

VDL5PL

5" PLASMA BALL

USER MANUAL

VDL5PL – 5" PLASMA BALL

1. Introduction & Features

To all residents of the European Union

Important environmental information about this product

This symbol on the device or the package indicates that disposal of the device after its lifecycle could harm the environment.

Do not dispose of the unit (or batteries) as unsorted municipal waste; it should be taken to a specialised company for recycling.

This device should be returned to your distributor or to a local recycling service.

Respect the local environmental rules.

If in doubt, contact your local waste disposal authorities.

Thank you for buying the **VDL5PL**! Please read the manual thoroughly before bringing this device into service.

Make sure there is no damage caused by transportation. Should there be any, don't install and consult your dealer.

2. Safety Instructions

Be very careful during the installation: touching live wires can cause life-threatening electroshocks.

Keep this device away from rain and moisture.

Unplug the mains lead before opening the housing.

- Damage caused by disregard of certain guidelines in this manual is not covered by the warranty and the dealer will not accept responsibility for any ensuing defects or problems.
- A qualified technician should service this device.
- Do not switch the device on immediately if it has been exposed to changes in temperature. Protect the device against damage by leaving it switched off until it has reached room temperature.
- Make sure that the available voltage does not exceed the voltage stated in the specifications of this manual.
- Do not crimp the power cord and protect it against damage. Have an authorized dealer replace it if necessary.
- Always disconnect the device from the mains when it is not in use or when you wish to clean it. Handle the power cord by the plug only. Never tug at the power cord to pull the plug out.
- There may be some smoke or a particular smell when the device is activated for the first time. This is normal and any smoke or smell will gradually disappear.
- Do not look directly at the light source as sensitive people may go into epileptic seizure if they do.
- Note that damage caused by user modifications to the device are not covered by the warranty. Keep the device away from children and unauthorized users.

3. General Guidelines

- This device is designed for professional use on stage, in discos, theatres, etc. The **VDL5PL** should only be used indoors with the included 12VAC/500mA power adapter connected to an alternating current of 230VAC/50Hz.
- Do not shake the device. Avoid brute force when installing or operating the device.
- Select a location where the device will be protected against extreme heat, moisture and dust.
- Familiarize yourself with the functions of the device before actually using it. Do not allow operation by unqualified people. Any damage that may occur will most probably be due to unprofessional use of the device.
- Use the original packaging if the device is to be transported.
- All modifications of the device are forbidden for safety reasons.
- Only use the device for its intended purpose. All other uses may lead to short circuits, burns, electroshocks, crash, etc. Using the device in an unauthorized way will void the warranty.

4. Installation

- Install the device in a location where few people pass by and that is unreachable for unauthorized persons.
- Make sure there is no flammable material within a 50cm radius of the device.

5. Use

- Make sure the power switch is set to "OFF".
- Insert the DC jack of the adaptor into the device, and plug the adaptor into the mains outlet.
- Set the power switch to "ON". The device starts operating.
- Set the power switch to "AUDIO" for music controlled operation through the built-in microphone.
- You can control the lightning inside the ball by touching it carefully.
- Set the power switch to "OFF" to stop the device.

6. Cleaning and Maintenance

1. All screws for installing the devices or parts of the device have to be screwed tight and must not be corroded.
2. The housing, visible parts, mounting supports and the installation location (e.g. ceiling, suspension, trussing) should not be deformed, modified or tampered with e.g. do not drill extra holes in mounting supports, do not change the location of the connections, ...
3. The electric power supply cables must not show any damage.
4. Disconnect the device from the mains prior to maintenance activities.
5. Wipe the device regularly with a moist, lint-free cloth. Do not use alcohol or solvents.
6. There are no user-serviceable parts.
7. Contact your dealer for spare parts if necessary.

7. Technical Specifications

Power Supply	12VAC/500mA PSU, to be connected to 230VAC/50Hz
Power Consumption	12W
Dimensions	150 x 150 x 300mm
Total Weight	0.8kg
Max. Ambient Temperature	45°C
