How to Use the CurveCube

Pairing the CurveCube

1. Turn on the CurveCube and turn on Bluetooth on your phone or device.
2. Search for CurveCube on your device or phone, then click on it. If necessary, enter security password 0000 if asked for it.
3. When the blue light is on, the CurveCube is connected to Bluetooth and ready for playback.

Using the Curve Cube

The CurveCube is completely controlled, for the most part, by your device. Use whatever controls for playback are available to control the CurveCube.

How to Recharge the CurveCube

When the red light flashes, the CurveCube needs to be recharged.

1. Plug the USB micro cable that came with the CurveCube and plug it into an AC adapter (not included) or computer.
2. Unplug the USB micro cable from the CurveCube when fully charged.

Usage Tips

The CurveCube works best when speaker is unobstructed and within distance of your phone or device. If static occurs, you're too far away from the CurveCube.

The louder the music you listen to, the quicker you'll burn out the CurveCube speaker. Always listen at a volume responsibly.
