Bluetooth Stage User Manual

BRIK

Dear User,

Thank you for purchasing BRIK **Bluetooth Stage**.

Please read this User Manual before operating the machine to ensure its best performance and your safety.

Instructions:

Installing Antenna

- Put the antenna into the socket on the rear panel and rotate the antenna clockwise until contacting bearing. Turn the antenna to a vertical position.

Connecting Amplifier / D-A Converter

- Connect the **Analog Output** socket to a line input on an amplifier.
- Connect the **Digital Output** socket to a coaxial input on a digital-analog converter.
- Use **Output** switch on the front panel to choose the output function.

Connecting Power

- Before connecting, check the label to ensure the local power supply is compliant, and then connect the low voltage plug from the power supply to the **12V In** socket and switch the machine on.
- Only use approved BRIK power supply. The use of other adaptors or supplies could seriously damage this item.

Pairing Bluetooth

- Access the Bluetooth menu of your audio device (PC, Mobile Phone, MP3 Player, etc.) that supports the A2DP format, turn on Bluetooth function, and make a Bluetooth search.
- Once the Bluetooth search is complete, please select **BRIK** from the list of available devices and enter password/pin code **0000**. Now, the **Bluetooth Stage** is being successfully paired to your audio device and will start functioning once the music is played. The LED indicator will be on when the **Bluetooth Stage** is being paired and will be off when it is no longer being paired.
- Please stop pairing first, change the **Output** selection, and then pair bluetooth again to complete the output selection changing process.
