

# UltraGauge

## SAFETY AND DISCLOSURE

Please initial each statement below and sign and date this document in the space provided. Include this form along with your reward form and packing slip.

### INSTALLATION WARNINGS

- When installing UltraGauge in your vehicle, place UltraGauge so that it does not obstruct the driver's view of the road or ability to operate the vehicle.
- Extreme care must be taken when routing the UltraGauge cable. Avoid routing and installing in such a fashion that the cable can interfere with any of the foot controls, steering wheel, or other vehicle controls, or represent an entry or exit hazard to the driver. Always secure excess or loose cable so that feet and hands do not become entangled.
- The windshield mount or Velcro mount may not stay attached under all conditions. Do not mount UltraGauge where it will become a distraction or hazard should it become detached.
- Do not mount UltraGauge in an area that may interfere with the deployment of airbags. Consult your vehicle's owner's manual.
- UltraGauge in rare circumstances may impair select vehicle systems. See the Forced Protocol section of the user manual for more information and resolution.

← I have read and understood the installation warnings

### OPERATION WARNINGS

- Never attempt to operate UltraGauge controls while the vehicle is moving. Not only is this extremely hazardous, UltraGauge stops performing mileage, distance and other calculations while the menu system is active.
- Never become distracted by UltraGauge while driving.

← I have read and understood the operation warnings

### LIABILITY

The use of UltraGauge is at your own risk. Ultra-gauge.com, shall in no event be liable for any damages, whether direct or indirect, special or general, consequential or incidental, arising from any loss claimed as a result of the use of UltraGauge.

← I have read and understood the liability statement

### USER MANUAL

The UltraGauge user manual is not included in the product box and is only available on-line at:

[http://ultra-gauge.com/ultragauge/support/UltraGauge\\_user\\_manuals.htm](http://ultra-gauge.com/ultragauge/support/UltraGauge_user_manuals.htm). This manual is subject to updates at any time.

For your safety, it is strongly recommended to read and thoroughly understand the Warnings, Notices, and Installation sections before using UltraGauge

← I have read and understood the user manual statement.

### Mounts

Proper use and installation instructions for the mounts are found here:

[http://ultra-gauge.com/ultragauge/support/Mounting\\_Options.html](http://ultra-gauge.com/ultragauge/support/Mounting_Options.html), and should be read and understood before use.

Never attempt to mold the neck of the windshield mount by grasping the mounting bracket or UltraGauge. Damage to UltraGauge and/or the mounting bracket may occur, as the neck while flexible is relatively rigid. Such damage is not covered by the warranty.

← I have read and understood the windshield mount statement

### **Mounting location**

Before selecting a mounting position, check state and local laws and ordinances to determine permissible mounting locations. Generally the preferred and optimal location is the left lower corner of the windshield, as this location is the least obstructive, generally closest to the OBD-II connector of the vehicle, semi-shaded, and is least visible from outside the vehicle. This location also will not block the use of a windshield sun-shade.

← I have read and understood the mounting location statement

### **Operating Temperature**

Do not leave UltraGauge unattended and exposed to extreme dash temperatures. Damage to the liquid crystal display (LCD) can occur. Remove UltraGauge from the dash when leaving the vehicle or use a sunshade protector. UltraGauge is warranted to operate without damage from 0 to 160 degrees Fahrenheit. Temperatures in excess of 160 °F void the warranty.

← I have read and understood the operating temperature statement

With my signature and initials, I certify that I have thoroughly read and understood each statement above. I understand that failure to heed this information may lead to potentially hazardous situations that can result in an accident or collision resulting in death or serious injury. I further understand that improper use may void the UltraGauge warranty.
