

AHBO 1.1
User's Manual,
Terms of Use
And
Privacy Notice.

Introduction

AHBO will pay you \$20 per hour for watching videos we supply.

Why?

People pay us to get others to watch their videos so we pay you! TV stations pay millions for shows you watch then break them into chunks with commercials sandwiched in between the chunks. They get you to watch free! We think your time is more valuable, so we

would rather pay you directly. We are a nonprofit organization so you know you are getting the best possible deal.

What kind of videos?

All kinds! The same type of videos you would see on YouTube, mostly infomercials.

What equipment do you need to be a viewer?

A computer with high speed Internet access is best, but a Smartphone or Internet dial-up access can be used. If you do not have any of the above equipment you can use an Internet Cafe, Internet Kiosk, or a public library.

NOTE: We are in the process of building our library and adding Video Producers. It is small now but it will grow rapidly!

The more Viewers the more Video for them to watch.

How do I get started?

Visit Twenty Per Hour dot com to get started. If you see a 'LogOff' button, click it. Create an account. Go scroll down and fill out the easy form and click "Submit".

Activate Your Account.

(This button will be yellow if your account has not been activated.)
Before you can withdraw funds your account needs to be verified by making a small monetary transfer of \$4.95 plus \$10.00, minimum balance into your account. Most of the \$4.95 is paid back to users as Finder's Fees.

Personal Wealth Builder

When creating or editing your account you may set your Personal Wealth Builder number. This is the number of accounts with your promocode you intend to add each year. When you need to add more users the SupersizeYourIncome button will turn yellow.

When you click it an approved ad will appear to copy and clicking the button will present a unique search results page. Place as many ads as you can to watch your income rise.

Edit Account.

At any time you want you may edit your account by clicking the 'Edit Account' button.

Here you can do things like change your password or address.

Logoff and Logon AHBO, allows you to Logoff and Logon as needed.

These buttons are used to protect your account when you use public access computers where there are people who have access to the same computer or with public access WIFI.

Your account can be hijacked if you forget to log off and others have access to the computer.

How much does it cost?

Creating an account is \$4.95! When you activate it you make a small monetary transfer into your new account to verify your status. Other than that, *we pay you!*

Paycheck.

Any time you want to get paid click 'Withdrawal'. You will be told your balance and asked how much you want to withdraw. There is a small, \$2, transfer fee and your money is safely transferred by PayPal to any bank in seconds rather than taking days.

Supersize Your Income.

(This button turns yellow if you don't try to expand membership as you promised.)

The new way to look at jobs is as income streams. You need as many different income streams as you can get. At AHBO we understand that and we make Income Streams as simple as possible to both obtain and use. The central feature to our approach is the

Promo Code. When you create an account you also create your Username which becomes your Promo Code. When others use it, for instance, when activating their account, you get paid a finder's fee as part of a Signing Bonus.

The Signing Bonus is based on 10 so it is very important ten or more people create accounts using your Promo Code. This is one of the many ways to Supersize your income. AHBO sells hours of video access to our customers. Your Promo Code allows you to sell our product because it can be used to uniquely identify you as the Sales Agent when sales are made. A person who views our videos is called a Viewer while a person who gives us those videos is called a Video Producer. You do not have to sell our product but it is a simple and easy way to make money. Just place free ads in Ebay Classafieds,

Craigslist, or other online free publication.

Viewers

Viewers get paid to watch our videos. They are freelance workers / Independent Contractors who control their own hours, which can be any period 24 - 7, and we do not control their workplace, which can be anywhere they wish. They are responsible for their own taxes. We do not collect Social Security numbers so we cannot provide 1099's.

Viewers fill out a form, called a Viewer Survey, which determines which videos they will watch.

Viewer Operations.

The Viewer logs in and presses View Videos. Scrolling down they then click Start to begin. The first video will play, including a key which is a silhouette figure on a golden key say, of a bear.

On completion of the video the Viewer again clicks View Videos and clicks Key, selects the key, in this case a bear. The Viewer then clicks Link, Next, or Dislike.

Link - links the Viewer to the Video Producer's website. When the Viewer comes back to AHBO they will return to the same place. The Viewer then clicks "Next" or "Dislike".

Next - compares the selected key with the actual key. If it is correct the Viewer is paid and the next video is played. If it is not correct the last video is played again.

Dislike - If the Dislike key is clicked the selected key is checked and if correct the Viewer is paid. Then the next video is played. The difference between the Next button and the Dislike button is Dislike will not display the last video again and the viewer will never again have to view the video.

Search Operations

'Search Videos' allows you to replay any video in the library based on key words found in the video description. You may specify whether exact or similar key words will be specified. You are not paid for watching. Once you find the video you want you may Link' to the associated website.

Privacy Policy.

Your information will not be disclosed to a third party and you will not be identified by name. We are very careful NOT to collect information that could be useful in identity theft or other criminal activity.

Video Producers.

Video Producers upload the videos on our system. They may select the location and demographics of viewers. They can set a daily budget by video. Finally, they pay for a number of views by the hour. We then make the videos available to our viewers. We keep meticulous records of views so the Video Producer can wisely select future viewers.

Video Producer Operations.

Video Producers first create an account. Click “Logoff” if it is visible and then click 'Create Account, scroll down to the form and fill it out and then click “Submit”.

You may fill out a Viewer Survey if you also want to become a Viewer, but it is not necessary.

Uploading Video.

Click 'Upload Video', fill out the form and submit it. Depending on how long the video is it may take a while to upload. When it completes click 'Edit Video Page'.

Edit Video Page.

Each video has a data page which describes the video and sets the criteria

for viewers. You will see a page with all the videos uploaded by this account.

Each has a name block on the left. Click the name block of the one you want to edit.

Fill out at least the start, stop and location criteria.

The location criteria is A box labeled “must contain box”.

Enter the country codes, state codes, city names, or zip codes desired in the must contain box.

All boxes are treated as do not care if left empty. If something is in a box, it must appear in the Viewer Survey verbatim.

Any boxes with a comma have multiple correct answers and the comma means 'or'.

For instance if you want two or more zip codes separate them with commas, like this: 38456,38457. This means accept 38456 or 38457. No spaces.

Fill in any boxes you desire. After a month or so you can come back to this page and view actual demographics. Scroll down to the daily budget and set it, and then click 'Submit'.

Your video will be inspected, converted and made available to our viewers within 24 to 48 hours.

You will be notified by eMail when it is ready to schedule.

Schedule Your Video.

You may schedule your video by buying it a block of hours. Click 'Edit Video Page'. All videos uploaded to this account will be displayed by description. Click 'Add To Cart' next to the video you want to schedule. Click 'View Cart' to change the quantity of hours. You may click 'Checkout', when you are ready.

The total will be added to your account. Since each new video gets an hour of complimentary, or free, time when it is uploaded, it might begin playing for free before you schedule it.

Settling Up.

You must settle your account each day unless you have made other arrangements with us. You do this by clicking 'Add Funds' when you are ready. You will be advised of your

balance, asked how much you want to deposit in your account, then you will be transferred to PayPal for the actual transaction.

We never see or store, your credit or debit card number or information.

This prevents us from accidentally double charging your card and protects you by limiting the distribution of your card information.

Screen Orientation.

The left hand side of the screen contains buttons and indicators while the right hand side contains a TV screen.

The top control line contains a button marked 'Settings'. Click it to change Language, Format, or Delivery.

The Language sets the language used by the software. Normally it is set to United States English.

The Format selects the video output. Use Flash. You can get Flash Apps for any smart phone. The Delivery is normally set to Cloud, but may be set to local resources like a removable CD.

In this case, for extra charge, AHBO sends an updated CD every 2 weeks. To the right of the Setting button is a data block which shows who is logged on to this machine.

Under the Setting button are 3 odometers which show, respectively, the account total, the total number of

Viewers, and the total number of Videos when this machine started.

Click 'Welcome' to update the counters. The buttons change depending upon whether or not someone is logged on.

The 'More' button brings up a list of notes you can refer to in the selected language. The rest of the buttons are self explanatory.

Due to constantly striving for perfection, all prices, features, and functions are subject to change without notice.

Future Features.

- 1) Frequently Asked Questions
- 2) Messaging
- 3) Reviews
