

F36 HD Digital Recorder

VEHICLE DVR HD =(1280*720p)

User Manual V2.0

Thank you for purchasing this product: F36 (HD-720P) Digital Recorder. This product has adopted the CMOS WXGA HD photo-receptive chip, which has high performance and low intensity of illumination. This HD recorder has unique and portable design, which can be used in various fields, bringing convenient, safe and abundant daily life for our customers. This product is an HD digital recorder with a “Super Three-in-one” design (recorder, mini-video camera, digital camera) and unique functions, including a 2.4-inch super large screen, a vacuum color-plated night vision button, and an optional night vision lamp. This recorder could shoot audible HD (1280*720p) video with 30 fps per second, with highly dynamic and continuous frames. You can also take pictures with this HD recorder. There are 7 types of resolutions, and an 8-times zooming video and camera function available for choice. This product has equipped with an automatic overwritten function. Video and pictures could be taken circularly. You don’t have to worry about the capacity of the memory card. This recorder supports the HD TV OUT and playback functions, and has an online chatting function. It has an external card memorizer, which supports 32G-TF multifunctional hi-tech products. This HD digital recorder is mainly used for shooting videos and pictures in cars. It could effectively take evidences in case any car accident occurred.

Please read this user manual carefully before you use this product, and keep this user manual properly. We hope this product could satisfy your needs and you would use this product for a long time.
