US\$ 78.00

C-PULSE Pulp Tester # C-PULSE (china)ECCO C-PULSE Pulp Tester

The ECCO C-Pulse Pulp tester is specifically designed for patient comfort.The ECCO C-PULSE Pulp Tested is a must have item in any dentistry, our pulp test is not only user friendly but features a gentle pulsed stimulus which has been specifically design for the patients comfort.

FEATURES

- Preset speed mode (high-mid-low speed)>
- A gentle pulsed stimulus begins to increase at a rate Specifically designed for patients comfort.
- Convenient and easy to operate.
- The device turns itself off within three minutes after operation Maximum stimulus -80.

STIMULUS

If the Stimulus is between 0-40 The patient feels ache and anesthesia, the nerve in the tooth is alive If the Stimulus is between 40-80 The patient begins to feels ache and anesthesia, the nerve in the tooth is partially Dead; If the Stimulus is at 80 The patient feels No ache and anesthesia, the nerve in the tooth is dead.

US\$ 217.00

ECCO-Pex-II Apex Locator -Latest Model of Apex Locator (DenApex) Apex Locator DenApex adopts multi-frequency operation system in global dental field!

Features:

Battery-operated by 3 pieces of AA battery to save the power! Large colored LCD screen showing the distance 34mm away from the apex. Sound operated switching device can produce different kinds of sound to indicate the different position of file in the root canal! Dry and Wet condition are also available for accurate reading! Adjustable apical constriction (range 0--5mm) Autoclavable accessories to avoid cross infection. Self-check circuit to guarantee the accuracy before operating! Compact, stable, ergonomic design for easy handling Auto power shut-off Safety test report, EMC test report and CE 0197 can be provided!

Standard accessory include: Main unit 1 PC Testing cord 1 PC File holder(autoclaveable) 2 PCS Stainless hook 4 PCS User's manual 1 PC DENAPEX

PARKELL - 115616 FORMATARON D10 Apex Locator

US\$ 599.00

FORAMATRON D10 Digital Electronic Apex Locator #D610 Digital Foramatron D-10 Apex Locator (Parkell)

The NEW Foramatron Apex Locator-New Design, Same Reliable Results: STILL Less Expensive Than the Competition!

- Precisely pinpoints the apical constriction using high and low frequency bands.
- Ergonomic, aseptic design.
- LED illuminated display for easy viewing.
- Four distinct audio signals reinforce the indicator lights.
- Reliable results even in the presence of all types of fluids.
- Uses a replaceable, inexpensive 9-Volt battery.
- Includes detachable autoclavable cables.
- 5-year power-unit warranty.

FORAMATRON D10 INFORMATION:

The Foramatron D10 is the next generation of Apex Locator and you won't have to re-finance your home to own one. It uses high and low frequency bands to pinpoint the apical constriction...even in canals contaminated with blood or conductive electrolyte like sodium hypochlorite or anesthetic solution.

An intuitive graphical display When the tip of your instrument approaches the foramen, the graphical display suddenly illuminates. Green lights begin tracking your progress down the canal. When you get really close to the apical constriction, the lights switch to yellow to indicate "caution." When the tracking light flashes red, stop instrumenting!

You've reached the point for obturation. If you ignore the readout and continue instrumenting, orange tracking lights warn you that you've penetrated the apex. Incidentally, you don't have to glance repeatedly at the device as you work, because the Foramatron supplements the visual display with 4 distinct audio signals (signifying "far short", "getting close", "apex" and "too far").

The adjustable volume can also be turned down. The new Foramatron delivers accurate apex location ... consistently ... at a price you won't believe. 1-year power unit warranty

NSK- 101376 I-PEX Digital Apex Locator

US\$ 1,047.15

NSK IPEX - iPEX Apex locator NSK original Features : The NSK Advanced Digital Apex Locator has been developed to accurately measure the length of canals in all conditions, including dry, wet and where blood is present.iPex guarantees security for canal interventions, and improves patient comfort, without exposure to radiation. The large high contrast LCD display provides instant measurements.

-Instant accurate measurement of canal length-User friendly interface-Large Hi-contrast LCD screen for easy monitoring-Compact and smart design-Audible warning system-Auto power shut-off-AAA battery operation-Push-button type file clip for one-touch operation

This is based on the micro-electronic control technology. The Endo Motor instrument contributes to alleviate the dentist working intensity.

BESTQUAL - 115935 Endo-A-Class wrless Endomotor

US\$ 560.00

BESTQUAL - Endo-A-Class Wireless Endomotor Endodontic Motors# 115935 - Mfg # 115935

Feature:Endo-A-Class Wireless Endomotor is a cordless endodontic handpiece, which can drive from 120 to 2,000rpm with a torque of 3.0 Ncm (16:1).

It has 4 program memories and 4 speed ratios (4:1, 10:1, 16:1, and 20:1).

Its very light weight (138g) and portable.

Endo-A-Class has an Auto Stop Reverse safety function that's absolutely essential for patients peace of mind while on endodontic treatment. This happens when the preset torque exceeds the limit; the hand piece stops and immediately runs in reverse automatically.

It's equipped with a quiet motor and variable setting mode. Contra Angle is easy to disconnect and has a comfortable grip. And it includes a rechargeable battery with 1 hour and a half operation time.

Charges in 110 or 220 volts.

NSK- Y141-120 Endo-Mate DT Std Set 110v

US\$ 1,415.08

NSK ENDO-MATE ENDODONTIC MICROMOTOR

ENDO-MATE DT is specifically designed for use with Ni-Ti files from all major suppliers. User-programmable preset memory can store up to 9 speed and torque settings exactly to the suppliers spec. A compact and lightweight control unit offers convenience of full portability between offices. ENDO-MATE DT can be hooked up directly to wall outlet or used with rechargeable battery. A large LCD display offers higher visibility for instantaneous recognition of micromotor status.

-Speed range : 100 - 13,000min-1(with 20 : 1, 4 : 1, and 1 : 1 geared heads)-Fits all popular brand of Ni-Ti files-Auto-reverse function-Compact desktop unit-Large LCD screen provides clear visibility-Simple-to-operate Flat Control Panel-Dual Power Source:AC or Battery Operation-Slim and light handpiece-2-Way ON/OFF switch-Number of Programs : 9-Torque control from 0.1 to 6.5 Ncm(Depending on the heads gear ratio)

-Power Supply : AC 120V/230V, 50/60V & Battery pack-Dimensions : W92 x D148 x H124 (mm)-Weight : Unit 456 g / Micromotor & cord 92 g-Charge / Continuous use : 5h - 2h (depending on workingload)

NSK- 113541 Endo-Mate TC Std Set 110v

US\$ 1,264.31

NSK- ENDO-MATE TC Endo Micromotor 110V - Cordless Micromotor with Torque Control & Auto Reverse Includes: Endo-Mate TC Motor- NE140 Charger- NML-F16R Head - Endomate (NSK# Y141-161) (NSK# Y140-978) (endomotor Complete)**NSK- ENDO-MATE TC Endo Micromotor # Y141- 161**

Compact and lightweight cordless handpiece with fine torque control. ENDO-MATE TC offers high performance, is lightweight, slim and well balanced.

Via the application of Microchip technology, NSK introduces a single cordless micromotor with the capability of delivering 5 torque settings from delicate torque for fine endodontic applications through powerful torque for general procedures including prophylaxis.

9 pre-programmed speed ranges allow the operator to easily select the required speed setting for any application.

When the 16:1 reduction head is attached the speed ranges from 125 min-1 to 625 min-1. For endodontic procedures, the "TC" button automatically activates the very fine torque control and auto reverse functions.

ASEPTICO - 111146 Endodontic Motor AEU-25

US\$ 1,223.30

ASEPTICO - Endo Unit Complete - Vendot item # AEU-25 & **Includes Ae-4B-30 AEU-25 ASEPTICO - Endodontic Motor Endodontic Motors# 111146 - Mfg # AEU-25

Feature: The Endo DTC Electronic Endodontic System is a highly advanced unit that is fully programmable with five memory locations to help automate your operating procedure. Saving your customized settings is achieved using the simple front panel controls.

Our Auto Stop Reverse feature automatically reverses the direction of rotation of the file when a defined torque level is reached - reducing the occurrence of file breakage while lessening procedure time. The Endo DTC also features an integrated calibration system to give the highest measure of accuracy and consistent operation.

Endo DTC Advantages:

- * Console is simpler to use than other high end system - Note that the DTC expresses torque in actual Gram Centimeter units - not arbitrary percentages. *
- * Aseptico's autoclavable brushless motor is superior to other motors on the market today; more reliable than brush motors, greater range of torque and better control of speed and torque than stepper motors. Greater range of use with a speed range of 300 to 30,000 RPM.* Full range of handpiece ratios supported - 1:1, 4:1, 8:1, 16:1, 64:1 *
- * Fully autoclavable motor/cable assembly, easily detached from console. *
- * System features automatic calibration to test both the motor and handpiece for accurate performance in all of your procedures. *
- * Outstanding torque. *
- * Brushless motor, microprocessor controlled. *
- * Backlit LCD RPM, handpiece ratio and torque

setting readout. * 1/8 reduction mini-head handpiece is recommended.

ASEPTICO - 111147 Endodontic Motor AEU-26

US\$ 1,714.70

ASEPTICO - Endodontic System Complete # AEU-26 AEU-26 ASEPTICO - Endodontic Motor System Endodontic Motors # 111147 - Mfg # AEU-26

Feature: The new Endo DTC2 Electronic Endodontic System is a highly advanced unit that is fully programmable with five memory locations to help automate your operating procedure. Saving your customized settings is achieved using the simple front panel controls.

Our Auto Stop Reverse feature automatically reverses the direction of rotation of the file when a defined torque level is reached - reducing the occurrence of file breakage while lessening procedure time. The Endo DTC2 also features an integrated calibration system to give the highest measure of accuracy and consistent operation.

Endo DTC2 Advantages:

* Console is simpler to use than other high end systems - Note that the DTC2 expresses torque in actual Gram Centimeter units - not arbitrary percentages. * Aseptico's autoclavable brushless motor is superior to other motors on the market today; more reliable than brush motors, greater range of torque and better control of speed and torque than stepper motors. Greater range of use with a speed range of 300 to 30,000 RPM * Integrated file library* Preset options allow single file, file series, or custom file series* Full range of handpiece ratios supported - 1:1, 1:5, 8:1, 16:1 * Fully autoclavable motor/cable assembly, easily detached from console. * System features automatic callibration to test both the motor and handpiece for accurate performance in all of your procedures. * Outstanding torque. * Upgradeable Software* Brushless motor, micro processor controlled. * Bright, easy-to-read display for RPM, handpiece ratio and torque setting readout. * 1/8 reduction mini-head handpiece is recommended.

ECCO - 102223 EndoMotor brushless with Apex

US\$ 540.00

ECCO - Joysmart Endo Motor

Endodontic Motors

102223

Endo Motor Is The Supplementary Root Canal Treatment Device

TECHNICAL SPECIFICATIONS:

- * Voltage: DC8.4V
- * Power: 5W
- * Torque: 6-52mn
- * Display: reflecting LCD Screen
- * Battery: Chargeable Li-on Battery 3.7 x 2
- * Current: < 500Ma
- * Speed: 100-625 RPM

FEATURES

- * Adjustable Speed: 22 Settings For Adjustable Speed Ranging from 100-625rpm
- * Adjustable Torque the Torque Exceeds the Regulated Value, The File will Reverse to Avoid Break-off
- * Saving Function: Nine Groups of Program Data Can Be Saved
- * Easy Operating with LCD Screen
- * Built In Rechargeable Battery
- * Start The Rotation of the Ni-Ti Files with Foot Control Pedal
- * 1 Year Warranty

ECCO ENDOMOTOR WITH APEX LOCATOR INCLUDES:

- * Main Unit
- * Motor Handpiece brushless

- * Testing Cord
- * Users Manual
- * Apex Lcoator : INCLUDED and working SIMULTANEOUSLY AND COORDINATED WITH MOTOR
- * Contra Angle 1:1 INCLUDED

ASEPTICO - 111148 Peristaltic Water Pump 110v

US\$ 761.64

ASEPTICO - Peristaltic Water Pump 110v ASEPTICO - Peristaltic Water Pump - 110vEndodontic Motors# 111148 - Mfg # AEU-7

Feature: Superb irrigator delivers sterile fluid through autoclavable silicone tubing. Readily retrofits to Endo DTC, Endo ITR and other drilling equipment which lacks irrigation (Stryker, Bell, etc.) or operates this pump independently. AE-7P foot switch included.

Our AE-7DC Foot Control allows for operation of both the SurgiMotor II or Endo DTC and AEU-07 pump.

JMORITA-113593 TRI Auto-ZX Cordless HdPc Ea

US\$ 2,229.99

JMORITA-TRI Auto-ZX Cordless Endodontic Treatment Handpiece # 24-5316227The cordless Tri Auto ZX is the only endodontic handpiece with a built-in apex locator, providing the capability and convenience to electronically monitor the root canal before, during and after instrumentation. With the combined technology and accuracy of the Root ZX apex locator, the Tri Auto ZX can significantly increase accuracy and safety. The Tri Auto ZX also offers greater control and flexibility with the adjustable torque settings. The choice of automatic or manual mode operations provide versatility. The three automatic functions include: Auto Start/Stop, Auto Apical Reverse and Auto Torque Reverse.

FEATURES:- Handpiece will automatically shut off after three minutes of non-use-Monitor position of file while cleaning and shaping-LED control panel for easy viewing
-Cordless for maximum flexibility-(3) automatic functions-Extremely safe
INDICATIONS:
-Operates as a low speed handpiece to make flares and prepare the upper portion of the canal-Shapes and cleans root canals while monitoring the files position inside the canal-Measures the length of the root canal using the apex locator
PACKAGING:Unit includes a handpiece, contra head, charger, battery, probe cord, (3) file holders, (5) contrary electrodes, function tester, AR oil, and an instructional video. **SPECIFICATIONS:** Handpiece Weight: 160 gHandpiece Outer Dimensions (WXDXL): 30 X 37 X 212 mmCharger Outer Dimensions (WXDXH): 80 X 123 X 55 mm

ASEPTICO - 111145 Unit w/ Torque-110V

US\$ 1,001.00

ASEPTICO - Unit with Torque-110V Sold With AE-4B-10 ASEPTICO - Unit with Torque-110V Sold With AE-4B-10 Endodontic Motors # 111145 - Mfg # AEU-20

Feature:
An Aseptico classic, the AEU-20 Endo ITR was the first rotary endo system on the market. Auto-stop-reverse reduces file separation.

Description:

- * Console is simple to use
- * Auto-Stop-Reverse reduces file separation
- * Four levels of torque control
- * Asepticos autoclavable brushless 10,000 rpm motor
- * Full range of handpiece ratios supported - 1:1, 8:1, 16:1, 64:1
- * Fully autoclavable motor/cable assembly, easily detached from console
- * Outstanding torque
- * Backlit LCD readout for rpm, handpiece ratio and torque settings

Whats in the Box:

- * Electronic Control Console
- * Remote Power Cord
- * Autoclavable 10,000 rpm Brushless Micromotor
- * Autoclavable Motor Holder
- * On/Off Footswitch (AE-7P)

Calcium Hydroxide with Barium Sulfate

Applications* Weeping canal* Formation of a hard tissue barrier (Apexification)* Temporary root canal filling* Internal & external root resorption* Shelf life: two years from the production date

Components- 22 g paste in a syringe (2 syringe packing available)- One ring rotator for direction control of the tip- Disposable tips

Compositions* Calcium Hydroxide, Barium Sulfate, Poly Propylene Glycol

RESIN ROOT CANAL FILLING MATERIAL KIT - PRO-LINE

RESIN ROOT CANAL FILLING MATERIAL KIT - PRO-LINE

Contains:

- * 8g powder bottle
- * 10g resin tube
- * Accessories
- * Ifu
- * Root Canal Filling Material

Feature:

Used by permanent obturation of root canals of teeth of the secondary dentition with or without the aid of obturation points. Prime-Dent Root Canal powder and resin are mixed to produce a silver-free material with excellent sealing properties. As a result of its close applications to the root canal walls and its very small contraction during setting.

Prime-Dent Root Canal Filling Material allows for tightly sealed root canal obturation with excellent tissue compatibility

Endodontics FlexoFiles

MAILLEFER - 115755 Flex-O-Files #15-40 31mm 6pk

US\$ 5.00

K-Flexofile Size #15-40 31mm (Assorted) 6pk - (NITINOL) [flexofiles] (china)MAILLEFER - K-Flexofiles Assorted
Flexofiles
115755

Feature

The FlexoFile hand file combines the best stainless steel technology with enhanced flexibility perfect for endodontic, root canal or other procedures requiring cleaning and shaping of the most curved and narrow canals. All files are pre-sterilized and available in different color-coded handles.

- * Used in combination with regular ISO files let you gradually move on to the next file size
- * Safe ended non-cutting Batt Tip reduces chance of ledging
- * Made from a triangular blank for flexibility in curved canals
- * Pre-inserted silicon stops

Package: 6 per pack

Size: 15-40

Length: 31 mm

Thickness: 31 mm

Made in China

FLEXOFILE 21MM - MAILLEFER

FLEX - O - FILE 21mm

Flex-O-File are Pre-Sterilized Files-Color Coded Plastic Handle.

The Flexo-File lets you combine the best stainless steel technology with enhanced flexibility. The result is a hand file that resists fracturing to help you clean and shape even the most curved and narrow canals.

The Flex-O-File are available in sizes #08-80
Each Box of Flex-O-Files come in a package of 6

Outstanding flexibility, cutting efficiency and unique non-slip handles make this the flexible file of choice for curved and narrow canals.

All of the Maillefer stainlesssteel FlexoFiles feature our remarkable non-cutting tip. This safe-ended design offers a less aggressive tip and is available on instruments in traditional ISO sizes ranging #6 through #40.

GATES GLIDDEN - SHARK

GATES GLIDDEN DRILLS

Gates Glidden Drills are flame-shaped with a boring head on a slender shaft for fast cutting.

Safety tip guards against perforation. Used to remove curvatures of the orifice for: Greater access to the canal for enlarging instruments and filling materials, Opens the orifice, Preparing tooth for post.

(The Shark - Gates Glidden are Only for Export)

ECCO - 111915 Gutta-percha for Obtura 100pk

US\$ 26.50

OBTURA Gutta-percha Bars for thermal Systems 100pk - 100% compatible with Obtura system and Sybron endo - [gutta-percha gutapercha] [china]**Properties of an Ideal Obturation Material :**

Easily manipulated Dimensionally stable Seals Non-irritating Impervious to moisture Bio-compatible Radiopaque Sterile Easily removed

Endodontics

Hedstrom Files SS & NITI

ECCO HEDSTROEN FILES 28mm

Highly efficient enlargement of root Canals in filing motion

- * Excelent cutting ability, precision cutting edges and unique griding technique
- * Flat cutting angles towards the tip ensure high resistance to fracture
- * Special steel alloy with uniform structure
- * The inactive tip conducts the instrument safely along the canal
- * Instrument type and ISO size are clearly marked on the handle
- * Radiopaque depth marks
- * Additional length marking on handle
- * With pre-mounted silicone stoppers
- * Used in probing motion towards apex, then pulling back motion
- * Box of 6 pieces

MAILLEFER - 116218 H-Files #15-40 25mm 6pk

US\$ 5.00

MAILLEFER - Hedstrom Files Assorted
Hedstrom Files SS & NiTi
116218 - Mfg # 671078

Feature

- * 3 NiTi file system In the majority of cases, only 3 files (S1, S2 and F1) are required to effectively shape a root canal, increasing speed of the procedure to reduce chair time and cost. This makes ProTaper Universal a more economical system compared to other systems.
- * Efficient Better debris removal due to multitapered shape and increased apical taper for better canal cleaning.
- * Quality Manufactured by DENTSPLY Maillefer in Switzerland.
- * Simple and Easy-to-Use Colour-coded and easy to follow protocols whether using rotary or hand ProTaper. Matching solutions for obturation are available.
- * Safe Multi-tapered shape minimises file stress so there is less risk of file separation. Guiding tip with rounded ends, minimising deviations from the canal. ProTaper for Hand Use also available for treatment of severely curved canals or for clinicians who prefer to use hand files to facilitate tactile control.

Patient Benefits include:

- * Greater preservation of tooth structure
- * Reduced chair time for patient
- * Lower risk of procedural errors - increased success rate and less chance of re-treatments

Size: #15-40

Length: 25 mm

Thickness: 25 mm

Material: Stainless Steel

Package: 6

Feature

K Type Files are an endodontic tool designed to offer superior cutting efficiency and precision handling during instrumentation. They feature a twisted design and are manufactured from a square blank to clean and shape the root canals.

Size: # 10
Length: 21 mm
Material: Stainless Steel
Color: Purple
Package: 6

Made in China

MAILLEFER NITI HEDSTROEN FILES 21mm

Features

- * Highly efficient enlargement of root Canals in filing motion
- * Exelent cutting ability, precision cutting edges and unique griding technique
- * Flat cutting angles towards the tip ensure high resistance to fracture
- * Special steel alloy with uniform structure
- * The inactive tip conducts the instrument safely along the canal
- * Instrument type and ISO size are clearly marked on the handle
- * Radiopaque depth marks
- * Additional length marking on handle
- * With pre-mounted silicone stoppers
- * Used in probing motion towards apex, then pulling back motion
- * Box of 6 pieces

Endodontics

Irrigation Vented Tips

SHARK -115744 Blunt Irrigation Needle 100pk

US\$ 9.50

Endodontic Blunt Irrigation Needle - 27 Gauge - 100pk #115744 (china)SHARK - Blunt Irrigation Needle
Irrigation Vented Tips
115744

Feature

They are the universal luer style design and used to irrigate canals - fistulas and pockets.
Endodontic needles with a notched tip to alleviate hydraulic pressure. they are sterile, designed to fit all luer tip syringes and single use.

Description:

- * 27 gauge needle tip
- * Blunt irrigation needle
- * 1in bendable needle tip
- * Autoclavable in rigid pack.
- * Rigid polypropylene hard pack, autoclavable.
- * Translucent polypropylene hub fits tightly on syringes.

Package: 100

Gauge: 27

MONOVAC IRRIGATION NEEDLE TIPS - PLASDENT

MONOVAC IRRIGATION NEEDLE TIPS - PLASDENT

Slotted and side-port. Universal luer lock style hub.

Sizes:

SHARK -115743 Side Hole Irrig Needle 100pk

US\$ 9.50

Endodontic Side Hole Irrigation Needle - 27 Gauge - # 115743 (china)**SHARK - Side Hole Irrigation Needle**
Irrigation Vented Tips
115743

Feature

They are the universal luer style design and used to irrigate canals - fistulas and pockets.

Endodontic needles with a notched tip to alleviate hydraulic pressure. They are sterile, designed to fit all luer tip syringes and single use.

Descriptions:

- * Side Hole Irrigation Needle
- * 1in Bendable Needle Tip
- * Autoclavable in rigid pack.
- * Rigid polypropylene hard pack, autoclavable.
- * Translucent polypropylene hub fits tightly on syringes.

Gauge: 27

Package: 100

SHARK -115742 Vented Irrigation Needle 100pk

US\$ 9.50

Endodontic Vented Irrigation Needle - 27 Gauge - 100pk # 115742 **SHARK - Endodontic Vented Irrigation Needle**
Irrigation Vented Tips
115742

Feature

They are the universal luer style design and used to irrigate canals - fistulas and pockets.

Endodontic needles with a notched tip to alleviate hydraulic pressure. They are sterile, designed to fit all luer tip syringes and single use.

Description:

- * 1in Bendable Needle Tip
- * Autoclavable in rigid pack.
- * Rigid polypropylene hard pack, autoclavable.
- * Translucent polypropylene hub fits tightly on syringes.

Gauge: 27

Package: 100

K Files - S-Steel & NiTi

ECCO - 116578 Endo K S.Steel 31mm #08

US\$ 3.00

ECCO - Endo SS K-File Stainless Steel 31mm #08 - 6pk - **ECCO - Endo SS K-File # 08**

K Files - S-Steel & Niti

116578

Material: Stainless Steel

Package: 6

Size: 31 mm - # 08

ECCO NiTi K FILES 21mm

Features

- * For preparation of severely curved and narrow root canals
- * NiTi, improved handle
- * Triangular cross-section for highest cutting efficiency.
- * More cutting edges than flexicut reamers
- * Cutting angle effective with filing motion
- * NiTi alloy with uniform structure for minimum
- * Resistance to fracture and maximum flexibility
- * The inactive tip conducts the instrument safely along the canal
- * Radiopaque depth marks
- * Box of 6 pieces

ECCO NiTi K FILES 25mm

NiTi K FILES 25mm

Features

- * For preparation of severely curved and narrow root canals
- * NiTi, improved handle
- * Triangular cross-section for highest cutting efficiency.
- * More cutting edges than flexicut reamers
- * Cutting angle effective with filing motion
- * NiTi alloy with uniform structure for minimum
- * Resistance to fracture and maximum flexibility
- * The inactive tip conducts the instrument safely along the canal
- * Radiopaque depth marks
- * Box of 6 pieces

MAILLEFER - 116172 K-Files Size #70 25mm 6pk

US\$ 5.00

MAILLEFER K-Files Size #70 25mm (Green) 6pk - (Stailles Steel SS) - (china)MAILLEFER - K-Files
K Files S-Steel & NiTi
116172 - Mfg # 671142

Feature

K Type Files are an endodontic tool designed to offer superior cutting efficiency and precision handling during instrumentation. They feature a twisted design and are manufactured from a square blank to clean and shape the root canals.

Size: # 70

Length: 25 mm

Material: Stainless Steel

Color: Green

Package: 6

Made in China

MAILLEFER - 115608 K-Files Size #70 31mm 6pk

US\$ 5.00

MAILLEFER K-Files Size #70 31mm (Green) 6pk - (Stailles Steel SS) - (china)MAILLEFER - K-Files
K Files S-Steel & NiTi
116188 - Mfg # 671172

Feature

K Type Files are an endodontic tool designed to offer superior cutting efficiency and precision handling during instrumentation. They feature a twisted design and are manufactured from a square blank to clean and shape the root canals.

Size: # 70

Length: 31 mm

Material: Stainless Steel

Color: Green

Package: 6

Made in China

MAILLEFER - 115610 K-Files Size #80 31mm 6pk

US\$ 5.00

MAILLEFER K-Files Size #80 31mm (Black) 6pk - (Stailles Steel SS) - (china)MAILLEFER - K-Files
K Files S-Steel & NiTi
116187 - Mfg # 671173

Feature

K Type Files are an endodontic tool designed to offer superior cutting efficiency and precision handling during instrumentation. They feature a twisted design and are manufactured from a square blank to clean and shape the root canals.

Size: # 80

Length: 31 mm

Material: Stainless Steel

Color: Black

Package: 6

Made in China

NiTi K FILES 31mm - ECCO

Features

- *For preparation of severely curved and narrow root canals
- *Stainless steel, improved handle
- *Triangular cross-section for highest cutting efficiency.
- *More cutting edges than flexicut reamers
- *Cutting angle effective with filing motion
- *NiTi allow with uniform structure for mimum
- *Resistance to fracture and maximum flexibility
- *The inactive tip conducts the instrument safely along the canal
- *Radiopaque deph marks
- *Box of 6 pieces

NiTi ProTapered

DENTSPLY - 115792 NiTi Eng ProTaper 25mm #DX-M3

US\$ 19.00

PROTAPER type Endo NiTi Engine 25mm S1-S2- F1-F2-F3-SX [PROTAPER MAILLEFER PROTAPPER] (china)DENTSPLY -
PROTAPER Type Endo NiTi Engine
NiTi Protapered
115792

Feature:

- * ProTaper universal is an ideal choice for daily practice as a solution for rapid and high quality canal shaping.
- * Only 3 ProTaper treatment files are needed to shape the majority of canals.
- * The colour coded and easy to follow protocol is the same sequence for all canals, simplifying the procedure.
- * Deviations from the canal are minimised due to the round ended guiding tip. Anatomically difficult cases can be treated safely.
- * Solutions dedicated to obturation and perfectly matched to tapers of ProTaper finishing files: paper and gutta-percha points for ProTaper and ProTaper obturators

Contains: S1-S2- F1-F2-F3-SX

Size: 25 mm

Made in China

NITI PRO-TAPER ENGINE FILES - ECCO

Endo NiTi PROtaper Rotary Engine Tapered File

For Endomotors & Machanic Treatment

- Revolution design with progressive taper
- For preparation of severely curved and narrow root Canals with a filing motion- NiTi, improved Handle- Taper 0.2-08 progressively
- Triangular cross-section for highest cutting efficiency. More cutting edges than flexicut reamers.
- Cutting angle effective with fi ling motion
- Specials steel alloy with uniform structure for maximum resistance to fracture and maximum flexibility
- The inactive tip conducts the instrument safely along the canal
- Recommended speed 280-300 rpm
- Box of 6 pieces

- English Manual

FEATURES:

- *Perfect Cordless 3-Dimensional Obturation System
- *Fantastic Combination of Filling Method of vertical Compaction and Backfill
- *Excellent Hermetic Sealing with 3-Dimensional Filling
- *Excellent Apical Control & Oburation of Anatomically Complicated Canals
- *Condensed Gutta Percha Makes Fill Oburation
- *Digitizing Temperature Display Contributes to Convenient Setting of Temperature

***Easy to Learn and Operate**

CHARGING SYSTEM:

- *Operating Voltage DC 3.6V
- *Adapter Input: AC 100-240V Output: DC 4.5V
- *Charging Time 3 Hours
- *Continuous Heat up Time for gun after fully charging 60min
- *Continuous heat up Time for pen after fully charging 40min

Oburation Gun:

- *Heater DC 3.6 V 8W
- *Temperature Sensor Thermocouple
- *Heating Time 2 min
- *Temperature Range 50-200 Degrees Celsius

Obturation Pen:

- *Temperature Sensor K Type
- *Heating Time 2-10 Seconds
- *Temperature Range 150-350 Degrees Celsius

Battery (Li-on):

- *Capacity DC 3 3.6V 2.2AH
- *Dimensions 25 x 75
- *Operatuing Condition Temperature 0-40 Degrees Celcius

Peeso

PEESO REAMER - MAILLEFER

Maillefer Peeso Reamers:

- Enlarge the cervical portion of the canal
- Prepare the canal entrance
- Remove gutta-percha for post space
- Notched for easy size identification

Can be used in any right-angle hand piece
Available in standard (32 mm) and short (28 mm) lengths
Sold in packs of 6

Reamers SS & NiTi

NITI REAMERS FILES 21mm - ECCO

- For safe root canal preparation with a reaming motion
- NiTi with improved handle
- 150-40 square cross-section for better fracture resistance
- 15-40 triangular cross section for better cutting efficiency
- Instrument type and iso size are clearly marked on the handle
- Radiopaque depth marks
- Additional length marking on handle
- Special steel alloy with uniform structure for maximum
- Resistance to fracture and maximum flexibility

- The non cutting tip guides the instruments safely along the canal
- With pre-mounted silicone stoppers
- Additional length marking on handle
- With pre-mounted silicone stoppers
- Box of 6 pieces

ST STEEL REAMERS FILES 25mm - ECCO

- For safe root canal preparation with a reaming motion
- Stainless steel with improved handlelso
- 150-40 square cross-section for better fracture resistancelso
- 15-40 triangular cross section for better cutting efficiency
- Instrument type and iso size are clearly marked on the handle
- Radiopaque depth marks
- Additional length marking on habdle
- Special steel alloy with uniform structure for maximum resistance to fracture and maximum flexibility
- The non cutting tip guides the intrumentsafely along the canal
- With pre-mounted silicone stoppers
- Additional length marking on handle
- With pre-mounted silicone stoppers
- Box of 6 pieces

EMBRACE™ WetBond™ Pit & Fissure Sealant

Light Cure • Fluoride
Releasing • Radiopaque

- Contains No Bisphenol A and No Bis-GMA
- Wet-Bonding - Moisture tolerant resin chemistry
- Tooth Integrating - Seals against microleakage
- Margin-free - No chipping, pitting, or staining.

We carry the complete

line of products.

ST STEEL REAMERS FILES 31mm - ECCO

- For safe root canal preparation with a reaming motion
- Stainless steel with improved handlelso

Sealers and Cements

META- 107678 ADSEAL Can.Seal 13.5g Dual Sy

US\$ 33.40

META - ADSEAL Resin Based Root Canal Sealer - 13.5g Dual Syringe; Base 9g- Catalyst 4.5g - Root Canal Filling Material [590-5781] (endoseal sellador endodontico de conductos) Can replace sealapex - **ADSEAL CAN.SEAL 13.5G DUAL SY**

#107678

META - ADSEAL resin based root canal sealer 13.5g dual syringe base 9g catalyst 4.5, root canal filling material .Advantages:

Excellent biocompatibility

Easy to dispense & mix

Hermetic sealing ability

Non-staining to the teeth

Insoluble in tissue fluids

Good radiopacity

→ **FREE SHIPPING IN USA** for orders over 500 us\$ (placed online only)
→ **15 us\$ FLAT RATE** for orders over 100 us\$ → **FREE SHIPPPING in Backorders**

Does not include equipment, heavy powders and hazzardous materials

PULPDENT- 101442 Endo Pressure Syringe

US\$ 157.82

PULPDENT - Endo Pressure Syringe - Puts you in control of root canal filling - P# PSK The system allows you to fill the apical third first - creating a positive apical seal and then to accurately control the filling of the remaining root canal space - uses disposable 18 - 22 - 25 - 27 - 30 gauge sterile needles - Sturdy stainless steel construction - sterilize by any method - [PSK]
