

**ActiView is a full-class visual presenter** that allows teachers and students to share documents, objects and examples with the entire classroom, all at once. It integrates with ActivInspire software to help learning become tangible with real-life examples.

## Why ActiView?

**Adds interactivity to learning** — Objects placed under ActiView's flexible lens and lamp combination are projected onto any surface for teachers to manipulate and the entire classroom to see. Zoom and focus allow for examination of small details, still-frame and video capture facilitate image collection and playback at a later date, and lightweight but sturdy construction lets students share schoolwork and lets teachers comment while the whole class watches.

**Integrates with ActivInspire** — Intuitive controls integrated into the ActivInspire Professional Edition toolbar allows teachers to conveniently control all of ActiView's functions from one central location.

**Engages and inspires** — Creates live moments in learning by allowing teachers or students to share details of an object, piece of artwork or assignment (anything, really) with the entire class, inviting collaborative investigation and discussion. Then, instantly import images into ActivInspire to annotate over them and enhance the lesson.

### Enhanced functionality:

Easily capture images of any kind with the flexible arm

Bring lessons spontaneously to life by sharing objects with the whole class

Sharp, clear images of text and 3 Dimensional objects

# ActiView

## ActiView 122

### Lightweight and portable

Most appropriate for viewing of textbooks and student work

USB connectivity

## ActiView 322

### Advanced features and portability

Perfect for use with a microscope

Internal memory stores up to 120 JPEG images

Control and edit images

Flexible connectivity: USB, VGA, VGA pass through and C video

## ActiView 522

### All of the features of 122 and 322, plus:

Larger capture area

Ideal for detailed objects and demanding lessons

Optical zoom magnifies while keeping image clear and crisp

Two ultra-bright lights

HDMI connection for HD displays

## Key Features

**Brings subjects to life** — Creates crisp, clear images that can be imported instantly into ActivInspire.

**Easy to use technology** — Quick, plug-and-play connectivity and friendly function facilitates spontaneous teaching and collaboration.

**Versatility and portability** — With a camera mounted on a flexible arm and a compact size, ActiView can be easily positioned for optimal image capture or be moved to view delicate objects, rather than risking damage by transporting them or handing them around the room.

**Photo library creation** — Still and motion capture makes creating a custom library of images and video easy.

### Device details:

Windows and Mac

Integrated with ActivInspire

Flexible gooseneck

Image and video capture

USB support

Promethean helps engage minds and inspire ideas with ingenious technologies that transform the way we learn, teach and collaborate.

### INTERACTIVE TOOLS

ActiView Visual Presenters enable printed materials and objects to be viewed and shared with the entire class. This offers opportunities for collaboration in the classroom as it facilitates the sharing of information and work, as well as enabling students to engage collectively with 3D objects. Uniquely integrated with ActiVInspire software, images can be annotated over and saved in flipchart format or images and video can be automatically inserted into flip chart pages.

### MINIMUM COMPUTER REQUIREMENTS

<b>Operating Systems</b>	Windows XP SP2 and above (XP/Vista/7) Mac OSX 10.4.11 – 10.6.1 (Tiger/Leopard/Snow Leopard) Linux Ubuntu 9.04, 9.10; Debian (ActiView 322 only)
<b>PC</b>	Pentium 4 – 1 GHz processor (800MHz for Vista), 512 MB of RAM, 1024x768 resolution, 1.5 GB of Free Disk space
<b>Mac</b>	Intel Processors (Universal Binary), 512 MB of RAM, 1024x768 resolution, 3.0 GB of Free Disk Space
