# Chapter One: Notice for using

---

Thanks for purchasing our Fingerprint Time Attendance Terminal. Please refer to this user manual carefully before using, which helps you improve the efficiency of using this product.

## 1.1 Operating environment

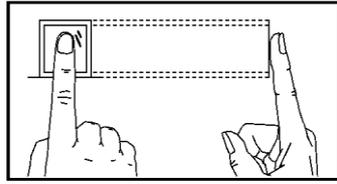

- Avoid installing the Fingerprint Time Attendance Terminal at places where irradiated by strong light directly. The strong light affects the collecting of fingerprints which would lead to the failure of the fingerprint authentication.
- The operating temperature of Fingerprint Time Attendance Terminal is 0°C–45°C. Avoid the long term outdoor usage of the terminal. The normal working of the Fingerprint Time Attendance Terminal will be affected by the long term outdoor usage. If it is necessary to use outdoor, the sunshade and cooling equipment are recommended in summer and warm keeping facility is recommended in winter to protect the Fingerprint Time Attendance Terminal.

## 1.2 Introduction of the system

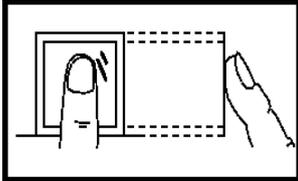

- The fingerprint attendance management system contains two parts: fingerprint time attendance terminal and RIMS software.
- Fingerprint time attendance terminal is for enrolling user fingerprints and normal attendance record. RIMS software is for downloading attendance record from the terminal and managing the attendance record.
- Communication methods between the fingerprint time attendance terminal and the RIMS software in the Computer: USB, TCP/IP, and USB Flash Drive.

## 1.3 Description of pressing fingerprint

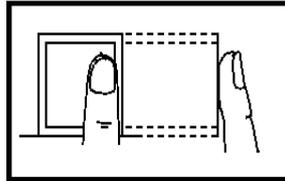

Correct pressing method: Press with your finger right on the fingerprint collecting window, with the fingerprint's centre aligning to the centre of the gathering window as much as possible. Finger pressing method is shown as follows:

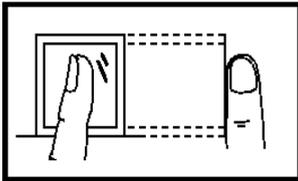

Correct

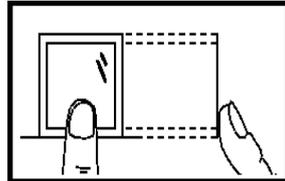

Too

Too deflactive

Tilting

Too low

Attentions: please press the finger correctly during the authentication.

## Chapter Two: Quick Start Guide

---

### 2.1 Turning on

Plug in the terminal to a 12 V, 1A power adapter. Press the power button  on the keypad of the terminal. Then it would power on normally. Then it shows as the following:

2.1-01

### 2.2 User Enroll

There are three identification modes: Fingerprint, ID card, and Password.

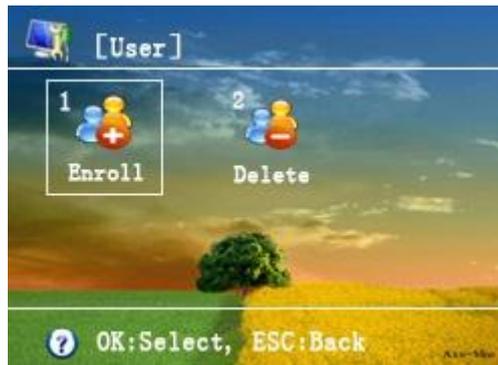

#### 1 Fingerprint Enrollment

Press **【MENU】** on the keypad to enter the **【MENU】** window, as the following:

2.2-01

Select the menu through the number (key 1-4) on the keypad. When you press “1”, it will select and enter the sub-menu to the **【User】** window, as the following:

2.2-02

Then press “1” to select and enter the **【Enroll】** window, Please input the User ID, and set the “Privilege” to “User”. Then press “OK” to enter the sub-menu to enroll the fingerprint, RF card and password. As the following:

2.2-03

Select the Fingerprint, RF Card and Password through pressing the key “△” and “▽”. It’s taking Fingerprint Enrollment as an example, select the “Fingerprint”, then press “OK” to the fingerprint interface, as the following:

2.2-04

Press three times to enroll one fingerprint; it prompts “Enroll Success” after the enrollment, as the following:

2.2-05

If you want to quit the fingerprint enrolled just now, and need to enroll another new fingerprint, please press “△” to enter the re-enroll interface, as the following:

2.2-06

If you need to enroll a second fingerprint as the backup fingerprint, please press “▽” to enter the backup enrollment interface, as the following:

2.2-07

## 2 Password Enrollment

Press **【MENU】** on the keypad to enter the **【MENU】** window, as the following:

2.2-08

Select the menu through the number (key 1-4) on the keypad. When you press “1”, it will select and enter the sub-menu to the **【User】** window, as the following:

2.2-09

Then press “1” to select and enter the **【Enroll】** window, Please input the User ID, and set the “Privilege” to “User”. Then press “OK” to enter the sub-menu to enroll the fingerprint, RF card and password. As the following:

2.2-10

### 3 ID Card Enrollment

Press **【MENU】** on the keypad to enter the **【MENU】** window, as the following:

2.2-12

Select the menu through the number (key 1-4) on the keypad. When you press “1”, it will select and enter the sub-menu to the **【User】** window, as the following:

2.2-13

Then press “1” to select and enter the **【Enroll】** window, Please input the User ID, and set the “Privilege” to “User”. Then press “OK” to enter the sub-menu to enroll the fingerprint, RF card and password. As the following:

2.2-14

Select the Fingerprint, RF Card and Password through pressing the key “△” and “▽”. It’s taking ID Card Enrollment as an example, select the “ID card”, then press “OK” to the ID card interface, as the following:

2.2-15

On the ID card interface, swipe the ID card on the time attendance terminal, then the terminal will acquire the ID card num automatically. Then click “OK” to save the ID card enrollment.

## 2.3 Manager Enrollment

There are three identification modes: Fingerprint, ID card, and Password.

### 1 Fingerprint Enrollment

Press **【MENU】** on the keypad to enter the **【MENU】** window, as the following:

2.3-01

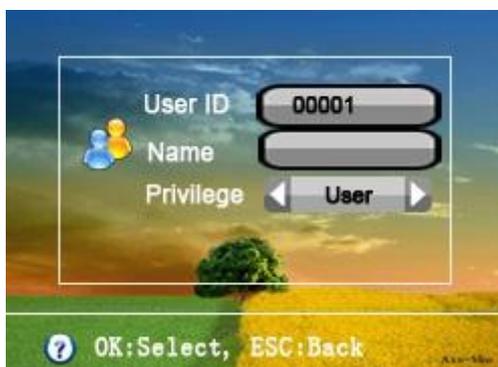

Select the menu through the number (key 1-4) on the keypad. When you press “1”, it will select

and enter the sub-menu to the **【User】** window, as the following:

2.3-02

Then press "1" to select and enter the **【Enroll】** window, Please input the User ID, and set the "Privilege" to "Manager" or "S.Manager". Then press "OK" to enter the sub-menu to enroll the fingerprint, RF card and password. As the following:

2.3-03

Select the Fingerprint, RF Card and Password through pressing the key " $\Delta$ " and " $\nabla$ ". It's taking Fingerprint Enrollment as an example, select the "Fingerprint", then press "OK" to the Fingerprint interface, as the following:

2.3-04

Press three times to enroll one fingerprint; it prompts "Enroll Success" after the enrollment, as the following:

2.3-05

If you want to quit the fingerprint enrolled just now, and need to enroll another new fingerprint, please press “△” to enter the re-enroll interface, as the following:

2.3-06

If you need to enroll a second fingerprint as the backup fingerprint, please press “▽” to enter the backup enrollment interface, as the following:

2.3-07

## 2 Password Enrollment

Press **【MENU】** on the keypad to enter the **【MENU】** window, as the following:

2.3-08

Select the menu through the number (key 1-4) on the keypad. When you press “1”, it will select and enter the sub-menu to the **【User】** window, as the following:

2.3-09

Then press “1” to select and enter the **【Enroll】** window, Please input the User ID, and set the “Privilege” to “Manager” or “S.Manager”. Then press “OK” to enter the sub-menu to enroll the fingerprint, RF card and password. As the following:

2.3-10

Select the Fingerprint, RF Card and Password through pressing the key “△” and “▽”. It’s taking Password Enrollment as an example, select the “Password”, then press “OK” to the password interface, as the following:

2.3-11

Enter the password twice to the same, then press “OK” to save the enrollment. If the two passwords are the same, it prompts “Enroll Success”. If you don’t want to use the password set just now, and want to enroll another password, please select “Password”, and press “OK” to enter the new password.

### 3 ID card Enrollment

Press **【MENU】** on the keypad to enter the **【MENU】** window, as the following:

2.3-12

Select the menu through the number (key 1-4) on the keypad. When you press “1”, it will select and enter the sub-menu to the **【User】** window, as the following:

2.3-13

Then press “1” to select and enter the **【Enroll】** window, Please input the User ID, and set the “Privilege” to “Manager” or “S.Manager”. Then press “OK” to enter the sub-menu to enroll the fingerprint, RF card and password. As the following:

2.3-14

Select the Fingerprint, RF Card and Password through pressing the key “△” and “▽”. It’s taking ID Card Enrollment as an example, select the “ID card”, then press “OK” to the ID card interface, as the following:

2.3-15

On the ID card interface, swipe the ID card on the time attendance terminal, then the terminal will acquire the ID card num automatically. Then click “OK” to save the ID card enrollment.

## Chapter Three: Frequently Asked Questions

---

### 1 How to set the User Name to the fingerprint time attendance terminal?

After enrolling the fingerprint, please refer to the RIMS software manual, Upload the user name to the terminal through the RIMS software on PC.

### 2 How to carry out the Password identification?

- a. Press "0" on the keypad;
- b. Input the User ID and press "OK";
- c. Input the password and press "OK".

(If the User ID and the Password is corresponding, it prompts **Verify Success**. Or it prompts **Verify Failed**.)

### 3 How to download the attendance record to the USB flash drive and upload it to the RIMS software on PC?

- a. Insert the USB Flash Drive to the Time Attendance Terminal.
- b. Press and enter the MENU, as the following:

3-01

- c. Select the menu through the number (key 1-4) on the keypad. Please press "3" to select and enter the **【USB Disk】** window, as the following:

3-02

- d. Select "Download GLog" through pressing the key "△" and "▽", then press "OK". If the

terminal detects the USB Flash Drive successfully, it prompts **Action Success**; otherwise it prompts **Insert USB Disk**.

- e. After downloading the attendance record to the USB Flash Drive, please go to the computer. Insert the USB Flash Drive to the computer, run the software, then mouse to the “Device Management”, then click the drop-down arrow beside the “Download”, then click “Import Log” to popup the dialogue box Import Log. Select the log file and click the icon .

#### **4 How to set the “Duty On”, “Duty Off” change on the screen automatically?**

Let’s take an example: 06:00-10:00(it shows Duty On), 10:00-13:00(it shows Duty Off), 13:00-15:00 (it shows Duty On), and 15:00-19:00(it shows Duty Off).
