radio's performance.

What's more, insisting on Motorola Original[®] accessories can help increase your productivity. That's because you can count on every accessory to do its job time after time. If you take a chance on a mismatched battery, a flimsy headset or an ill-fitting carry case, your radio may not perform at the moment you have to use it.

We're pleased to bring you this collection of proven Motorola Original[®] accessories for your important business communication needs. You'll find remote speaker microphones for more convenient control. Carry cases for ease when on the move. Earpieces to ensure privacy. Headsets for hands-free operation. High-capacity batteries to extend work time, and more. They're all ready to help you work smarter, harder, with greater confidence.

Police

Whether in hot pursuit or investigating a cold case, communication can be made much easier with an Ear Microphone System with PTT and VOX Interface Module.

Fire

It takes two hands for climbing ladders and controlling hoses, and solutions like our Chest Pack provide both welcome freedom and valued protection in the heat of the action.

Emergency Response

First responders deserve first-class tools for communicating their position and conditions, and our Lightweight Headsets help everyone quickly and clearly get the message.

Security

From crowd control to answering an alarm signaling illegal entry, a Remote Speaker Microphone lets professionals respond instantly without the need to reach for radio controls.

"Come in Unit

*programmable,
with encryption capabilities...*

MT 2000™/MTS 2000™ radios combine convenient features and full alphanumeric displays into a small, rugged package. Programmable function controls and radio-to-radio cloning provide enhanced user flexibility. And you can add even more features through FLASHport™ software upgrades as your communications needs change.

for tough conditions...

Remote Speaker Microphones (RSM)

These compact Remote Speaker Microphones are water-resistant and allow talking and listening without removing the radio from the belt or case. They have a 6-foot coiled cord assembly, 3.5mm earjack, swivel clip and quick disconnect latch.

- NMN6193C* Remote Speaker Microphone
- NMN6191C* Noise-Cancelling Remote Speaker Microphone
- 0104010J46 Replacement Coil Cord Assembly for Remote Speaker Microphone

Remote Speaker Microphone with Emergency Button

The orange button on the microphone head can be used to signal that the operator needs help. This microphone offers high/low volume control and has a 3.5mm earjack on the microphone head. Emergency activation from the RSM is delayed until programmed Mandown Pre-alert and Post-alert delays elapse. Depending on radio model, factory defaults or previous programming could set the delay times for as long as 8 to 120 seconds.

Public Safety Microphones (PSM)

Public Safety Speaker Microphones include straight cord assembly, 3.5mm earjack, swivel clip, quick disconnect latch, antenna connector and receive audio high/low toggle switch. Use with radio's antenna, sold separately. RF adapter is included.

- NMN6228C* Noise-cancelling Public Safety Microphone with 30 Inch Straight Cord
- NMN6244B* Noise-cancelling Public Safety Microphone with 24 Inch Straight Cord
- NMN6243B* Noise-cancelling Public Safety Microphone with 18 inch Straight Cord

Mandown, Public Safety Tilt Switch

The Mandown, Public Safety Tilt Switch functions as an external emergency switch that is activated when the radio unit is tilted at an angle greater than 60 degrees. No other audio accessory can be attached to the radio while the tilt switch is attached. Radio must be programmed to enable the emergency tilt feature.

- NTN7660C* Mandown, Public Safety Tilt Switch

Epaulet Straps

Black leather Epaulet Strap secures Remote Speaker Microphone to epaulet on shirt or jacket and accommodates back clip in leather cut-outs. Snap closure secures cord to allow reliable communications in hostile environments.

Completely
Discreet
Earpiece.

The Completely Discreet Earpiece is easy to use, just remove the earpiece from any standard 2 or 3-Wire Surveillance Kit and plug in the neckloop, which is easily hidden under clothing. Security personnel will be able to wear this tiny receiver comfortably for hours at a time!

Completely Discreet Wireless Earpiece Kit

Enables users to communicate with ease, in full privacy, without visible equipment. This miniaturized receiver is discreetly hidden in the ear, where it can be worn comfortably for long periods of time. Small as it is, it offers a full range of audio functions including automatic squelch, automatic gain control and noise filtering. Average battery life is approximately 100 hours and includes an end-of-life warning signal when the battery needs to be changed. Kit includes wireless receiver, inductive neckloop, 6 spare batteries and 5 spare earguards. For use with any standard 2 or 3-Wire Motorola Surveillance Kit.

- RLN4922A Completely Discreet Earpiece Kit
- RLN4919A Replacement Earguards. 5 per pack.
- RNN4005A Replacement 1.4 Volt Batteries. 6 per pack.

Ear Microphone Systems (EMS)

This compact, lightweight unit picks up sound through bone vibrations in the ear canal. The miniature earpiece leaves the hands-free and face unobscured, good for rescue and emergency personnel that must retain the ability to help, hear and speak directly to others...those not on the communication system. EMS may be worn with protective masks without reduction in clarity of sound. It's ideal for high-noise environments. Available in PTT or Voice-Activated (VOX). Interface Module is required and sold separately.

- BDN6677A* EMS with PTT Interface. Black. For standard noise levels (up to 95dB).
- BDN6678A* EMS with PTT Interface. Beige. For standard noise levels (up to 95dB).

The Temple Transducer RMN4049A allows users to receive audio without covering the ear.

RMN4049A

Temple Transducer

The Temple Transducer represents a significant achievement in headset design and functionality. It allows the user to receive audio without covering the ear. The receiver portion of this accessory rests on the temples and is capable of converting the receive audio from a two-way radio into sound vibration. The sound vibration is transmitted through the surrounding human tissue and bone directly into the inner ear where it is received by the user. It features an In-line PTT and noise-cancelling boom microphone. The Temple Transducer enhances communication and safety by not impairing the user's hearing of the external sound environment, such as machinery and equipment, warning and fire alarms, the intercom, traffic and even casual conversations with co-workers.

RMN4049A* Temple Transducer
0180305J46 Training CD-ROM. For Ear Microphone System and Temple Transducer.

Rugged Temple Transducer

The Rugged Temple Transducer comes equipped with all the features of the basic model. It sports a bigger Push-to-Talk button and a larger noise-cancelling boom microphone. It is fully adjustable for different head sizes, making it comfortable for extended-wear. Over-the-head band allows users to wear helmets, hardhats and other head gear – and it really stays in place! Water-resistant boom microphone is ideal for use in blowing rain and the secure cap on PTT prevents accidental activation in mission critical situations.

carrying accessories

Leather and Nylon Carrying Cases

A variety of carrying accessories are available for comfort and convenience. The carrying cases are available in sizes designed to fit radios with a battery and permit audio to be heard clearly. Motorola carry cases were developed to meet the demands of public safety and other users who operate in the most rigorous of environments.

Leather cases are constructed of top grain, 8 ounce leather and all stainless steel hardware. High-activity cases have a swivel D-ring button and belt loop. To remove case from belt loop, rotate case 180 degrees and slide case upward, out of the holder. Case stays on belt more securely in high-activity applications while allowing the radio to swing freely with body movements.

You'd be surprised how much time can be saved in emergencies when each user's radio is always in the same place — made easy by this versatile case selection of Motorola Original® carry accessories

Motorola Conditioning Charger (MCC)

The MCC features Instant Fault Detection technology that detects faulty batteries in seconds. You'll know right away when a battery won't operate at peak performance - saving you time and trouble. Each unit rapidly charges NiCd and NiMH batteries and optimizes battery performance. It's patented negative pulse charging process minimizes overheating and overcharging, extending useful battery life. Batteries can be left in the charger for extended periods of time, without worry of heat build-up. Optional accessories are available that allow the MCC to be used in both AC and DC environments - that's flexibility.

IMPRES™ Smart Energy Systems

Through the use of its advanced charging algorithm and automatic reconditioning features, the IMPRES Smart Energy System ensures maximum talk-time and optimized battery cycle life. This smart energy system automatically reconditions IMPRES batteries based on actual usage, keeping them in peak condition. Talk-time and cycle life are optimized and the need for manual maintenance programs is eliminated. Its advanced conditioning features allow batteries to be safely left on the charger for extended periods of time without incurring the damaging heat build-up which can decrease battery cycle life. In addition, batteries left in the charger are kept fully charged so they are always ready when needed. This rapid-rate, tri-chemistry charging system will also charge compatible non-IMPRES batteries and supports multiple radio platforms including SABER, XTS and HT 1000 Series portables.

chargers and antennas

Those on the road love the convenience of a Vehicular Travel Charger. And no wonder, it helps assure that your radios are always good to go when you are – and there's no need to hunt for an extra battery when you need to hit the road.

Vehicular Travel Charger

A great traveling companion that ensures constant communication while on the road. Its small compact design allows the radio to be used while rapid charging in the charger base. Unit includes a voltage regulated vehicular charger adapter, custom charger base, mounting bracket and coil cord.

Vehicular Charger

This 12 Volt DC charger is ideal for mobile use. It charges portable radio NiCd batteries in rapid-rate charge mode (less than 3 hours) until full charge is obtained and then switches to trickle charge mode. A micro-processor controls the charge rate. This durable unit comes with a metal mounting bracket and is PAC_RT compatible.

Flexible Whip

Flexible whip antennas have a one-piece finish and steel core for optimal radiation characteristics. They provide more comfort when the radio is worn on a belt.

- 8505241U05 6 Inch Flexible Whip Antenna, 403-520 MHz
- 8505241U03 7 Inch Flexible Whip Antenna, 806-869 MHz
- 8505241U04 7 Inch Flexible Whip Antenna, 764-870 MHz

Helical

Helical antennas are sturdy and dependable for years of failsafe communication. Each antenna is designed and built to quality standards. The skirt at the base of the connector helps to seal out damaging elements. The connector is made of plated brass material for long life.

- 8505644V01 6 Inch Helical Antenna, 136-151 MHz
- 8505644V02 6 Inch Helical Antenna, 151-162 MHz
- 8505644V03 6 Inch Helical Antenna, 162-174 MHz
- 8505644V04 3 Inch Helical Antenna, 403-435 MHz
- 8505644V05 3 Inch Helical Antenna, 435-470 MHz
- 8505644V06 3 Inch Helical Antenna, 470-520 MHz

Dipole

Dipole-molded Antennas are injection molded in lasting polyurethane. The wide skirt at the bottom of the connector protects against damaging environmental elements. The Dipole Antenna is ideal when strong and solid signal clarity is demanded.

- NAF4000B 8 Inch Dipole, 806-869 MHz
- 8505884R02 8 Inch Dipole, 896-941 MHz

Wideband

Wideband antennas are ideal when radios are used in different frequencies since one antenna will cover all ranges.

- 8505518V01 8 Inch Wideband Antenna, 136-174 MHz

Stubby

This quarterwave stubby antenna is ideal when the radio is worn on a belt because the short antenna is non-obtrusive. This is a broad band antenna that can be used for both 800 MHz and 900 MHz applications.

- RAD4194A 3.55 Inch Stubby Antenna, 150-162 MHz
- 8505241U06 4 Inch Stubby Antenna, 806-941 MHz

carrying accessories

You'd be surprised how much time can be saved in emergencies when each user's radio is always in the same place — made easy by this versatile case selection of

Leather and Nylon Carrying Cases

A variety of carrying accessories are available for comfort and convenience. The carrying cases are available in sizes designed to fit radios with a battery and permit audio to be heard clearly. Motorola carry cases were developed to meet the demands of public safety and other users who operate in the most rigorous of environments.

Leather cases are constructed of top grain, 8 ounce leather and all stainless steel hardware. High-activity cases have a swivel D-ring button and belt loop. To remove case from belt loop, rotate case 180 degrees and slide case upward, out of the holder. Case stays on belt more securely in high-activity applications while allowing the radio to swing freely with body movements.

Battery Maintenance System^{PLUS} (BMS^{PLUS})

Increase the useful life of your batteries. Using interchangeable battery adapters (sold separately), the BMS^{PLUS} is capable of charging and discharging, analyzing, conditioning and cycle testing batteries. It supports NiCd, NiMH and Li-ion battery chemistries (Li-ion 6-station units only) and tracks better voltage and capacity (mAh). Its easy-to-use design supports hundreds of two-way, cellular and camcorder batteries. The BMS^{PLUS} offers a 3-year warranty and includes serial printer* port (RS-232).

WPLN4079BR	6-Station BMS ^{PLUS} , 110 Volt AC, 50/60 Hz, US Plug
WPLN4080BR	6-Station BMS ^{PLUS} , 230 Volt AC, 50/60 Hz, Euro Plug
WPLN4081BR	6-Station BMS ^{PLUS} , 230 Volt AC, 50/60 Hz, UK Plug
WPPN4085AR	BMS ^{PLUS} Li-ion Field Upgrade Kit. Upgrades WPLN4079AR, WPLN4080AR, WPLN4081AR.
NDN4005B	Allows units to support Li-ion batteries. 3-Station BMS, 110 Volt AC, 50/60 Hz
NDN4006B	Does not support Li-ion or 3-cell batteries. 3-Station BMS, 230 Volt AC, 50/60 Hz
	Does not support Li-ion or 3-cell batteries.

*Compatible with the STAR Micronics SP200 series printers and other printers with STAR printer emulation. STAR Micronics printers are available through STAR Micronics distributors.

Battery Optimizing System II (BOS II)

No other battery analyzer matches the speed, accuracy, versatility and ease-of-use of the BOS II in providing powerful analyzing capabilities. Users can select from 12 pre-programmed service programs making it quick and easy to get up and running. Because the BOS II is programmable, users can create custom programs to perform a wide variety of tasks specific to individual needs. New enhancements include new navigation keys and an improved, more intuitive menu system. Regular use of the BOS II can optimize battery performance and help extend battery life, helping reduce battery replacement costs.

 RL71883 Standard Adapter

- Quicktest™ diagnostic feature measures a battery's state of health in approximately 2 to 5 minutes
- Supports NiCd, NiMH, Li-ion and SLA batteries
- Increased power-programmable from 100mAh to 4 Amps per station
- Programmable adapters allow customization of maintenance routines
- Proprietary reduction cycle restores NiCd and NiMH batteries
- Printer output for reports and labels with computer interface (Includes both 9-pin serial and 25-pin parallel ports)
- 100-Watt Universal Power Supply (110-240 VAC) provides up to 4 amps of power per station
- Interchangeable adapter plates accommodate nearly all Motorola two-way batteries and other major brands batteries

Antenna Characteristics

Heliflex antennas are engineered for maximum output and coverage.

Stubby antennas are non-obtrusive, ideal for wearing the radio on a belt.

Whip antennas are one-piece with a steel core for optimal radiation.

tuned and tested...

Flexible Whip

Flexible whip antennas have a one-piece finish and steel core for optimal radiation characteristics. They provide more comfort when the radio is worn on a belt.

8505241U03 7 Inch Flexible Whip Antenna, 806-869 MHz

Stubby

This quarterwave stubby antenna is ideal when the radio is worn on a belt because the short antenna is non-obtrusive. This is a broadband antenna that can be used for both 800 MHz and 900 MHz applications.

8505241U06 4 Inch Stubby Antenna, 806-941 MHz

Public Safety

When professionals need their hands free for important tasks, a Visor Microphone and foot-operated Push-to-Talk switch are the right solution.

Customer Service

One day you're in the field. The next day has you behind a desk. Control Station Accessories make it easy to convert your radio for inside use.

Private Transportation

Maximizing passenger safety is a number one priority, and an Emergency Switch is a ready solution when an alarm or help message needs to be sent.

Delivery Fleets

Hear one number wrong, and an important package won't get where it's needed on time. An External Speaker can help make everything clear under noisy conditions.

full-featured analog operation with the features users want most...

MCS 2000™ mobile radios can deliver both narrow band and broad band operation in a compact, space-saving footprint. All models are compatible with Motorola MTS 2000 portable radios, so they can serve as the heart of a truly integrated solution.
