About Player Battery

Player has an internal, non–user-replaceable battery. For best results, the first time you use player, let it charge for about 2 hours or until the battery status icon in the "Connect" screen shows that the battery is in full.

Battery is in full

Note: Player continues to use battery power after it's been turned off, if unit isn't used for a while, the battery might need to be charged.

a. **Charging the Battery:**

You can charge the player battery in two ways:

■ Connect player to your computer. Or,

■ Use the USB power charger. (available separately)

b. **Connection and Charging:**

■ Once you have connected player with computer / power charger, then you will see the "Connect" screen appear on screen,

■ The level bars are running in battery status icon at the "Connect" screen. The battery is in charging.

**"Connect" Screen**

In Charging

Important: The battery does not charge when your computer is in sleep. The USB port on most keyboards does not provide enough power to charge the player. Connect player to a USB 2.0 port on your computer only to prevent charge problem.

2. **Connecting and Disconnecting Player**

You can connect the player with your computer to transfer those media files and recorded

voice memos when necessary, and to charge the battery. Disconnect the player when you're done.

a. **To Connecting Player**

■ To connect player to your computer, plug the connector of USB Cable into a USB port on your computer, and connect the other end to player, then the "Connect" screen appear for view.

■ Now the player is ready for media files transfer with your computer and the battery is charging.

■ You can transfer the media files by using the computer mouse use drag and place, or copy and paste, in between the player and your computer. Disconnect it when you're done.

b. **To Disconnecting Player**

It's important not to disconnect player while it's syncing or transferring files. Eject the player before disconnect it.
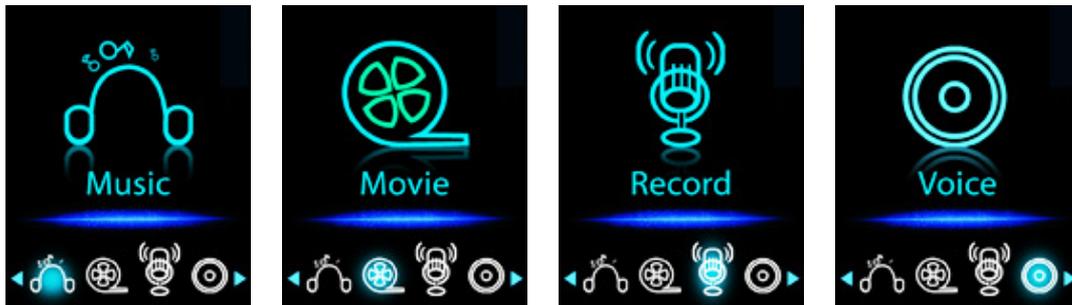

■ To eject player, press and hold **M** button for about 2 seconds, the "Connect" screen will switch to "Main Menu" screen. And now is safe to disconnect the player with your computer. Unplug the USB cable from the player. Or,

■ If you're using a Windows PC, you can also eject player in My Computer or by clicking the "Safely Remove Hardware" icon in the Windows system tray, select the correspondence name of USB Device and choose "Stop" > choose "Confirm" > choose "Confirm" follow by the pop up windows you're your computer.

■ If you're using a Mac, you can also eject player by dragging the player icon on the desktop to the Trash.

■ Disconnect the USB cable from the player and computer, simply remove it.

■ If you accidentally disconnect player without ejecting it, reconnect it to your computer and sync again. However, some media file may loss.
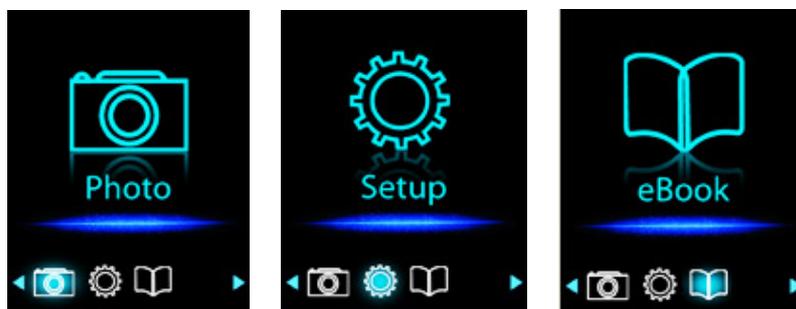

3. **Getting Start the Player**

Turn ON / OFF the player and use of Main Menu.

■ Slide the power switch to "ON" position, then you will see any one of the following shown Main Menu screen, Music / Movie / Record / Voice / Photo / setup / eBook , will appear on LCD after the Loading and Opening screen have displayed.

■ To standby OFF the player, press and hold the **Center** (▶‖) button for 3 – 4 seconds.
