No.	Name	Description
1	Sheet Metal	NETDVD(optional accessary) or Magnet-Metal-Feet can mag-
		netize them to seat firmly

Ž

There are four Magnet-Metal-Feet in the package. Just align them to the sheet metal on the bottom, then they can magnetize the NETTOP easily. The feet can seat and protect NETTOP when it is placed on the tabletop.

In this chapter, the placement and the connection of some necessary peripherals will be introduced.

This chapter includes the following information:

- Placement of NETTOP
- Connection of NETTOP

2-1 Placement of NETTOP

1. On the Desk

1. You can install your NETTOP in the mount like the right image.

2. If there is enough space on your desk, you can simply put your NETTOP on the tabletop as shown below.

÷

O O F

This is the best space-saving way.

1. Use four screws to fasten the bracket onto the display back.

<u>a</u> ::

G

To install this bracket, your display must follow VESA75/VESA100 standard. The two groups of holes on your dispaly have different space between, and they help you easily fasten the bracket onto your display.

0000 0

2. Fit the NETTOP into the bracket with power button locating at the top for easy touch.

3. After that, you can connect the antenna to your NETTOP.

2-2 Connection of NETTOP

1. Connect the Antenna

Connect the antenna to the RF port of the NETTOP. You can fold the antenna and rotate it in different angle as you want.

2. Connect the Monitor

Connect a monitor to the NETTOP through DVI connector.

3. Connect the USB Devices

Connect USB devices to the USB ports of the NETTOP, for example, mouse and keyboard.

4. Connect the Network Cable

Connect LAN cable to the RJ-45 port, with the other end connected to a hub or switch.

5. Connect the Power Cord

Connect the power adapter to the power input port of the NETTOP, and push the power button to start it.

The power adapter is dissipating heat during normal use, please make sure not to cover it and keep it away from your body to prevent discomfort or injury from heat exposure.

Make sure you have these ready :

- 1. NETDVD. (It is an optional accessory. If there is no NETDVD in this package, you need other purchase an external USB DVD-ROM drive.)
- 2. NETTOP driver CD. (In this package)
- 3. Windows 7 Install CD. (Other purchase)

Before we continue :

- Your NETTOP power is off.
- Connect the NETDVD or USB DVD-ROM drive to one USB port of NETTOP and power it on.

3-1 Install Windows 7

- 1. Push power on button to turn on your computer, then press key to enter BIOS Setup.
- 2. Put the Windows 7 Install CD into the NETDVD or USB DVD-ROM drive.
- Select and go to the "Boot" menu, set the "Boot Option #1" to DVD drive, press <F4> key to save change and exit BIOS.

- The computer will reboot, and it will start loading the files for installing the Windows 7 Operating System.
- After the computer reboots it will start loading the files for installing Windows 7. Click "Next" to continue and click "Install now" button to start the setup.
- 6. When the license terms appear choose accept and click "Next" to continue.
- It will then ask you to select the installation type. Click "Custom (advanced)" to install a new copy of Windows.

8. The setup will the display the hard disk partitions (160GB, in this example) of your system. If there were other systems (such as Linux) installed previously, you need select them and click "Drive options (advanced)" to delete them. When all partitions are clean, setup will display the biggest size of your hard drive.

Name Disk 0 Unallocated Space	Total Size I60.0 GB	Free Space Typ 160.0 GB	pe
€ Befresh @ Lead Driver		Drive options (ad	ivanced)
C. Tena pura			

9. In the hard disk size screen, you can click the "new" button to create partitions as you need. In this example we are creating a 70GB partition to install Windows. Make your modifications and click "Apply".

Name		Total	Size Free Space	е Туре	
🧼 Disk 0 Unal	located Space	160.1	0 GB 160.0 GI	В	
** Refresh	XDelete	Format	New New		_
Load Driver	Estend	Şize: 700	000 × MB	Apply Car	ncel

To ensure that all Windows features work correctly, Windows might create additional partitions for system files. So you will see a 100MB partition reserved by system after you create a partition. Select the 70GB partition and click "Next" to continue.

Disk 0 Partition 1: System Reserved 100.0 MB 86.0 MB System Disk 0 Partition 2 68.3 GB 68.3 GB Primary Disk 0 Unallocated Space 91.6 GB 91.6 GB 9 Disk 0 Unallocated Space 91.6 GB 91.6 GB 9 Disk 0 Disk 0 Unallocated Space 91.6 GB 91.6 GB 9 Disk 0	Name		Total Size	Free Space	Туре

10. The setup program will then start to install Windows 7 on your hard disk. During the installation, your computer will restart several times.

That's all the information we need right now. Your computer will restart several times during installation. ✓ Copying Windows files: Expanding Vindows files (15) . Installing refactures Installing updates Completing installation.
Copying Windows Riles: Expanding Windows Riles (139) . Installing features Installing updates Completing installation .

11. When the installation is complete, setup will prepare your computer for it's first use. You can then follow the steps to select system settings, create an account, set a password...etc, until the whole process is complete.

3-2 Install Drivers in Windows 7

- When the Windows 7 is completely installed, you have to install the necessary drivers before using the NETTOP. Take out the Windows 7 Install CD from the USB DVD-ROM drive, and put the NETTOP driver CD inside.
- 2. Waiting for a few seconds, the main menu will be displayed on the screen.

- 3. Use these options to install all the drivers for your system. You must click "AMD Chipset Driver" to install it first. After that, you can click "One Click Setup" and then choose the items you want to install, or you can click on each individual driver to install it manually.
- 4. After all the drivers are installed, you need to restart your NETTOP, then you can start using it.
