

## Beatmaster Wireless Foldable Headphone

\*\*\*Important note before use\*\*\*

If your PC does not have built-in bluetooth functionality, we suggest you using a bluetooth dongle, version 2.1 or above.

### I. Function:

- Serves as both a Wireless music headphone and phone headset for hands free calling.
- High sensitivity, omni-directional, concealed microphone lets you enjoy crystal-clear phone calls with a portable concealed microphone.
- Rich and dynamic sound with enhanced bass, and great clarity from the acoustically advanced, high efficiency 40mm driver.
- Instant access to call and playback controls plus volume level buttons make adjustments a breeze
- Compatible with most Bluetooth enabled music players & A2DP enabled devices such as iPad, iPhone, iPod touch, Android Smart Phones, etc.
- Soft leatherette ear cushions let you listen to your entertainment in extreme comfort, even during long hours of extended wear.

## II. Package Content:

Foldable Headphone, User manual, USB charge cable, 3.5mm audio cable (1.5M), Travel pouch.

## III. Key Description:

1. LED Indicator
  2. Volume+/Previous song
  3. Volume-/Next song
  4. ON/OFF/Pairing/Pause
  5. USB 5V Input Port
  6. Audio Input Port
- When pairing: Red/Blue LED will flash in turn.
  - When Connecting: Blue LED will flash slowly.
  - When charging, Red LED light will constantly illuminate, and will switch off when fully charged.

Charging via Micro USB charge connection.  
3.5mm audio jack for wired headphone use, you can connect headphone to any audio source (with 3.5mm audio jack, like mobile phones, tablets, PC etc) as wired headphone.

## IV. Headphone Charge:

- Battery: Built-in rechargeable lithium battery, DC: 3.7V/200mAh.
- Charging power: Through computer USB OR DC5V port.
- Charging time: For the first usage please put to charge at least 4 hours continuously, For subsequent charging 2-3 hours is sufficient for 5-6 hours of usage at average volume. When charging, Red LED stays on, and off when headphone is fully charged. NEVER leave Headset to over-charge.

## V. Headphone Pair

1. Please put your cell phone within 1M away from your headphone, the closer, the better.
2. Hold button until red/blue LED flashes in turn, then your headphone is in pairing mode.
3. Open the Bluetooth function on your cell phone, search the Bluetooth device –“NUSOUND (NUHD-021)”, then confirm with password No. 0000 if necessary.
4. After your cell phone is paired with headphone, headphone will automatically enter into Standby Mode, with blue LED flashing 2 times fast by each 6 seconds.

Remark: The time limited for Bluetooth headphone is normally 2-3 minutes, if the red/blue stops flashing in turn, the pairing is finished; If you failed to pair, please repeat the above steps.

## VI. Answer the Call and Stop the Call

- When calling is incoming, there will be indication sound in the headphone, press the power button shortly, then you can answer the call. Or you can use your cell phone to answer the call. Hold the button to refuse phone call.
- When finished the call, please press the power button shortly again to end the call or you can use your cell phone to do this.

## VII. Exchange the headphone calling into Cell phone calling

You can press the power button for 3 seconds to change the call between headphone and cell phone.

- Choose music  
When listening to music from PC, press “ON/OFF” key quickly to pause , also press “Volume+” and “Volume-” key quickly to choose songs.
- Adjust volume:  
Hold the “Volume+” and “Volume-” to adjust the volume.

## VIII. VOIP function for Mobile phone use

1. Under standby mode or music playing status, if you press "Power" button shortly, Mobile phone will enter into VOIP mode. After stop VOIP, music will continue to play on your mobile phone.
2. Re-dialing the last called number: This headphone can support last call re-dial, just press the power button for 2 seconds, then you can re-dial the last called number.

## IX. Music listening

When listening the music on mobile phone, if there is call in/out, the music will stop, and continue to play after calling.

## X. Headphone Sleeping function

After you disconnect the bluetooth connection between PC/Mobile phone and headphone, the blue LED light will flash one time slowly by each 6S, you can directly re-connect the PC/Mobile phone with headphone by clicking connection function with in 10 minutes. No need to re-pair or re-power the headphone. After 10 minutes, the headphone will power-off automatically, then if you want to use

your headphone, you need to power on it (blue LED light flashes quickly), headphone and mobile phone will connect automatically.
