

**DigiGuard TVI DVR
User Manual for Mobile App Cloud P2P**

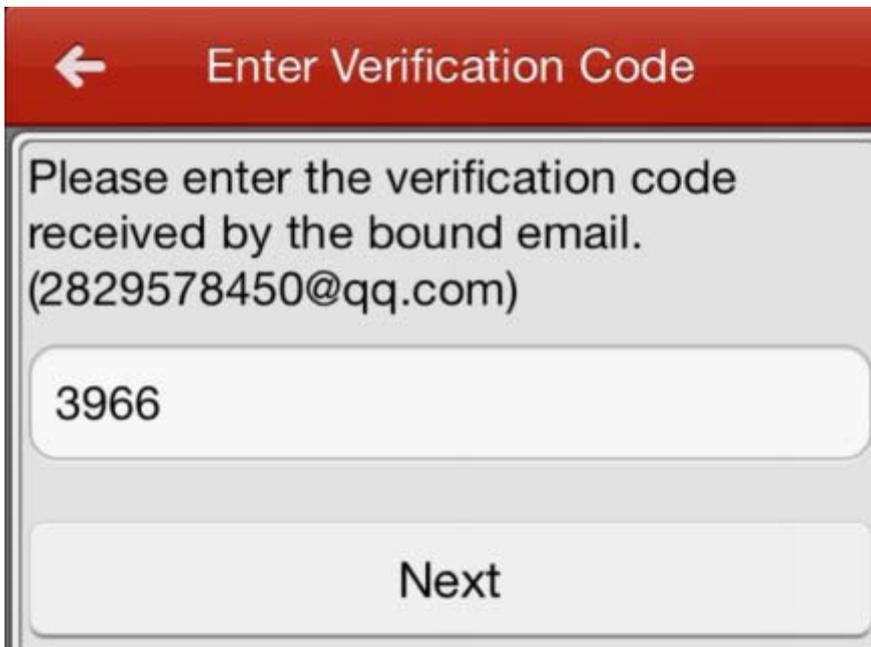

Step-1: Register your P2P Account

Download “Guarding Expert” for mobile or “Guarding Expert HD” for tablet device. Open the APP and click on menu icon  on the left top corner and click on  tab. Enter your “User Name/Email” and “Password” then Click on “Register”

Now, enter your email address again and type in Verification code which should be the same as next to the field on your right hand side. After that Click on “Get Verification Code”

Log in to your email account and find for your Verification Code in your email. Enter your Verification Code received from your email and click on “Next”.

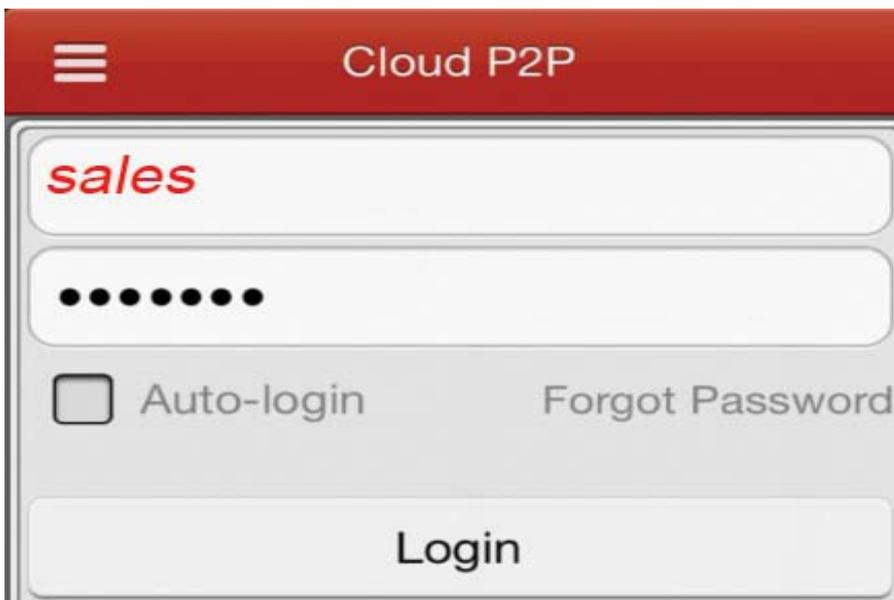

← Enter Verification Code

Please enter the verification code received by the bound email.

Login

Step-2: Log in to your P2P Account

Enter the user name and password (which registered on step-1) then click on Login.

Notes:

- ☐ You can check Auto-login checkbox to remember the user name and password log into the Cloud automatically. If you forget your password, click Forgot Password to verify your account.

Step-2: Add Device to your P2P Account

Click  to enter the QR-Code scan interface.

Now, Click on  icon to enter the serial No. (9-bit) from the DVR then enter Verification Code.

Here we take D-HIK-7204 as an example. You can find your Serial number by entering into “System Maintenance” section under “Device info”. Please refer to following the picture as an example to search for your serial No. and Verification code.

Serial No. : 492126247

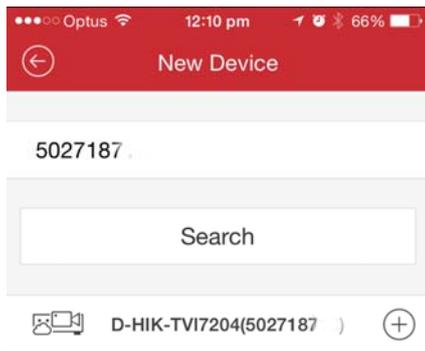

Verification code: ABCDEF

Once Verification code is entered then Click on “Search”.

**Please note DVR must connect to your network*

Now you will see your DVR on the list

Open the device management and start live view.

Notes:

Only the device that supports the Cloud P2P can be added.

The device can only be added to one Cloud account.
